Retraction of “Aging assessment of silicone rubber materials under corona discharge accompanied by humidity and UV radiation”

<https://doi.org/10.1515/ntrev-2025-0018>
received August 20, 2024; accepted April 25, 2025

Retraction of: Mahmood A, Muneeb A, Saeed U, Alam S, Al-Ammar E, Kang J, Zoubi W, Choi D. Aging assessment of silicone rubber materials under corona discharge accompanied by humidity and UV radiation. *Nanotechnology Reviews*. 2024;13(1):20240018. <https://doi.org/10.1515/ntrev-2024-0018>.

This article has been retracted on the authors' request, with the agreement of the Editor-in-Chief, Professor David Hui, and the publisher, Walter De Gruyter GmbH.

The retraction is due to an unresolvable authorship dispute. Specifically, Atif Mahmood, Shahid Alam, and Dongwhi

Choi raised concerns that Ahmed Muneeb, Usman Saeed, Essam A. Al-Ammar, Jee-Hyun Kang, and Wail Al Zoubi did not contribute to the research and, therefore, should not have been listed as co-authors. In subsequent communications, Essam A. Al-Ammar and Wail Al Zoubi agreed to be removed from the authors' list while Ahmed Muneeb, Usman Saeed and Jee-Hyun Kang, did not respond to repeated inquiries from the editorial office. Based on these concerns regarding the legitimacy of authorship, the authors, the Editor-in-Chief, and the Publisher have decided to retract the article.
