

Frigid Zone Medicine

GENERAL INFORMATION

Frigid Zone Medicine (FZM) is an international journal published by De Gruyter under the sponsorship of Heilongjiang Health Commission and supervision of Heilongjiang Health Development Research Center, China.

FZM publishes articles on the latest research results and leading developments in the field of frigid-zone medicine in biology and biomedicine, providing an international academic platform for the local and overseas researchers of related fields. The scope of *FZM* covers basic science and translational research of pathophysiology, pharmacology, medical biochemistry, medical molecular biology, medical genetics, medical immunology, medical microbiology, clinical medicine and traditional medicine. The column consists of Editorials, Review, Original Article and Case Report. In addition, *FZM* also publishes comments from outstanding experts, clinical guideline, letters, new methods and technologies, etc. in this field. *FZM* aims to build a high-quality international medical platform for academic communication and development, lead the academic study of frigid-zone medicine, and ensure rapid dissemination of important scientific achievements to the public all over the world.

Aiming at high-level international journals, *FZM* strictly complies with the international disciplines and strategies of the editing and publishing. All of the reviewers are internationally renowned experts following the standard peer-review process. *FZM* is an open-access journal, and all articles are published online with free and permanent access.
