Erratum to: Black phosphorus nanosheets and paclitaxel encapsulated hydrogel for synergistic photothermal-chemotherapy

<https://doi.org/10.1515/nanoph-2023-0553>

The authors regret that the original version of our paper [1], unfortunately, contained incorrect pictures in

Figure 6. It appeared that HE images of heart tissue in the OSA/AHA/BPNS/PTX and OSA/AHA/BPNS/PTX + NIR groups in Figure 6 have been derived from the same original source, even though they were intending to have shown

Figure 6: *In vivo* biocompatibility evaluation of materials, H&E staining images of mice organs underwent different treatments for 14 days. Note that 1–6 represent mice groups with different treatment.

the results from differently performed experiments. After having consulted our original data, we realized that these errors had occurred while compiling the affected figure parts.

The correct version of Figure 6 was shown above.

These corrections are minor and do not alter the conclusions of the paper. The authors apologize for any inconvenience that the errors may have caused.

Author contributions: All the authors have accepted responsibility for the entire content of this submitted manuscript and approved submission.

Conflict of interest: The authors state no conflicts of interest.
