

**Editor-in-Chief and Editor
for Europe, Middle East and Africa**

J. A. Covas
Institute for Polymers and Composites
Dept. of Polymer Engineering
University of Minho, Portugal
4804-533 Guimarães, Portugal

Associate Editor for the Americas

M. Kontopoulou
Department of Chemical Engineering
Queen's University
Kingston, ON K7L3N6
Canada

**Associate Editor for East Asia
and Australia**

T. Kajiwara
Department of Chemical Engineering
Kyushu University
744 Motooka, Nishi-ku
Fukuoka 819-0395, Japan

Editorial Board

J. F. Agassant, Valbonne, France
V. Altstadt, Bayreuth, Germany
S. Bhattacharya, Melbourne, Australia
M. Bousmina, Rabat, Morocco
M. Cakmak, Akron, U.S.A.
P. Cassagnau, Lyon, France
M. Fujiyama, Yamaguchi, Japan
C. Holzer, Leoben, Austria
M. R. Kamal, Montreal, Canada
T. Kanai, Anegaski, Japan
T. Kikutani, Tokyo, Japan
J. K. Kim, Pohang, Korea
V. Kulichikhin, Moscow, Russia
L. J. Lee, Columbus, U.S.A.
V. Legat, Louvain-la-Neuve, Belgium
S.-J. Liu, Taipei, Taiwan
P. Moldenaers, Leuven, Belgium
M. Ohshima, Kyoto, Japan
C. B. Park, Toronto, Canada
L. A. Pessan, Sao Carlo, Brazil
J. Qiao, Beijing, PRC
L.-S. Turng, Madison, U.S.A.
J. Vlachopoulos, Hamilton, Canada

Regular Contributed Articles

- M. Guo, X. Li, J. M. Maia*
Fiber Length Distribution in Twin-Screw Extrusion of Fiber-Reinforced Polymer Composites: A Comparison between Shear and Extensional Mixing 350
- A. Ghanbari, M.-C. Heuzey, P. J. Carreau*
The Effect of Nanosilicates on the Performance of Polyethylene Terephthalate Films Prepared by Twin-Screw Extrusion 358
- X.-Y. Pang, Y.-F. Meng, Y.-P. Xin, R. Chang, J.-Z. Xu*
Synergistic Effect between Modified Graphene Oxide and Ammonium Polyphosphate on Combustion Performance, Thermal Stability and Mechanical Properties of Polylactic Acid 367
- K. Matsumoto, T. Tanaka*
Basic Study of Extensional Flow Mixing for the Dispersion of Carbon Nanotubes in Polypropylene by Using Capillary Extrusion 379
- B. Buffel, K. Leeman, F. Desplentere*
Pulsed IR Heating of Thermoplastic Sheets for Thermoforming Applications 388
- U. Kemiklioğlu*
Novel Design and Comparison of Structural and Modal Analyses of Auxetic Geometry versus Honeycomb Geometry 398
- K. Iiba, W. Takarada, T. Kikutani*
Effect of Introducing Long Chain Branching on Fiber Diameter and Fiber Diameter Distribution in Melt Blowing Process of Polypropylene 403
- C. Li, X.-J. Shi, X.-H. Tuo, Y.-M. Gong, J. Guo*
Study on the Relationship between the Bonding Surface and Mechanical Properties of PLA/Epoxy Laminated Composites 410
- Y. Hamid, P. Svoboda*
A Study on Thermal and Electrical Conductivities of Ethylene-Butene Copolymer Composites with Carbon Fibers 417
- F. Schulte-Hubbert, D. Drummer, L. Hoffmann*
Model Approach for Displaying Dynamic Filament Displacement during Impregnation of Continuous Fibres Based on the Theory of Similarity – Theory and Modelling . . . 423
- S. Pachner, W. Roland, M. Aigner, C. Marschik, U. Stritzinger, J. Miethlinger*
Using Symbolic Regression Models to Predict the Pressure Loss of Non-Newtonian Polymer-Melt Flows through Melt-Filtration Systems with Woven Screens 435
- Z.-Q. Li, L.-C. Ran, Y. Lang, T. Wu, Y. L. Chen, B. S. Chen*
Preparation and Photo-Oxidation Aging Behavior of Oriented Polylactic Acid 451
- D. Sönmez, A. A. Eker*
Numerical Simulation and Process Optimization of a 3D Thin-Walled Polymeric Part Using Injection Compression Molding 459
