Objet: RE: Request permission Opt. Lett. 36, 2203 (2011),
<https://doi.org/10.1364/OL.36.002203>.

Dear Dr. Raphaël Butté,

Thank you for contacting The Optical Society.

For the use of figure 3 from M. Mexis, S. Sargent, T. Guillet, C. Brimont, T. Bretagnon, B. Gil, F. Semond, M. Leroux, D. Néel, S. David, X. Chécoury, and P. Boucaud, "High quality factor nitride-based optical cavities: microdisks with embedded GaN/Al(Ga)N quantum dots," Opt. Lett. 36, 2203-2205 (2011):

OSA considers your requested use of its copyrighted material to be Fair Use under United States Copyright Law. It is requested that a complete citation of the original material be included in any publication.

While your publisher should be able to provide additional guidance, OSA prefers the below citation formats:

For citations in figure captions:

[Reprinted/Adapted] with permission from [ref #] © The Optical Society. (Please include the full citation in your reference list)

For images without captions:

Journal Vol. #, first page (year published) An example: Opt. Lett. 36, 2203 (2011)

Please let me know if you have any questions.

Kind Regards,

Rebecca Robinson

Subject: Request permission Opt. Lett. 36, 2203 (2011), <https://doi.org/10.1364/OL.36.002203>.

To whom it may concern,

Hereby, I request the permission to reuse Figure 3 of the article by M. Mexis, S. Sergent, T. Guillet et al., "High quality factor nitride-based optical cavities: microdisks with embedded GaN/Al(GaN) quantum dots," Opt. Lett. 36, 2203 (2011), <https://doi.org/10.1364/OL.36.002203>.

This figure will appear in a review article authored by Prof. Nicolas Grandjean and myself entitled "III-nitride photonic cavities" that should appear in a forthcoming issue (most likely during the 1st quarter of year 2020) of the journal "Nanophotonics" published by De Gruyter.

I look forward to hearing from you.

Yours sincerely,

Raphaël Butté
