TASK, TREK & Co.: Eine wandelbare Kalium-Kanalfamilie für diverse Aufgaben im Gehirn

Modulation der Funktion von AMPA-Rezeptoren durch auxiliäre Proteine

Welche Typen von neokortikalen GABAergen Nervenzellen existieren wirklich?

Thomas RECORDING GmbH

High Tech Made in GERMANY - info@ThomasRECORDING.com

Electrodes

Tetrodes

Heptodes

Microdrive Systems

Motorized Electrode Manipulator

also for custom-made electrodes

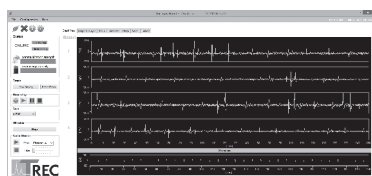

Chronic Recording System for Primates

bi-directional electrode movement

16 channel System

Bidirectional Telemetry

Wireless
RECORDING & STIMULATION

Optical Stimulation Equipment

LED Light Sources

Glass Fibers

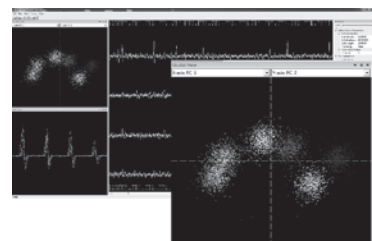

Power Supplies

Computer Control

Complete Solutions!

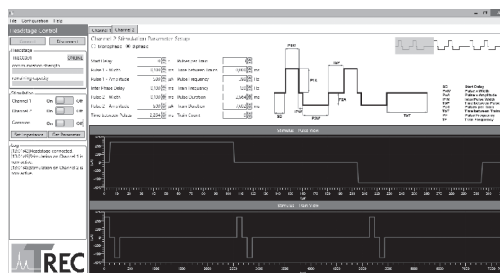

Thomas Spike Sorter

easy to use offline spike sorting software for classifying action potentials previously collected with electrodes, stereotrodes, tetrodes, etc.

Dual Channel Wireless

Stimulation System

For more than 20 years complete Neuro-Laboratory Equipment available from:
