**Superhydrophobic and superoleo-
phobic poly(3,4-ethylenedioxy pyr-
role) polymers synthesized using the
Staudinger-Vilarrasa reaction**

DOI 10.1515/pac-2017-0206
Pure Appl. Chem. 2017; 89(12):
1751–1760

Conference paper: Here,
you can find a strategy to
prepare superhydrophobic
and superoleophobic
PEDOP polymers using
the Staudinger-Vilarrasa
reaction used to prepare
EDOP monomers with
amide bonds.

Keywords: bioinspiration;
click chemistry;
electrochemistry; NICE-
2016; superhydrophobicity;
superoleophobicity.
