Dear Dr. Sengupta,

A meeting of the Institutional Ethics Committee of IPGME&R, Kolkata, was held on 05.12.2015 at 12:00 Noon in the IPGME&R Dean's Office. In this meeting, the members considered the protocol of your project titled:

Studies on the role of regulatory variants of the genes involved in xenobiotic metabolism and DNA repair in conferring differential susceptibility to or protection against cigarette smoke induced lung carcinogenesis in Indian context.

The following additional documents were reviewed:

- Informed consent documents in English.
- Informed consent documents in Hindi.
- Informed consent documents in Bengali.

After deliberations and review the committee took the following decision regarding the above documents:

Approved

You may therefore go along with the project in its present form. It is placed on record that the decision regarding your proposal was unanimous and therefore did not require any voting procedure.

The Committee understands that from IPGME&R, Kolkata, the Co-Investigator for your project would be Dr. Ritabrata Mitra, Assistant Professor, Department of Pulmonary (Chest) Medicine.

The list of committee members present in this meeting are appended to this page.

Additional points, if any, stated on the next page are to be noted.
