The *Journal of Biosecurity, Biosafety and Biodefense Law (JBBBL)* offers both a legal and scientific perspective on current issues concerning bioterrorism, public health and safety, and national security. Edited by an international board of leading scholars from all the continents, our journal is aware that bioterrorism related issues are global problems. Our goal is to develop a unique international community of legal scholars, scientists and policy experts who will address current issues in these fields.

Submission is welcome from all over the world from both the scientific and legal community. Submitted articles will be evaluated for possible publication according to their topical relevance and the importance of their contribution to scholarship. In support of the timely nature of this material, articles are published very quickly upon acceptance.
