An official journal of the American Statistical Association, *Journal of Quantitative Analysis in Sports (JQAS)* publishes timely, peer-reviewed research on the quantitative aspects of professional and collegiate sports. Articles come from a wide variety of sports and perspectives and deal with such subjects as measurements of player performance, tournament structure, and the frequency and occurrence of records. Additionally, the journal serves as an outlet for professionals in the sports world to raise issues and ask questions that relate to quantitative sports analysis. JQAS brings together sports professionals and scholars from across the disciplines of statistics, operations research, economics, psychology, sports management, and business. The expert editorial board includes David Annis (SportsQuant.com), Roland A. Carlstedt (American Board of Sport Psychology), Phillip Everson (Swarthmore College), Paraag Marathe (San Francisco 49ers), and Jan Vecer (Columbia University).

All information regarding notes for contributors, subscriptions, Open Access, back volumes and orders is available online at www.degruyter.com/jqas.
