

Laboratory Medicine

Vol. 20 (1989) No. 6 (June)

Quality Control in the 1990s. (Cembrowski, G. S., Carey, R. N.; SD: Carey, R. N., Peninsula Gen. Hospital and the Dept. of Medical Technology, State Univ., Salisbury, MD 21801, USA) S. 375.

Total Quality Control: Evolution of Quality Management Systems. (Westgard, J. O., Barry, P. L.; Dept. of Pathology and Lab. Medicine, Univ. of Wisconsin, Madison, WI 53792, USA) S. 377.

Quality Control in the Clinical Laboratory: An individual Perspective. (Barnett, R. N.; Mt. Sinai School of Medicine, New York, NY, USA) S. 385.

Performance Characteristics of Quality Control Systems. (Hackney, J. R.; Hematology Lab., Ochsner Foundation Hospital, New Orleans, LA 70121, USA) S. 388.

Implementation of Multiple Quality Control Procedures. (Carey, R. N.; Peninsula Gen. Hospital and the Dept. of Medical Technology, State Univ., Salisbury, MD 21801, USA) S. 393.

Considerations for the Implementation of Clinically Derived Quality Control Procedures. (Cembrowski, G. S., Carey, R. N.; SD: Carey, R. N., Peninsula Gen. Hospital, and the Dept. of Medical Technology, State Univ., Salisbury, MD 21801, USA) S. 400.

An Approach to the Use of Clinical Limits for Quality Control. (Duville, P., Cembrowski, G. S.; Service de biochimie, Hôtel-Dieu, Québec, Qué., Canada, G1R 2J6) S. 406.

Delta Checks for Random Error Detection in Hematology Tests. (Houwen, B., Duffin, D.; Dept. of Lab. Medicine, Foothills Hospital and Dept. of Pathology, Univ., Calgary, Alberta, Canada) S. 410.

Use of a Multiple Control Chart for the Quality Control of PT and aPTT Analyses. (Cembrowski, G. S. et al.; Park Nicollet Medical Center, Minneapolis, MN 55416, USA) S. 418.

Proficiency Testing in Clinical Chemistry: A New Look at an Old Problem. (Laessig, R. H., Ehrmeyer, S. S.; Depts. of Pathology and Lab. Medicine and Preventive Med., Univ. of Wisconsin, Madison, WI 53706, USA) S. 422.

Performance of External Quality Control Systems. (Ehrmeyer, S. S. et al.; School of Allied Health Professions, Univ. of Wisconsin, Madison, WI 53706, USA) S. 428.

Pursuit of Quality Testing in the Physician Office Laboratory. (Kurtz, D. F.; Dept. of Pathology and Lab. Medicine, Univ. of Wisconsin; State Lab.; and Regional Lab. Services, Univ. of Wisconsin Hospital, Madison, WI 53706, USA) S. 432.

Wages and Vacancy Survey of Medical Laboratory Positions in 1988: Part II. (Castleberry, B. M. et al.; American Society of Clinical Pathologists, Chicago, IL and Market Opinion Research, Detroit, MI, USA) S. 437.

Zentralblatt für Bakteriologie, Mikrobiologie und Hygiene

Series A: Medical Microbiology, Infectious Diseases, Virology, Parasitology

Vol. 270 (1989), No. 3 (January)

Investigation on Monoclonal Antibodies Against Two Serovars of the icterohaemorrhagiae Serogroup of Leptospira. (Van-He, Z. et al.; Inst. of Epidemiology and Microbiology, P.O. Box 5, Chang Ping, Beijing, P. R. of China) S. 329.

Levels of Toxic Shock Syndrome Toxin-1 Production Among Staphylococcus aureus Strains and Clinical Implications. (Naidu, A. S. et al.; Dept. of Medical Microbiology, Univ., Solvègeat 23, S-22362 Lund) S. 337.

Ability of Smooth and Rough Variants of Mycobacterium avium and M. intracellulare to Multiply and Survive Intracellularly: Role of C-Mycosides. (Rastogi, N. et al.; Inst. Pasteur, Service de la Tuberculose et des Mycobactéries, 28, rue du Dr. Roux, F-75724 Paris Cedex 15) S. 345.

Antigenic Analysis of Vibrio cholerae O1 by Crossed Immunoelectrophoresis. (Kabir, S.; Tobakspinnargatan 5, 2 Tr, S-11736 Stockholm) S. 361.

The Significance of the Ispzyme IgA and IgG Antibody Test in the Diagnosis of Urogenital Chlamydial Infections. (Näher, H., Petzoldt, D.; Univ.-Hautklinik, Voßstr. 2, 6900 Heidelberg 1) S. 373.

Rapid Detection of Group B Streptococci in Vaginal Swabs of Parturients by Latex Particle Agglutination. (Hoppe, J. E. et al.; Section of Bacteriology, Univ. Children's Hospital, Rümelinstr. 23, 7400 Tübingen) S. 379.

Mikrobielle Besiedlung kariöser Progressionsstadien im Dentin menschlicher Zähne — eine kontrollierte Therapiestudie (Kneist, S. et al.; SD: Künzel, W., Wissenschaftsbereich Präventive Stomatologie, Sektion Stomatologie an der Medizinischen Akademie, Nordhäuser Str. 74, DDR-5010 Erfurt) S. 385.

Antibodies against Toxic Shock Syndrome Toxin No. 1 (TSST-1) in Poland. (Bulanda, M. et al.; Inst. of Microbiology, Medical Academy, 18 Czysa Street, PL-31-121 Krakow) S. 396.

Pathogenicity Testing of Listeria Strains Isolated from Food in Fertilized Hen's Eggs. (Lattmann, Ch. et al.; Inst. für Hygiene und Mikrobiologie, Josef-Schneider-Str. 2, 8700 Würzburg) S. 400.

Quantitative Assessment of Human Neutrophil Chemiluminescence Induced by Opsonized Escherichia coli K-12. (Jung, T. W. et al.; Inst. of Veterinary Virology, Langgass-Str. 122, CH-3012 Berne) S. 406.

Enhancement of Neutrophil Adherence to Toxocara canis Larvae by the C₃ Component of Complement and IgG Antibodies. (Huwer, M. et al.; Inst. für Parasitologie und Tropenveterinärmedizin, FU Berlin, Königsplatz 65, 1000 Berlin 37) S. 418.

Duck Hepatitis B virus: Cloning and Subcloning of the Viral Genome. (Dexle, K. et al.; SD: Blum, H. E., Dept. of Medicine, Univ., Hugstetter Str. 55, 7800 Freiburg) S. 424.

Prevalence of Borrelia burgdorferi in Ixodes ricinus Ticks in Berlin (West). (Kahl, O. et al.; Inst. für Angewandte Zoologie, Haderslebener Str. 9, 1000 Berlin 41) S. 434.

Occurrence and Significance of Clostridium difficile in Faecal Specimens of Hospitalized Children. (Karsch, W. et al.; Inst. für Infektionskrankheiten im Kindesalter im Klinikum Berlin-Buch, Wiltbergstr. 50, DDR-1115 Berlin) S. 441.

Series A: Medical Microbiology, Infectious Diseases, Virology, Parasitology

Vol. 270 (1989), No. 4 (March)

Lectinophagocytosis Mediated by Bacterial Surface Lectins. (Ofek, I.; Dept. of Microbiology, Sackler Faculty of Medicine, Univ., Tel Aviv 69978, Israel) S. 449.

Demonstration of Capsules in Clostridium difficile. (Strelau, E. et al.; Inst. für Infektionskrankheiten im Kindesalter im Klinikum Berlin-Buch, Wiltbergstr. 50, DDR-1115 Berlin) S. 456.

Detection and Interspecies-Transformation of a β -Lactamase-Encoding Plasmid from Pasteurella haemolytica. (Schwarz, St. et al.; Inst. für Bakteriologie und Immunologie der Justus Liebig-Universität, Frankfurt Str. 107, 6300 Gießen) S. 462.

Isolierung und Identifizierung von Mykoplasmen und Chlamydien. (Kommission zur Erarbeitung von Verfahrenrichtlinien für die Mikrobiologische Diagnostik — Leiter: Prof. Dr. med. R. Ansorg, Essen; SD: Brunner, H., Bayer AG, Pharma-Forschungszentrum, Postfach 101709, 5600 Wuppertal 1) S. 470.

The Bactec-System in the Diagnosis of Tuberculosis: Comparison of a Conventional and the Radiometric Method (Bactec) for Culturing, Differentiation and Susceptibility Testing of Mycobacteria. (Presslich, J. et al.; Bundesstaatliche bakteriologisch-serologische Untersuchungsanstalt, Währinger Str. 25a, A-1096 Wien IX) S. 487.

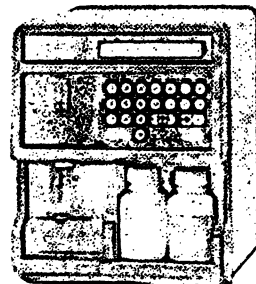

Rapid Diagnosis of Intestinal Bacteroides Species by Means of the Immunofluorescence. (Höhne, C. et al.; Martin-Luther-Univ. Halle-Wittenberg, Bereich Medizin, Inst. für Medizinische Mikrobiologie, Postfach 302, DDR-4010 Halle/Saale) S. 492.

Thrombozytenzählung ein Ärgernis für Sie ? Schon unser Einkanalssystem Modell 871 bietet Ihnen :

- THR und RBC simultan aus Vollblut !
- WBC, RBC, THR, HGB, HCT, MCV sind Standard.
- Alle Kalibrierungen automatisch.
- Deutscher Klartext in Anzeige und Bedienungsführung.
- Elektronische Volumenüberwachung !

... aber vor allem:

Präzision
Verlässlichkeit
Wirtschaftlichkeit !

Weitere Informationen erhalten Sie: Entweder direkt vom Werk oder unserer Werksvertretung.

LP 700: das universelle Photometer für wirklich alle Fälle. Für die Routine, fürs Spezial- labor, bei Ausfall, bei Nacht und in der Not.

Dr. Bruno Lange GmbH
Königsplatz 10
D-1000 Berlin 37
Telefon (030) 816 02-0

Das neue LP 700:
Zur Einsatzvielfalt kommt
die Methodenvielfalt: mehr

als hundert Methoden und
leichte Aufnahme neuer
Methoden in der Zukunft.
Außerdem: einfache Bedie-

nung, hohe Zuverlässigkeit
und höchste Wirtschaftlich-
keit. Mit Bedienerführung
und grafikfähigem Drucker.

Immunodiagnosis of Human Anisakiasis by Use of Larval Excretory-Secretory Antigen. (Poggensee, U. et al.; Universitätsklinikum Rudolf Virchow, Standort Charlottenburg, Station 14c, Spandauer Damm 130, 1000 Berlin 19) S. 503.

GasPak Plus versus Anaerocult A — Two Carbon Dioxide/Hydrogen Systems for Cultivation of Anaerobes. (Heitzmann, W. R., Werner, H.; Dept. of Medical Microbiology, Inst. of Hygiene, Univ., Silberstr. 7, 7400 Tübingen) S. 511.

Monoclonal Antibodies to Protein I for Serotyping of Neisseria gonorrhoeae: Correlation of Serotype with Bactericidal Activity. (Kohl, P. K. et al.; Univ.-Hautklinik, Volstr. 2, 6900 Heidelberg) S. 517.

Genome Type Analysis of Certain Adenovirus Serotypes of Subgenus D. (Adrian, Th., Wigand, R.; Abt. für Virologie, Universitätsklinik, Haus 47, 6650 Homburg/Saar) S. 527.

Comparison of Different Serotests for Specific Toxoplasma IgM-Antibodies (ISAGA, SPIHA, IFAT) and Detection of Circulating Antigen in Two Cases of Laboratory Acquired Toxoplasma Infection. (Hermentin, K. et al.; Dept. of Medical Parasitology, Inst. of Hygiene, Kinderspitalgasse 15, A-1095 Vienna) S. 534.

Biochimie des Protéines, Place de Verdun, F-59045 Lille Cedex) S. 227.

Interactions between lipopolysaccharide and outer membrane proteins of Acinetobacter calcoaceticus studied by an affinity electrophoresis system. (Borneleit, P. et al.; Sektion Biowissenschaften, Bereich Biochemie, Karl-Marx-Univ., Talstr. 33, DDR-7010 Leipzig) S. 234.

Influence of a soluble anionic polymer on the electrophoresis of proteins. (Shimura, K., Kasai, K.; Dept. of Biological Chemistry, Faculty of Pharmaceutical Sciences, Teikyo Univ., Sagami, Kanagawa 199-11, Japan) S. 238.

Enhanced immunodetection of blotted house dust mite protein allergens on nitrocellulose following blocking with Tween 20. (Tovey, E. R., et al.; SD: Baldo, B. A., Kolling Inst. of Medical Research, Royal North Shore Hospital, St. Leonards, NSW, 2065, Australia) S. 243.

Modified diffusion blotting for rapid and efficient protein transfer with PhastSystem. (Braun, W., Abraham, R.; Dept. of Medical Virology, Center of Hygiene, Univ., Clinics Frankfurt/Main, Paul-Ehrlich-Str. 40, 6000 Frankfurt/Main 70) S. 249.

Sieving of ionic constituents across moving boundaries in gel electrophoresis. (Orbán, L. et al.; Bldg. 10, Rm. 6C101, NIH, Bethesda MD 20892, USA) S. 254.

The application of sodium dodecyl sulphate polyacrylamide gel electrophoresis to the taxonomic identification of the total body protein band profiles of Diplostomum spp. metacercariae (Digenea), parasites of fish eyes. (Faulkner, M.; Univ. Dept. of Evolutionary Biology, Brownlow Hill, PO Box 147, GB-Liverpool L69 3BX) S. 260.

Automatic evaluation of nucleic acid sequencing gel autoradiographs. (Ehrhardt, W. et al.; SD: Neuhoff, V.,

Max-Planck-Inst. für experimentelle Medizin, Forschungsinstitut Neurochemie, Hermann-Rein-Str. 3, 3400 Göttingen) S. 265.

Preparation of plant DNA for separation by pulsed field gel electrophoresis. (Devos, K. M., Verduyck-De Witte, D.; Lab. of Physiological Chemistry, Univ., K. L. Ledeganckstr. 35, B-9000 Gent) S. 267.

Electrophoresis of human salivary proteins: Response to natural stimulation. (Marshall, T. et al.; Biochemistry Research Lab., Dept. of Biological and Biomedical Sciences, The Univ. of Ulster at Coleraine, Cromore Road, GB-Coleraine BT52 5SA) S. 269.

Interference of the carbohydrate moiety in Coomassie Brilliant Blue R-250 protein staining. (Ossat, M. et al.; SD: Cuchillo, C. M., PO Box 8, Univ. Autónoma de Barcelona, E-08193 Bellaterra) S. 271.

Analysis of porcine erythrocyte lysate proteins by horizontal two-dimensional electrophoresis with immobilized pH gradient in the first dimension. (Russ, I. et al.; Techn. Univ. München, Lehrstuhl für Tierzucht, 8050 Freising-Weihenstephan) S. 273.

Preparative separation of poliovirus structural polypeptides by sodium dodecyl sulfate-polyacrylamide gel electrophoresis, copper staining and electroelution, and induction of monospecific anti-sera. (Tessmer, U., Derrick, R.; Heinrich-Pette-Inst. für Experimentelle Virologie und Immunologie an der Univ., Martinstr. 52, 2000 Hamburg 20) S. 277.

European Journal of Clinical Microbiology & Infectious Diseases

Vol. 8 (1989) No. 5 (May)

Testing of Organisms for Susceptibility to Triazoles: Is it Justified? (Kobayashi, G. S., Spitzer, E. D.; Washington Univ. School of Medicine, Box 8123 (Dermatology), Dept. of Internal Medicine, St. Louis, Missouri 63110, USA) S. 387.

Intestinal Colonization with Clostridium difficile in Infants up to 18 Months of Age. (Tullus, K. et al.; Dept. of Pediatrics, Hospital, S-18288 Danderyd) S. 390.

Actinomycetes in Pyogenic Liver Abscess. (Logan, M. N. et al.; Public Health Lab., East Birmingham Hospital, UK-Birmingham B9 5ST) S. 394.

Prevalence of Enterotoxigenic Escherichia coli Strains in Outbreaks and Sporadic Cases of Diarrhoea in Spain. (Blanco, J. et al.; Dept. of Microbiology and Parasitology, Faculty of Veterinary Medicine, Univ. of Santiago de Compostela, E-27002 Lugo) S. 396.

Influence of Blood Carbon Dioxide Pressure on Growth Index Values in Non-Radiometric Bactec Vials. (Courcol, R. J. et al.; Bacteriology Lab., A. Calmette Hospital, Blvd. Prof. J. Leclercq, F-59037 Lille Cedex) S. 400.

New Antifungal Agents. (Graybill, J. R.; Univ. Health Science Center, 7703 Floyd Curl Drive, San Antonio, Texas 78284, USA) S. 402.

Aspergillosis. (Bodey, G. P., Vartivarian, S.; Section of Infectious Diseases (Box 47), Dept. of Medical Specialties, Univ. M. D. Anderson Cancer Center, 1515 Holcombe Blvd., Houston, Texas 77030, USA) S. 413.

Candidiasis. (Meunier, F.; Service de Médecine et Lab. d'Investigation Clinique H. J. Tagnon, Clinique des Maladies Infectieuses et Lab. de Microbiologie, Inst. Jules Bordet, Centre des Tumeurs de l'Univ. Libre de Bruxelles, rue Héger-Bordet 1, B-1000 Bruxelles) S. 438.

Chronic Mucocutaneous Candidiasis. (Kirkpatrick, C. H.; Dept. of Medicine, Nat. Jewish Center for Immunology and Respiratory Medicine, 1400 Jackson St., Denver, Colorado 80206, USA) S. 448.

Current Concepts in Cryptococcosis. (Patterson, T. F., Andriole, V. T.; Yale Univ. School of Medicine, Dept. of Medicine, Section of Infectious Diseases, 333 Cedar Street, New Haven, Connecticut 06510, USA) S. 457.

Coccidioidomycosis. (Bronnemann, D. A., Galgiani, J. N.; SD: Galgiani, J. N., Medical Service, Veterans Adm. Medical Center, Tucson, AZ 85723, USA) S. 466.

Blastomycosis. (Davies, S. F., Sarosi, G. A.; SD: Sarosi, G. A., Dept. of Internal Medicine, Univ. Health Science Center, 5431 Fannin MSB 1.122, Houston, Texas 77030, USA) S. 474.

Diagnosis and Management of Histoplasmosis. (Wheat, L. J.; Univ. School of Medicine, Wishard Memorial Hospital, OPW 312, 1001 West Tenth Street, Indianapolis, Indiana 46202, USA) S. 480.

Electrophoresis

Vol. 10 (1989), No. 4 (April)

The microheterogeneity of serum α_1 -antichymotrypsin revealed by interaction with concanavalin A in crossed immunoelectrophoresis and in affinity chromatography. (Laine, A. et al.; Unité INSERM No. 16,
