

Conference announcement

Carlos Lodeiro* and José Luis Capelo*

1st International Symposium on Nanoparticles/ Nanomaterials and Applications (ISN²A-2014; Costa de Caparica, Portugal, January 20–22, 2014) and 1st International Conference on Ultrasonic- based Applications: from Analysis to Synthesis. (ULTRASONICS2014; Costa de Caparica, Portugal, September 15–17, 2014)

*Corresponding authors: Carlos Lodeiro and José Luis Capelo,
BIOSCOPE Group, REQUIMTE, FCT, University Nova of Lisbon,
2829-516, Portugal, e-mail: cle@fct.unl.pt; jlcm@fct.unl.pt

ISN²A-2014

Conference theme

The 1st International Symposium on Nanoparticles/Nanomaterials and Applications (ISN²A-2014) brings together researchers, academics and scientists from the nanoparticles and nanomaterials community and creates new research in the follow subjects:

- Nanoparticles/Nanomaterials in Environmental Sciences
- Nanoparticles/Nanomaterials in Medicine
- Nanoparticles/Nanomaterials in Biology
- Nanoparticles/Nanomaterials in Chemistry
- Toxicology of Nanoparticles/Nanomaterials
- Nanoparticles/Nanomaterials in Innovation
- Computational Studies in Nanoparticles/Nanomaterials
- Nanoparticles/Nanomaterials for Energy Storage

The conference will offer 5 Plenary Lectures, 20 invited Keynotes and 130 Oral Conferences. In addition you are welcome to the exhibition where you can learn about the latest advances in the field. There will be poster presentations too; we still have room so if you are interested please contact us.

Venue

ISN²A-2014 will be held in the beautiful town of Caparica (<http://vimeo.com/4939136>).

Highlights

Plenary lectures will be given by Prof. Luiz Luiz Marzan (Spain), Prof. Elvira Fortunato (Portugal), Prof. Luisa de Cola (France), Prof. Alcindo dos Santos (Brasil) and Prof. Luca Prodi (Italy)

The Royal Society of Chemistry supports this conference through the Nanoscale Journal, which will award the best poster presentation. Furthermore, the Journal of Nanoparticle Research (Springer) will publish a special issue devoted to this conference. In addition, the company LaborSpirit will award the best oral conference.

ULTRASONICS2014

Conference theme

We are delighted to welcome you to Caparica (Lisbon, Portugal), for the 1st International conference on ultrasonic-based applications: from analysis to synthesis (ULTRASONICS-2014), one of the major events in 2014 on the Ultrasonic field.

Symposium Subjects:

- Ultrasound in Analytical Chemistry
- Ultrasound in Organic and Inorganic Synthesis
- Ultrasound in Synthesis of New Materials: Studies and Applications
- Ultrasound in Physical Chemistry Applications
- Ultrasound in Sample Treatment
- Ultrasound in Biochemical applications
- Ultrasound in Biomedicine
- Ultrasound and Environmental Applications
- Ultrasound and Physics
- Ultrasound and Engineering
- Ultrasound in Physical Applications

The conference will offer 5 Plenary Lectures, 20 invited Keynotes and 140 Oral Conferences. In addition you are welcome to the exhibition where you can learn about the latest advances in the field. There will be poster

presentations too; we still have room so if you are interested please contact us.

Venue

ULTRASONICS2014 will be held in the beautiful town of Caparica (<http://vimeo.com/4939136>).

Highlights

Plenary lectures by Prof. Aharon Gedanken (Israel), Prof. J. Y. Chapelon (France), Prof. Kenneth Suslick (USA), Prof. Andreas Mandelis (Canada). Best oral and poster presentations will be awarded.
