Corrigendum to: The effects of a 12-week jump rope exercise program on body composition, insulin sensitivity, and academic self-efficacy in obese adolescent girls

<https://doi.org/10.1515/jpem-2020-2132>

Corrigendum to: Jun Kim, Won-Mok Son, Ronald J. Headid III, Elizabeth J. Pekas, John M. Noble and Song-Young Park. 2020. The effects of a 12-week jump rope exercise program on body composition, insulin sensitivity, and academic self-efficacy in obese adolescent girls. *Journal of Pediatric Endocrinology and Metabolism*. Volume 33, Issue 1, pages 129–137 (DOI: 10.1515/jpem-2019-0327):

The following error was published on page 2. The incorrect Institutional Review Board (IRB) number under

“Participants” section was accidentally reported. The text was incorrect and should have no IRB#, as this study was performed in 2011. Pusan National University’s IRB was initiated in 2013; therefore, an approved IRB was not required to carry out these research procedures. However, data collection and all the procedures were appropriately performed in accordance with the Declaration of Helsinki, and informed consent from each participant was still received despite no IRB approval requirements for study initiation. Therefore, there were no ethical violations or issues for the study. We apologize for this error.

^aJun Kim and Won-Mok Son contributed equally to this work.
