The International Journal of Biostatistics (IJB) is a peer-reviewed journal devoted to the entire range of biostatistics. Now indexed in Thomson/ISI, the journal offers cutting-edge research in biostatistical methods and models, statistical theory, biostatistics computing, and applications of statistical methods for important practical problems in the biological, medical, public health, and agricultural sciences. The journal is edited by the most prominent scholars in the field: Nicholas P. Jewell (UC Berkeley), Raymond Carroll (Texas A&M), James Robins (Harvard), and Mark van der Laan (UC Berkeley).

ISSN 2194-573X · e-ISSN 1557-4679
