Instrumentation and control in nuclear power plants

A. B. Wahba: The role of instrumentation for safe operation of nuclear power plants and for management of severe accidents	71
W.-H. Dio and M. Grosse-Schulte: Radiation and neutron flux monitoring in nuclear power plants.	76
V. Bauernfeind, B. J. Olma, R. Sunder and D. Wach: Development of diagnostic methods for on-line condition monitoring of primary system components.	84
W. Hinz, C. Arnoldt and C. Heßler: Screen-based process control in nuclear plants	98
W. Aleite: Reactor instrumentation and control in nuclear power plants in Germany.	104
D. Beraha, H. Jahn, O. Lupas and T. Voggenberger: Extended support for accident analysis in the Test Control Room	115
H. D. Fischer, U. Mertens and A. Graf: Digitalized safety instrumentation and control system	123
J. Prock: Computer-based signal validation and early fault detection in nuclear plants – an example	129
L. Felkel: Application of expert systems technology in nuclear plants .	133
