

Notice of retraction

DOI 10.1515/epoly-2014-9999

By this notice, the editors and the publisher of the journal *e-Polymers* retract from publication the following article:

Andjela Lazarevic, Predrag Jankovic, Milos Madic, Dragoljub Lazarevic; *Optimization of polyamide PA-6 surface roughness using the integrated Taguchi method and artificial neural network*; e-Polymers, ISSN (Online) 1618-7229; published ahead-of-print May, 15th, 2014; DOI: 10.1515/epoly-2014-0023.

This retraction is due to the following reasons:

Firstly: after publication, an unsettled authorship dispute has been brought to our knowledge. Secondly: a detailed evaluation of the article's similarity check revealed text recycling (self-plagiarism) of relevant parts of the contribution without proper cross-referencing.

We ask the readership to accept our sincere apologies.

Note: The retracted article can be found at the journal's website www.degruyter.com/journals/epoly under the DOI: 10.1515/epoly-2014-0023.
