Dear Raphaël,

With pleasure, I am very happy that you will use our work for your review article. I am looking forward to reading it.

All the best  
Christopher

Zitat von Butte Raphael <[raphael.butte@epfl.ch](mailto:raphael.butte@epfl.ch)>:

Dear Christopher

I get in touch with you in order to obtain the permission to reuse two figures of your Phys. Rev. Appl. article (Phys. Rev. Appl. 10, 054055 (2018)) such as detailed in the attached file.

They should appear in an invited review article authored by Nicolas Grandjean and myself, which is under review and which should appear in the journal Nanophotonics at the beginning of next year.

I look forward to hearing from you.

With best regards,

Raphaël
