

Subject Index

Original Communications and Notes

- Acceptor-Sites**
A Model of Pheromone Molecule-Acceptor Interaction 278
- Actin**
Phalloidin-Induced Proliferation of Actin Filaments within Rat Hepatocytes. Visualisation by Electron Microscopy and Immunofluorescence 793
- Actinometry**
Calculation of Yields for Photochemical Reactions 157
- Action Potential**
About the Importance of Paranodal Structures of the Ranvier Node for the Impulse Regeneration 271
- Activation**
Activation and Inhibition of the Mg-Ca-ATPase from *E. coli* by Mg^{2+} and Ca^{2+} 412
- Active Calcium Transport**
The Biphasic Ca^{2+} -Uptake by the Fragmented Sarcoplasmic Reticulum 593
- Active Center Peptide**
Synthesis of a Fragment of the Active Center of the Streptococcal Proteinase (EC 3.4.22.10), VI 739
Synthesis of a Fragment of the Active Center of the Streptococcal Proteinase (EC 3.4.22.10), VII 745
Synthesis of a Fragment of the Active Center of the Streptococcal Proteinase (EC 3.4.22.10), VIII 752
- Active Site**
Identification of Functional Groups of Pig Kidney Alkaline Phosphatase by Specific Inhibitors (N) 829
- Actomyosin ATPase**
ATPase Activity and Light Scattering of Acto-Heavy Meromyosin: Dependence on ATP Concentration and on Ionic Strength 379
Calcium Sensitivity of Actomyosin ATPase: Its Modification by Substitution of Myosin Sulfhydryl Groups 586
- Acylated Flavonol Glycoside**
Quercetine-3 β -D-(6-O-alloyl-galactoside), a Constituent of *Arctostaphylos uva-ursi* (L.) Spreng. (Ericaceae) (N) 296
- Adenosine-3',5'-cyclic Monophosphate**
Influence of Zeatin and Gibberellin on Adenosine-3',5'-cyclic Monophosphate Levels of *Impatiens* Leaves 69
- Adenosyl Factor Ib**
Partial Synthesis of Adenolylcorrinoids and of 1,N⁶-Ethenoadenosylcobalamin with a Fluorescent Nucleoside 460
- Adenosylcobalamin**
Partial Synthesis of Adenolylcorrinoids and of 1,N⁶-Ethenoadenosylcobalamin with a Fluorescent Nucleoside 460
- Adenosylcobinamide Phosphate**
Partial Synthesis of Adenolylcorrinoids and of 1,N⁶-Ethenoadenosylcobalamin with a Fluorescent Nucleoside 460
- Adenyl Cyclase**
A Study of the Neurohumoral Control of Glycolysis in the Mouse Brain *in vivo*: Role of Noradrenaline and Dopamine 385
- Adhesion**
Neuraminidase Treatment Enhances the Lysolecithin Induced Inter cellular Adhesion of *Amoeba proteus* (N) 551
- Affinity Chromatography**
Resin Linked Puromycin (N) 544
Affinity Chromatography with ¹²⁵J-Labeled RNA (N) 546
- Agglutination**
Lysolecithin Induced Membrane Alterations in Thymocytes. Effects of Lysophosphatides Possessing Adjuvant and Immuno-Suppressive Activities on Cell Agglutination by Concanavalin A 785
- Alcohols**
Plumage Lipids from the Ring Dove (*Columba palumbus*) 363
- Algae**
Absence of Plastocyanin in the Alga *Bumilleriopsis* and Its Replacement by Cytochrome 553 190
- Aliphatic Methyl Ester**
Some Aliphatic Methyl Esters from *Aralia elata* Seemann (Araliaceae) (N) 825
- Alkali Chlorides**
Effect of Alkali Chlorides on Human Chromosomes Studied by the Method of Poly-L-lysine Binding (N) 304
- Allantoin**
Studies on the Chemistry of Lichens, IVX. Chemical Investigation of the Lichen Species *Anaptychia fusca*, *Peltigera canina*, and *Omphalodiscus sporochrous* 445
- Allatectomized**
An Autoradiographic Study of Neurosecretory Cell Activity of Allatectomized Females of the Grasshopper, *Melanoplus sanguinipes* (Fab.) 511
- Allomyces arbuscula**
Isolation and Characterization of Ribosomal RNA from the Phycomycete *Allomyces arbuscula* (N) 302
- Amino Acids**
Biological Dictionary (N) 843
- 2-Amino-6-methylthioproic Acid**
The Biosynthesis of 4-Methylsulfinyl-3-butenyl-glucosinolate (Glucoraphenin) in *Matthiola* Species. Evidence for Homomethionine and 2-Amino-6-methylthioproic Acid as Intermediates 233
- δ -Aminolevulinate Dehydratase**
Effect of Zinc and Cadmium on δ -Aminolevulinate Dehydratase of Red Blood Cells in Protecting against Enzyme Losses during Storage 434
- δ -Aminolevulinic Acid**
Over-Production of Porphyrins and Heme in Heterotrophic Bacteria (N) 425
- Aminotriazinone**
Mode of Action and Structure-Activity-Relationships of the Aminotriazinone Herbicide Metribuzin. Inhibition of Photosynthetic Electron Transport in Chloroplasts by Metribuzin 499

- Amoeba proteus*
Neuraminidase Treatment Enhances the Lysolecithin Induced Intercellular Adhesion of *Amoeba proteus* (N) 551
- Anabaena cylindrica*
Nitrogen Excretion by Nitrogen Fixing Blue-Green Algae, III. Utilization of the Excreted Nitrogen by Green Algae 223
- Anabaena solitaria*
Nitrogen Excretion by Nitrogen Fixing Blue-Green Algae, II. Growth and Nitrogen Excretion of *Anabaena solitaria* Grown in Freshwater and in Mixtures of Freshwater and Seawater, as Well as with Fe, Mn, and Mo Added to the Nutrient Medium 219
Nitrogen Excretion by Nitrogen Fixing Blue-Green Algae, III. Utilization of the Excreted Nitrogen by Green Algae 223
- Androst-4-en-3,17-dione
Testosterone Metabolism in *Streptomyces hydrogenans* 266
- Anthurus*
Carotenoids of the Porter-Lincoln-Series in *Anthurus archeri* (Clathraceae; Basidiomycetales; Mycophyta) (N) 297
- Anti-Actomyosin Antibodies
Phalloidin-Induced Proliferation of Actin Filaments within Rat Hepatocytes. Visualisation by Electron Microscopy and Immunofluorescence 793
- Antibiotics
Sequence Variation on an Antibiotically Active Tripeptide (N) 541
- Antibodies
The Effect of an Antiserum to Plastocyanin on Various Chloroplast Preparations 201
Binding of Antibodies onto the Thylakoid Membrane. I. Maximal Antibody Binding and Adsorption of Antibodies to Lipids 484
The Effect of Antibodies to Neoxanthin on Electron Transport on the Oxygen Evolving Side of Photosystem II and the Reactions of this Antiserum with Various Chloroplast Preparations 622
- Antidepressants
The Effect of Org. GB94, Imipramine and Chlorpromazine on the Concentrations of Some Amino Acids in 9 Regions of the Rat Brain (N) 838
- Aqueous Solution
Gamma-Radiolysis of Aqueous Solution of Proline 474
- Arabinonucleosides
Spectrophotometric Determination of the pK Values for Dissociation of the Sugar Hydroxyls in Pyrimidine Arabinonucleosides 565
- Arctostaphylos uva-ursi*
Quercetine-3 β -D-(6-O-galloyl-galactoside), a Constituent of *Arctostaphylos uva-ursi* (L.) Spreng. (Ericaceae) (N) 296
- Argentation Chromatography
The Use of Argentation Chromatography for the Analysis of Fatty Acid Esters of Polyenes: The Structure of Carotenoid Esters of *Aglais urticae* (Lepidoptera, Insecta) 369
- Aroliaceae
Chemical Constituents of the Essential Oils of Aroliaceae and Lauraceae Families (N) 421
- Aromatic Compounds
Chemical Constituents of the Essential Oils of Aroliaceae and Lauraceae Families (N) 421
- Arteriosclerosis
Interaction between Cholesterol and Calcium Ions in Solution 718
- Ascorbate Action
The Enhancement of CO₂ Fixation in Isolated Chloroplasts by Low Sulfite Concentrations and by Ascorbate 634
- Association Constant
The Competition Dialysis Method. A Possible Application: The Determination of Association Constants for Complexes of Tightly Bound or Labile Apoproteins (N) 534
- ATP
Energy-Linked Pyridine Nucleotide Transhydrogenase Activity in Photosynthetically Grown *Rhodospseudomonas palustris* 771
- ATPase
Respiratory Electron Flow and ATPase System in Photosynthetically Grown *Rhodospseudomonas palustris* 342
Phospholipids and ATPase Activity of Wild-Type and ATPase Deficient and Uncoupled Mutants of *E. coli* (N) 832
- Autoradiography
An Autoradiographic Study of Neurosecretory Cell Activity of Allatectomized Females of the Grasshopper, *Melanoplus sanguinipes* (Fab.) 511
- Avian Erythroblastosis Virus
In vitro Transformation Assay of Chicken Bone Marrow Cells with Avian Erythroblastosis Virus (N) 847
- Avian Hemopoietic Cells
In vitro Transformation Assay of Chicken Bone Marrow Cells with Avian Erythroblastosis Virus (N) 847
- Azo Compounds
Azo Compound and Diazine Complexes of Desoxyribonucleic Acid, I. DNA and 2-Amino-benzo[c]-cinnoline 29
- Bacillus thuringiensis*
Determination of Exotoxin in *Bacillus thuringiensis* Cells 120
- Bacterial Toxins
Determination of Exotoxin in *Bacillus thuringiensis* Cells 120
- Barium
Sensitivity of *Escherichia coli* to Viral Nucleic Acid, X. Ba²⁺-Induced Competence for Transfecting DNA 520
- Bariumaccumulation
Accumulation of Barium in Müller's Bodies of the Loxodidae (Ciliata, Holotricha) (N) 422
- Base Catalysis
On the Kinetics and Mechanism of Spontaneous Intramolecular Reduction of the Central Metal Ion in K₂[Mn(IV)-2- α -hydroxyethyl Isochlorin e₄] Acetate in Aqueous Alkaline Solutions and its Relation to the Binding Sites of Manganese in Photosynthesis 327
- Base Composition
Isolation and Characterization of Ribosomal RNA from the Phycomycete *Allomyces arbuscula* (N) 302
- Bee
Problems of Menotactic Orientation According to the Polarized Light of the Sky 88
The Organization of the *Lamina ganglionaris* of the Bee (N) 851
- Binding Energy
A Model of Pheromone Molecule-Acceptor Interaction 278
- Biological Communication
Biological Dictionary (N) 843

- Biosynthesis**
 Conversion of D-Lysine to L-Lysine *via* L-Pipecolic Acid in *Neurospora crassa* 253
 Propionate as a Precursor of Juvenile Hormone in the Cecropia Moth 392
 Accumulation of Barium in Müller's Bodies of the Loxodidae (Ciliata, Holotricha) (N) 422
 Biosynthesis of Stizolobinic Acid and Stizolobic Acid in the Etiolated Seedlings of *Stizolobium hassjoo* 659
- Black Lipid Membranes**
 Interactions Between Black Lipid Membranes and the Loosely Bound Proteins from Erythrocyte Membranes (N) 129
 The Use of Fluorescent Probes for Studying the Interaction of Proteins with Black Lipid Membranes 147
- Blood Gases**
 The $p\text{CO}_2/p\text{O}_2$ -Optode: A New Probe for Measurement of $p\text{CO}_2$ or $p\text{O}_2$ in Fluids and Gases (N) 532
- Blue-Green Algae**
 Nitrogen Excretion by Nitrogen Fixing Blue-Green Algae, II. Growth and Nitrogen Excretion of *Anabaena solitaria* Grown in Freshwater and in Mixtures of Freshwater and Seawater, as Well as with Fe, Mn, and Mo Added to the Nutrient Medium 219
 Nitrogen Excretion by Nitrogen Fixing Blue-Green Algae, III. Utilization of the Excreted Nitrogen by Green Algae 223
- Bovine Seminal Vesicles**
 On the Phospholipase Activity in Bovine Seminal Vesicles and Its Possible Role in the Regulation of the Prostaglandin Biosynthesis 429
- Brain Glycolysis**
 The Effect of 5-Hydroxytryptamine and Histamine on Glycolysis in the Mouse Brain 113
- Brain Regions**
 The Effect of Org. GB94, Imipramine and Chlorpromazine on the Concentrations of Some Amino Acids in 9 Regions of the Rat Brain (N) 838
- Cadmium**
 Effect of Zinc and Cadmium on δ -Aminolevulinatase of Red Blood Cells in Protecting against Enzyme Losses during Storage 434
 Cadmium Isocitrate Complex: Its Stability as a Function of Ionic Strength 555
- Caffeine**
 Phase-Shifting Effect of Caffeine in the Circadian Rhythm of *Phaseolus coccineus* L. (N) 835
- Calcium**
 The Effect of Calcium and Phosphate on the Biphasic Calcium Uptake by the Sarcoplasmic Reticulum 777
- Calcium Binding**
 Interaction between Cholesterol and Calcium Ions in Solution 718
- Calcium Precipitating Protein**
 The Location of the Calcium Precipitating Protein in the Sarcoplasmic Membrane 600
- Calcium Sensitivity**
 Calcium Sensitivity of Actomyosin ATPase: Its Modification by Substitution of Myosin Sulphydryl Groups 586
- Calcium Storage**
 The Biphasic Ca^{2+} -Uptake by the Fragmented Sarcoplasmic Reticulum 593
- Calcium Transport Protein**
 Arrangement of Proteins and Lipids in the Sarcoplasmic Membrane (N) 681
- Cancer Cell Proliferation**
 Laws of Substrate Supply, of Cell Kinetics and of Therapy Mechanisms in the Intercapillary Region of Cancer Tissue 91
- Cancer Multi-Step Therapy**
 Laws of Substrate Supply, of Cell Kinetics and of Therapy Mechanisms in the Intercapillary Region of Cancer Tissue 91
- Carbondioxide Pressure**
 The $p\text{CO}_2/p\text{O}_2$ -Optode: A New Probe for Measurement of $p\text{CO}_2$ or $p\text{O}_2$ in Fluids and Gases (N) 532
- Carcinogenesis**
 Studies on a Resonance of Carcinogenic Benzpyrene 152
- (R) Carnitine**
 Determination of the Isotope Effect of the Enzymatic Oxidation of (R) Carnitine by Displacement of the Equilibrium *via* Mass Action 438
- (R) Carnitine Dehydrogenase**
 Determination of the Isotope Effect of the Enzymatic Oxidation of (R) Carnitine by Displacement of the Equilibrium *via* Mass Action 438
- β -Carotene**
 The Influence of Phytochrome on the Formation of Individual Carotenoids in Etiolated *Hordeum* Seedlings 67
 Kinetic of Lipoquinone and Pigment Synthesis during Red Light-Induced Thylakoid Formation in Etiolated Barley Seedlings 337
- Carotenoid Esters**
 The Use of Argentation Chromatography for the Analysis of Fatty Acid Esters of Polyenes: The Structure of Carotenoid Esters of *Aglais urticae* (Lepidoptera, Insecta) 369
- Carotenoid Formation**
 The Influence of Phytochrome on the Formation of Individual Carotenoids in Etiolated *Hordeum* Seedlings 67
- Carotenoids**
 Carotenoids of the Porter-Lincoln-Series in *Anthurus archeri* (Clathraceae; Basidiomycetales; Mycophyta) (N) 297
 Carotenoids in *Zygaena* Species (Lepidoptera) (N) 298
- Cation Effects**
 Antagonistic Relationships between Electron Transport and P_{700} in Chloroplasts and Intact Algae 761
- Cecropia Moth**
 Propionate as a Precursor of Juvenile Hormone in the Cecropia Moth 392
- Cell Envelope**
 Isolation and Properties of the Cell Envelope of the Green Alga *Chlorella fusca* (N) 684
- Cell-Free Protein Synthesis**
 Influence of Immobilized Ribonuclease on the Cell-Free Protein Synthesis in the Wheat System 227
- Cell Fusion**
 Neuraminidase Treatment Enhances the Lysolecithin Induced Intercellular Adhesion of *Amoeba proteus* (N) 551
- Cell Growth**
 Preparation of Synchronously Growing and Multiplying Yeast Cells (*Saccharomyces cerevisiae*) 245
- Cell Membrane**
 Direct Demonstration of Dielectric Breakdown in the Membranes of *Valonia utricularis* 77

- Chain Elongation
The Biosynthesis of 4-Methylsulfinyl-3-butenyl-glucosinolate (Glucoraphenin) in *Matthiola* Species. Evidence for Homomethionine and 2-Amino-6-methylthiocaproic Acid as Intermediates . . . 233
- Charge Transfer Interaction
Azo Compound and Diazine Complexes of Deoxyribonucleic Acid, I. DNA and 2-Amino-benzo[c]-cinnoline . . . 29
Charge Transfer Interactions between Isonicotinic Acid Hydrazide and Cupric Ions . . . 33
- Chick Embryo Fibroblasts
In vitro Translation of Natural mRNAs in a Cell-Free System Containing Components from Interferon-Treated Chicken Fibroblasts and Factor Preparations from Mouse Ascites Cells or Rabbit Reticulocytes . . . 398
- β -Chitin
Studies on the Structure of β -Chitin, I . . . 571
- Chlorella*
The Inhibition of Carotenoid Biosynthesis in Green Algae by SANDOZ H 6706: Accumulation of Phytoene and Phytofluene in *Chlorella fusca* . . . 333
Isolation and Properties of the Cell Envelope of the Green Alga *Chlorella fusca* (N) . . . 684
- Chlorophyll-Deficient Tobacco Mutants
The Effect of an Antiserum to Plastocyanin on Various Chloroplast Preparations . . . 201
- Chlorophyll Fluorescence
Temperature — Jump Chlorophyll Fluorescence Induction in Plants (N) . . . 689
- Chloroplasts
Determination of Superoxide Free Radical Ion and Hydrogen Peroxide as Products of Photosynthetic Oxygen Reduction . . . 53
Ethylene Formation by Isolated Chloroplast Lamellae in the Dark . . . 58
Kinetic of Lipoquinone and Pigment Synthesis during Red Light-Induced Thylakoid Formation in Etiolated Barley Seedlings . . . 337
A Ferredoxin-Linked Sulfite Reductase from *Spinacia oleracea* . . . 359
Binding of Antibodies onto the Thylakoid Membrane. I. Maximal Antibody Binding and Adsorption of Antibodies to Lipids . . . 484
Mode of Action and Structure-Activity-Relationships of the Aminotriazinone Herbicide Mebribuzin. Inhibition of Photosynthetic Electron Transport in Chloroplasts by Metribuzin . . . 499
The Effect of Antibodies to Neoxanthin on Electron Transport on the Oxygen Evolving Side of Photosystem II and the Reactions of this Antiserum with Various Chloroplast Preparations . . . 622
The Enhancement of CO₂ Fixation in Isolated Chloroplasts by Low Sulfite Concentrations and by Ascorbate . . . 634
The Regulation of Glucose-6-phosphate Dehydrogenase in Chloroplasts . . . 756
- Chlorpromazine
The Effect of Org. GB94, Imipramine and Chlorpromazine on the Concentrations of Some Amino Acids in 9 Regions of the Rat Brain (N) . . . 838
- Cholesterol-Calcium Complex
Interaction between Cholesterol and Calcium Ions in Solution . . . 718
- Cholesterol Surface Concentration
Cholesterol and Phospholipid Content of 3T3 Cells and Transformed Derivatives . . . 638
- Choline
On the Constituents of the Wild Egyptian Plant *Onopordon alexandrinum* Boiss. 349
- Cinnamic Acids
Chemical Syntheses and Properties of Hydroxycinnamoyl Coenzyme A Derivatives 352
- Cinnamoyl Alcohols
On the Structure of Lignin from Soybean Cell Suspension Cultures 442
- Circadian Rhythm
Temperature Sensitive Events between Photoreceptor and Circadian Clock? 240
Phase-Shifting Effect of Caffeine in the Circadian Rhythm of *Phaseolus coccineus* L. (N) 855
- Codon-Anticodon Site
On the Origin of Protein Biosynthesis 323
- Coenzyme A Thiol Esters
Chemical Syntheses and Properties of Hydroxycinnamoyl Coenzyme A Derivatives 352
- Coenzyme Analogue
Reactions of Essential Sulfhydryl Residues of Dehydrogenases with Nicotinamide-(S-methylmercuriothioinosine) Dinucleotide 562
- Colour Receptors
Electrophysiological Evidence for Different Colour Receptors in One Ommatidium of the Bee Eye (N) . . . 692
- Competence
Sensitivity of *Escherichia coli* to Viral Nucleic Acid, X. Ba²⁺-Induced Competence for Transfecting DNA . . . 520
- Complex
The Competition Dialysis Method. A Possible Application: The Determination of Association Constants for Complexes of Tightly Bound or Labile Apoproteins (N) 534
Cadmium Isocitrate Complex: Its Stability as a Function of Ionic Strength 555
- Complex Formation
Interaction between Dehydrogenases and a New NAD⁺-Isomer 734
- Computer Analysis
Digital Computer Analysis of Electrophoresis and Ultracentrifugation Patterns by a Sum of Gaussian-Like Distributions 311
- Computer Simulation
Computer Simulation of Primary Photosynthetic Reactions — Compared with Experimental Results on O₂-Exchange and Chlorophyll Fluorescence of Green Plants 489
- Concanavalin A
Lysolecithin Induced Membrane Alterations in Thymocytes. Effects of Lysophosphatides Possessing Adjuvant and Immuno-Suppressive Activities on Cell Agglutination by Concanavalin A 785
- Conjugated Carbonyls
Reaction of Glutathione with Conjugated Carbonyls 466
- Cortinarius gentilis*
Damage Caused by Two Finnish Mushrooms, *Cortinarius speciosissimus* and *Cortinarius gentilis* on the Rat Kidney 668
- Cortinarius speciosissimus*
Damage Caused by Two Finnish Mushrooms, *Cortinarius speciosissimus* and *Cortinarius gentilis* on the Rat Kidney 668
- Coumarin
Poncimarin, a New Coumarin from *Poncirus trifoliata* L. (N) 420

- Crayfish
Stress-Induced Changes in Cell Titer of Crayfish Hemolymph (N) 850
- Crista acustica
The Crista acustica of the Tettigoniodea (Orthoptera) (N) 553
- Crown-Gall
The Influence of Protoplast Media on the Tumor Induction on *Kalanchoe* Leaves 73
- Crustacean Superposition Eye
Optics of the Crayfish Eye (N) 691
- Cycloheximide
Transport and Processing of Ribosomal RNA in Plant Cells after Treatment with Cycloheximide 213
- Cytochrome b-559
Subilization High Potential Cytochrome b-559 from Spinach Chloroplasts 628
- Cytochrome f (= Cytochrome 553)
Absence of Plastocyanin in the Alga *Bumilleriopsis* and Its Replacement by Cytochrome 553 190
- Cytokinin
Influence of Zeatin and Gibberellin on Adenosine-3',5'-cyclic Monophosphate Levels of *Impatiens* Leaves 69
- Cytoplasm
Effect of Cytoplasmic and Serum Factors on the Uptake of [³H]Thymidine Triphosphate (TTP) by Isolated Nuclei of Liver Cells 107
- Dansylated Amino Acids
The Effect of Org. GB94, Imipramine and Chlorpromazine on the Concentrations of Some Amino Acids in 9 Regions of the Rat Brain (N) 838
- Decarboxylation
Oxidative Decarboxylation of *para*-Hydroxybenzoic Acids by Peroxidases under *in vivo* and *in vitro* Conditions 650
- Dehydrogenases
Interaction between Dehydrogenases and a New NAD⁺-Isomer 734
- Deoxyribonucleases
Characterization of Different Deoxyribonucleases in Human Lymphocytes 781
- Dexamethasone Phosphate
The Importance of the Substrate for the Induction of Tyrosine α -Ketoglutarate Transaminase in RLC-Cells 263
- Diatoms
The Separation of ³²Silicon from Contaminating ³H and ⁶⁰Co by Incorporation into Diatoms (N) 423
- Diazines
Azo Compound and Diazine Complexes of Deoxyribonucleic Acid, I DNA and 2-Amino-benzo[c]-cinnoline 29
- Dichroism
Molecular Arrangement of DNA in Nucleohistone 575
- Dielectric Breakdown
Direct Demonstration of Dielectric Breakdown in the Membranes of *Valonia utricularis* 77
- Diffusion Field Equation
Laws of Substrate Supply, of Cell Kinetics and of Therapy Mechanisms in the Intercapillary Region of Cancer Tissue 91
- Dimer Yield Ratio
UV-Induction of Thymine-Containing Dimers in *Saccharomyces cerevisiae* 811
- 1,2-Dimethoxy-4,5-methylenedioxybenzene
Derivatives of Methylenedioxybenzene, 41. The Syntheses of Phlebiarubrone and Polyporic Acid 1
- Dimethylsulfoxide
In vitro Transformation Assay of Chicken Bone Marrow Cells with Avian Erythroblastosis Virus (N) 847
- Disc Electrophoresis
Characterization of Different Deoxyribonucleases in Human Lymphocytes 781
- Disparlure
The Presence of Disparlure, the Sex Pheromone of the Gypsy Moth, in the Female Nun Moth 672
- Disparlure
Electroantennogram Responses to Female Sex Pheromones in Five Genera of Lymantriidae (Lepidoptera) 676
- Dissociation
Dissociation and Reassociation of Poliovirus. I. Effect of Urea on the Virion 523
The Ionization and Optical Properties of Oxoformycin (N) 835
- Distress Call
Distress Calls of *Rana r. ridibunda* Pallas (Amphibia, Anura) (N) 695
- DNA
Azo Compound and Diazine Complexes of Deoxyribonucleic Acid, I DNA and 2-Amino-benzo[c]-cinnoline 29
Sensitivity of *Escherichia coli* to Viral Nucleic Acid, X. Ba²⁺-Induced Competence for Transfecting DNA 520
Molecular Arrangement of DNA in Nucleohistone 575
Radiation Chemistry of DNA, II. Strand Breaks and Sugar Release by γ -Irradiation of DNA in Aqueous Solution. The Effect of Oxygen (N) 826
- DNA-Repair
Inhibition of Excision Repair without Influence upon UV-Sensitivity and UV-Mutability in *Escherichia coli* B/r Hcr⁺ 406
- DNA Replication
Inducibility of Lambda Phage Development in *Escherichia coli* Mutants Thermosensitive for DNA Replication 800
- DNA-Specific Labelling
An Improved Assay of UV-Induced Thymine-Containing Dimers in *Saccharomyces cerevisiae* 804
- DNA-Synthesis
Effect of Cytoplasmic and Serum Factors on the Uptake of [³H]Thymidine Triphosphate (TTP) by Isolated Nuclei of Liver Cells 107
DNA-Synthesis in Gamma-Plantlets of Wheat (N) 300
- (E,Z)-7,9-Dodecadienyl Acetate
The Electroantennographic Detector — a Selective and Sensitive Tool in the Gas Chromatographic Analysis of Insect Pheromones 722
- Dodecyl Sulphate
Determination of the Molecular Weight and the Hydrodynamic Properties of a Polypeptide from the Thylakoid Membrane by Sedimentation, Diffusion and Binding Measurements in Dodecyl Sulphate Solutions 615
- Dopamine
A Study of the Neurohumoral Control of Glycolysis in the Mouse Brain *in vivo*: Role of Noradrenaline and Dopamine 385
- Dragonfly
Receptor and Interneuron Light-Adaptation in the Dragonfly Visual System (N) 306
- Drosophila pseudoobscura*
Temperature Sensitive Events between Photoreceptor and Circadian Clock? 240

- Drug-Effect Relation
 Inquiry into the Limits of Biological Effects of Chemical Compounds in Tissue Culture, I. . . . 643
- Elasticity
 Chemoelastic Effect of Membranes 608
 Out-of-Plane Fluctuations of Lipid Bilayers (N) . 841
- Electroantennogram
 Electroantennogram Responses to Female Sex Pheromones in Five Genera of Lymantriidae (Lepidoptera) 676
 The Electroantennographic Detector — a Selective and Sensitive Tool in the Gas Chromatographic Analysis of Insect Pheromones 722
- Electron Capture Detection
 Gas Chromatographic Determination of Subnanogram Amounts of the Juvenile Hormone Methyl (2E, 6E)-10,11-epoxy-3,7,11-trimethyl-2,6-dodecadienoate (JH III) in Insect Material by Electron Capture Detection 726
- Electron Donors
 Absence of Plastocyanin in the Alga *Bumilleriopsis* and its Replacement by Cytochrome 553 . . 190
- Electron Microscopy
 Spontaneous Rearrangement in Langmuir-Blodgett Layers of Tripalmitin Studied by Means of ATR Infrared Spectroscopy and Electron Microscopy . 711
- Electron Retardation
 Respiratory Electron Flow and ATPase System in Photosynthetically Grown *Rhodospseudomonas palustris* 342
- Electronic Structure
 Electronic Structure and Spatial Arrangement of C_{2v}-Coordinated Ferric Iron in Metmyoglobin, Metmyoglobin Fluoride, and Methemoglobin . . . 701
- Electrophoresis
 Digital Computer Analysis of Electrophoresis and Ultracentrifugation Patterns by a Sum of Gaussian-Like Distributions 311
- Electrophysiology
 Electrophysiological Evidence for Different Colour Receptors in One Ommatidium of the Bee Eye (N) 692
- Energy Conservation
 Energy Conservation in Photoreductions by Photosystem I. Shuttles of Artificial Electron Donors for Photosystem I Across the Thylakoid Membrane . 37
- Energy Coupling
 Energy-Linked Pyridine Nucleotide Transhydrogenase Activity in Photosynthetically Grown *Rhodospseudomonas palustris* 771
- Enzymatic Behaviour
 Synthesis and Properties of 5-Acetyl-4-methyl-1-(β -D-ribofuranosyl)-imidazole-5' Di- and Triphosphate 25
- Enzyme Coupling
 Chemoelastic Effect of Membranes 608
- Enzyme Induction
 Testosterone Metabolism in *Streptomyces hydrogenans* 266
- Enzyme Kinetics
 Microsome-Associated 17 β -Hydroxysteroid Dehydrogenases of Human Placenta, II. Kinetic Studies and Characterization of the Solubilized Estradiol- and Testosterone-"Sensitive" 17 β -HSD-Activities . 17
- S $\rightleftharpoons$ N Equilibrium
 Ribose Conformations in the Common Purine(β)-ribosides, in Some Antibiotic Nucleosides, and in Some Isopropylidene Derivatives: A Comparison . 131
- Equilibrium Constant
 Reaction of Glutathione with Conjugated Carbo-nyls 466
- Ericaceae
 Quercetine-3 β -D-(6-O-galloyl-galactoside), a Con-stituent of *Arctostaphylos uva-ursi* (L.) Spreng. (Ericaceae) (N) 296
- Errors in Writing
 Errors in Type-Writing and Their Indications for Special Characters of the Data Processing Con-trolling the Typing Process 80
- Erythrocyte
 Effect of Zinc and Cadmium on δ -Aminolevuli-nate Dehydratase of Red Blood Cells in Protecting against Enzyme Losses during Storage 434
 Chemoelastic Effect of Membranes 608
- Erythrocyte Membrane Proteins
 Interactions between Black Lipid Membranes and the Loosely Bound Proteins from Erythrocyte Membranes (N) 129
- Erythropoietin
In vitro Transformation Assay of Chicken Bone Marrow Cells with Avian Erythroblastosis Virus (N) 847
- Escherichia coli*
 Inhibition of Excision Repair without Influence upon UV-Sensitivity and UV-Mutability in *Esche-richtia coli* B/r Hcr⁺ 406
 Activation and Inhibition of the Mg-Ca-ATPase from *E. coli* by Mg²⁺ and Ca²⁺ 412
 Phospholipids and ATPase Activity of Wild-Type and ATPase Deficient and Uncoupled Mutants of *E. coli* (N) 832
 Sensitivity of *Escherichia coli* to Viral Nucleic Acid, X. Ba²⁺-Induced Competence for Transfecting DNA . 520
- E. coli* Mutants
 Inducibility of Lambda Phage Development in *Escherichia coli* Mutants Thermosensitive for DNA Replication 800
- Essential Oil
 Biosynthesis of the Essential Oil by *Matricaria chamomilla*. 1. ¹⁴C-Labeling of the Substances of the Essential Oil (N) 853
- Ethnoadenosylcobalamin
 Partial Synthesis of Adenolycorrinoids and of 1,N⁶-Ethnoadenosylcobalamin with a Fluores-cent Nucleoside 460
- Ethylene Biosynthesis
 Ethylene Formation by Isolated Chloroplast Lamel-lae in the Dark 58
- Etioplasts Metabolism
 Phytochrome System and Synthesis of Lipo-quinones in the Plastids of Etiolated *Hordeum* Seedlings 64
 The Influence of Phytochrome on the Formation of Individual Carotenoids in Etiolated *Hordeum* Seed-lings 67
- Evolution
 On the Origin of Protein Biosynthesis 323
- Exotoxin
 Determination of Exotoxin in *Bacillus thuringien-sis* Cells 120
- Fabaceae
 Detection of 2,5,7,3',4'-Pentahydroxy-flavanone-5-glucoside in the Seeds of *Galega officinalis* L. (Fabaceae) (N) 823
- Far UV
 UV-Induction of Thymine-Containing Dimers in *Saccharomyces cerevisiae* 811

- Fatty Acid Composition**
Isolation and Properties of the Cell Envelope of the Green Alga *Chlorella fusca* (N) 684
- Fatty Acids**
The Use of Argentation Chromatography for the Analysis of Fatty Acid Esters of Polyenes: The Structure of Carotenoid Esters of *Aglais urticae* (Lepidoptera, Insecta) 369
- Feather Lipids**
Plumage Lipids from the Ring Dove (*Columba palumbus*) 363
- Feeding Experiments**
Carotenoids in *Zygaena* Species (Lepidoptera) (N) 298
- Ferredoxin**
A Ferredoxin-Linked Sulfite Reductase from *Spinacia oleracea* 359
- Fibrills**
Electronmicroscopical Demonstration of the Fibrillar Nature of the Silverline System in Peritrich Ciliates 818
- First Optic Ganglion**
The Organization of the Lamina ganglionaris of the Bee (N) 851
- Flavanones**
Formation of Naringenin in Ripening Tomatoes (N) 549
- Flavonoids**
Quercetine-3 β -D-(O-galloyl-galactoside), a Constituent of *Arctostaphylos uva-ursi* (L.) Spreng. (Ericaceae) (N) 296
On the Constituents of the Wild Egyptian Plant *Onopordon alexandrinum* Boiss. 349
Main Flavonoids from *Pseudolarix amabilis* Leaves (N) 550
Detection of 2,5,7,3',4'-Pentahydroxy-flavanone-5-glucoside in the Seeds of *Galega officinalis* L. (Fabaceae) (N) 823
- Flow Dialysis**
The Competition Dialysis Method. A Possible Application: The Determination of Association Constants for Complexes of Tightly Bound or Labile Apoproteins (N) 534
The Biphasic Ca²⁺ Uptake by the Fragmented Sarcoplasmic Reticulum 593
The Effect of Calcium and Phosphate on the Biphasic Calcium Uptake by the Sarcoplasmic Reticulum 777
- Fluorescence**
The Ionization and Optical Properties of Oxoformycin (N) 835
- Fluorescence Induction**
Computer Simulation of Primary Photosynthetic Reactions—Compared with Experimental Results on O₂-Exchange and Chlorophyll Fluorescence of Green Plants 489
- Fluorescence Photometry**
The pCO₂/pO₂-Optode: A New Probe for Measurement of pCO₂ or pO₂ in Fluids and Gases (N) 532
- Fluorescent Probes**
The Use of Fluorescent Probes for Studying the Interaction of Proteins with Black Lipid Membranes 147
- Fluram**
The Location of the Calcium Precipitating Protein in the Sarcoplasmic Membrane 600
Arrangement of Proteins and Lipids in the Sarcoplasmic Membrane (N) 681
- Formaldehyde Reaction**
Molecular Arrangement of DNA in Nucleohistone 575
- Fungi**
Carotenoids of the Porter-Lincoln-Series in *Anthurus archeri* (Clathraceae;; Basidiomycetales; Mycophyta) (N) 297
- Fused Rhabdom**
Electrophysiological Evidence for Different Colour Receptors in One Ommatidium of the Bee Eye (N) 692
- Galega officinalis* L.
Detection of 2,5,7,3',4'-Pentahydroxy-flavanone-5-glucoside in the Seeds of *Galega officinalis* L. (Fabaceae) (N) 823
- Gamma-Radiolysis**
Gamma-Radiolysis of Aqueous Solution of Proline 474
- Gas Analysis**
The pCO₂/pO₂-Optode: A New Probe for Measurement of pCO₂ or pO₂ in Fluids and Gases (N) 532
- Gas Chromatography**
Gas Chromatographic Mass Spectrometric Analysis of Neutral and Acid Oligosaccharides from Human Milk as Their Trimethylsilyl Derivatives 451
The Electroantennographic Detector — a Selective and Sensitive Tool in the Gas Chromatographic Analysis of Insect Pheromones 722
- Genetic Code**
On the Origin of Protein Biosynthesis 323
- Gibberellin**
Influence of Zeatin and Gibberellin on Adenosine-3',5' Cyclic Monophosphate Levels of *Impatiens* Leaves 69
- Glucose-6-phosphate Dehydrogenase**
The Regulation of Glucose-6-phosphate Dehydrogenase in Chloroplasts 756
- Glutathione**
Reaction of Glutathione with Conjugated Carbonyls 466
- Glycolysis**
A Study of the Neurohumoral Control of Glycolysis in the Mouse Brain *in vivo*: Role of Noradrenaline and Dopamine 385
- Glycoprotein Antiserum**
Protection of Mice against Friend Leukemia by Active and Passive Immunization with Isolated Viral Glycoprotein and Its Antiserum Respectively (N) 309
- Glycosides**
Detection of 2,5,7,3',4'-Pentahydroxy-flavanone-5-glucoside in the Seeds of *Galega officinalis* L. (Fabaceae) (N) 823
- Grasshopper**
An Autoradiographic Study of Neurosecretory Cell Activity of Allatectomized Females of the Grasshopper, *Melanoplus sanguinipes* (Fab.) 511
- Group-Specific Inhibitors**
Identification of Functional Groups of Pig Kidney Alkaline Phosphatase by Specific Inhibitors (N) 829
- Gypsy Moth**
The Presence of Disparlure, the Sex Pheromone of the Gypsy Moth, in the Female Nun Moth 672
- Heat Deactivation**
Temperature — Jump Chlorophyll Fluorescence Induction in Plants (N) 689
- Heavy Meromyosin**
ATPase Activity and Light Scattering of Acto-Heavy Meromyosin: Dependence on ATP Concentration and on Ionic Strength 379

- α -Helix**
 Biological Dictionary (N) 843
- Heme**
 Over-Production of Porphyrins and Heme in Heterotrophic Bacteria (N) 425
- Hemocytes**
 Stress-Induced Changes in Cell Titer of Crayfish Hemolymph (N) 850
- Hemolymph Coagulation**
 Stress-Induced Changes in Cell Titer of Crayfish Hemolymph (N) 850
- Hepatocytes**
 Phalloidin-Induced Proliferation of Actin Filaments within Rat Hepatocytes. Visualisation by Electron Microscopy and Immunofluorescence 793
- Herbicide**
 The Inhibition of Carotenoid Biosynthesis in Green Algae by SANDOZ H 6706: Accumulation of Phytoene and Phytofluene in *Chlorella fusca* 333
 Mode of Action and Structure-Activity-Relationships of the Aminotriazinone Herbicide Metribuzin. Inhibition of Photosynthetic Electron Transport in Chloroplasts by Metribuzin 499
- 1-Hexacosene**
 Some Aliphatic Methyl Esters from *Aralia elata* Seemann (Araliaceae) (N) 825
- Hexagonal Neighborhood**
 Biological Dictionary (N) 843
- Hexose Uptake**
 Isolation and Properties of the Cell Envelope of the Green Alga *Chlorella fusca* (N) 684
- High-Potential**
 Subilization High Potential Cytochrome b-559 from Spinach Chloroplasts 628
- Histamine**
 The Effect of 5-Hydroxytryptamine and Histamine on Glycolysis in the Mouse Brain 113
- Homomethionine**
 The Biosynthesis of 4-Methylsulfinyl-3-Butenyl-glucosinolate (Glucoraphenin) in *Matthiola* Species. Evidence for Homomethionine and 2-Amino-6-methylthiocaproic Acid as Intermediates 233
- Hormonal Regulation**
 Stress-Induced Changes in Cell Titer of Crayfish Hemolymph (N) 850
- Hormones**
 On the Phospholipase Activity in Bovine Seminal Vesicles and Its Possible Role in the Regulation of the Prostaglandin Biosynthesis 429
- Human Chromosomes**
 Effect of Alkali Chlorides on Human Chromosomes Studied by the Method of Poly-L-lysine Binding (N) 304
- Human Milk Oligosaccharides**
 Gas Chromatographic Mass Spectrometric Analysis of Neutral and Acid Oligosaccharides from Human Milk as Their Trimethylsilyl Derivatives 451
- Human Placenta**
 Microsome-Associated 17β -Hydroxysteroid Dehydrogenases of Human Placenta, I. Solubilization, Enrichment and Separation of Two 17β -HSD-Activities after Phospholipase-Treatment 4
 Microsome-Associated 17β -Hydroxysteroid Dehydrogenases of Human Placenta, II. Kinetic Studies and Characterization of the Solubilized Estradiol- and Testosterone-"Sensitive" 17β -HSD-Activities 17
- Hydrocarbons**
 Plumage Lipids from the Ring Dove (*Columba palumbus*) 363
- Hydrogen Labeled**
 Biochemical Synthesis of Stereospecifically Hydrogen Labeled Compounds on a Preparative Scale, VI. Synthesis of Further Substrates of NAD(P)-Linked Dehydrogenases of High Specific Tritium Content 141
- p-Hydroxybenzoic Acids**
 Oxidative Decarboxylation of *para*-Hydroxybenzoic Acids by Peroxidases under *in vivo* and *in vitro* Conditions 650
- Hydroxylamine Oxidation**
 Determination of Superoxide Free Radical Ion and Hydrogen Peroxide as Products of Photosynthetic Oxygen Reduction 53
- p-Hydroxyphenyl Groups**
 On the Structure of Lignin from Soybean Cell Suspension Cultures 442
- 17β -Hydroxysteroid Dehydrogenase**
 Microsome-Associated 17β -Hydroxysteroid Dehydrogenases of Human Placenta, I. Solubilization, Enrichment and Separation of Two 17β -HSD-Activities after Phospholipase-Treatment 4
 Microsome-Associated 17β -Hydroxysteroid Dehydrogenases of Human Placenta, II. Kinetic Studies and Characterization of the Solubilized Estradiol- and Testosterone-"Sensitive" 17β -HSD-Activities 17
- Hyperglycemia**
 Laws of Substrate Supply, of Cell Kinetics and of Therapy Mechanisms in the Intercapillary Region of Cancer Tissue 91
- Immunization**
 Protection of Mice against Friend Leukemia by Active and Passive Immunization with Isolated Viral Glycoprotein and Its Antiserum Respectively 309
- Immunofluorescence**
 Phalloidin-Induced Proliferation of Actin Filaments within Rat Hepatocytes. Visualisation by Electron Microscopy and Immunofluorescence 793
- Impatiens**
 Influence of Zeatin and Gibberellin on Adenosine-3',5' Cyclic Monophosphate Levels of *Impatiens* Leaves 69
- In vitro-Symbiosis**
 Nitrogen Fixing Activity in *Rhizobium japonicum* Separated from Plant Cell Cultures (N) 687
- In vitro Translation**
 In vitro Translation of Natural mRNAs in a Cell-free System Containing Components from Interferon-Treated Chicken Fibroblasts and Factor Preparations from Mouse Ascites Cells or Rabbit Reticulocytes 398
- Inactivation Studies**
 Identification of Functional Groups of Pig Kidney Alkaline Phosphatase by Specific Inhibitors (N) 829
- Induction**
 The Importance of the Substrate for the Induction of Tyrosine- α -ketoglutarate Transaminase in RLC-Cells 263
- Inhibition**
 Activation and Inhibition of the Mg-Ca-ATPase from *E. coli* by Mg^{2+} and Ca^{2+} 412
- Inhibitor of ATP Formation**
 1,2,3-Thiadiazolylphenylureas, New Inhibitors of Photosynthetic and Respiratory Energy Conservation 505

- Insect Lipids**
The Use of Argentation Chromatography for the Analysis of Fatty Acid Esters of Polyenes: The Structure of Carotenoid Esters of *Aglais urticae* (Lepidoptera, Insecta) 369
- Insects**
Gas Chromatographic Determination of Subnanogram Amounts of the Juvenile Hormone Methyl (2E, 6E)-10,11-epoxy-3,7,11-trimethyl-2,6-dodecadienoate (JH III) in Insect Material by Electron Capture Detection 726
- Intercalation Complex**
Azo Compound and Diazine Complexes of Deoxyribonucleic Acid, I. DNA and 2-Amino-benzo[c]-cinnoline 29
- Intercapillary Region**
Laws of Substrate Supply, of Cell Kinetics and of Therapy Mechanisms in the Intercapillary Region of Cancer Tissue 91
- Interface**
A Theoretical Consideration how to Study Biochemical Interfacial Photoreactions (N) 124
- Interferon Mechanism**
In vitro Translation of Natural mRNAs in a Cell-Free System Containing Components from Interferon-Treated Chicken Fibroblasts and Factor Preparations from Mouse Ascites Cells or Rabbit Reticulocytes 398
- Interneuron**
Receptor and Interneuron Light-Adaptation in the Dragonfly Visual System (N) 306
- Iodine-125**
Affinity Chromatography with ¹²⁵J-Labeled RNA (N) 546
- Ionic Strength**
Cadmium Isocitrate Complex: Its Stability as a Function of Ionic Strength 555
- Irradiation**
DNA-Synthesis, in Gamma-Plantlets of Wheat (N) 300
- Isocitrate**
Cadmium-Isocitrate Complex: Its Stability as a Function of Ionic Strength 555
- Isocitrate Dehydrogenase**
Cadmium Isocitrate Complex: Its Stability as a Function of Ionic Strength 555
- Isolated Liver Nuclei**
Effect of Cytoplasmic and Serum Factors on the Uptake of [³H]Thymidine Triphosphate (TTP) by Isolated Nuclei of Liver Cells 107
- Isolation**
Isolation and Properties of the Cell Envelope of the Green Alga *Chlorella fusca* (N) 684
- Isotonic Acid Hydrazide**
Charge Transfer Interactions between Isonicotinic Acid Hydrazide and Cupric Ions 33
- ³H-Isotope Effect**
Determination of the Isotope Effect of the Enzymatic Oxidation of (R)Carnitine by Displacement of the Equilibrium *via* Mass Action 438
- Juvenile Hormone**
Propionate as a Precursor of Juvenile Hormone in the Cecropia Moth 392
Gas Chromatographic Determination of Subnanogram Amounts of the Juvenile Hormone Methyl (2E, 6E)-10,11-epoxy-3,7,11-trimethyl-2,6-dodecadienoate (JH III) in Insect Material by Electron Capture Detection 726
- Tenebrio molitor* L.
Juvenile Hormone Binding Substances with Allosteric Properties in the Ovaries of *Tenebrio molitor* L. 730
- Kinases**
Synthesis and Properties of 5-Acetyl-4-methyl-1-(β -D-ribofuranosyl)-imidazole-5'-di- and -triphosphate 25
- Kinetics**
Calculation of Yields for Photochemical Reactions 157
Kinetics of Dimer Formation
UV-Induction of Thymine-Containing Dimers in *Saccharomyces cerevisiae* 811
- Langmuir-Blodgett**
Spontaneous Rearrangement in Langmuir-Blodgett Layers of Tripalmitin Studied by Means of ATR Infrared Spectroscopy and Electron Microscopy 711
- Laser Micro Irradiation**
About the Importance of Paranodal Structures of the Ranvier Node for the Impulse Regeneration 271
- Lauraceae**
Chemical Constituents of the Essential Oils of Aroliaceae and Lauraceae Families (N) 421
- Leaf Oil**
Chemical Constituents of the Essential Oils of Aroliaceae and Lauraceae Families (N) 421
- Lepidoptera**
Structure-Response Relationships in Noctuid Sex Pheromone Reception. An Introductory Report 283
Carotenoids in *Zygaena* Species (Lepidoptera) (N) 298
- Lichens**
Studies on the Chemistry of Lichens, IVX. Chemical Investigation of the Lichen Species *Anaptychia fusca*, *Peltigera canina*, and *Omphalodiscus spodi-chrous* 445
- Light-Adaptation**
Receptor and Interneuron Light-Adaptation in the Dragonfly Visual System (N) 306
- Lignin-Carbohydrate-Complexes**
On the Structure of Lignin from Soybean Cell Suspension Cultures 442
- Lipid**
Binding of Antibodies onto the Thylakoid Membrane. I. Maximal Antibody Binding and Adsorption of Antibodies to Lipids 484
- Lipid Bilayer**
Out-of Plane Fluctuations of Lipid Layers (N) 841
- Lipid Layers**
Spontaneous Rearrangement in Langmuir-Blodgett Layers of Tripalmitin Studied by Means of ATR Infrared Spectroscopy and Electron Microscopy 711
- Lipid Phase Transition**
Temperature — Jump Chlorophyll Fluorescence Induction in Plants (N) 689
- Lipoquinone Synthesis**
Phytochrome System and Synthesis of Lipoquinones in the Plastids of Etiolated *Hordeum* Seedlings 64
- Lipoquinones**
Kinetic of Lipoquinone and Pigment Synthesis during Red Light-Induced Thylakoid Formation in Etiolated Barley Seedlings 337
- Lobesia botrana*
The Electroantennographic Detector — a Selective and Sensitive Tool in the Gas Chromatographic Analysis of Insect Pheromones 722
- Low Dose Effect**
Inquiry into the Limits of Biological Effects of Chemical Compounds in Tissue Culture, I. Low Dose Effects of Mercuric Chloride 643

- Low Potential
 Subilization High Potential Cytochrome b-559 from Spinach Chloroplasts 628
- Lymantriidae
 Electroantennogram Responses to Female Sex Pheromones in Five Genera of Lymantriidae (Lepidoptera) 676
- Lymphocytes
 Characterization of Different Deoxyribonucleases in Human Lymphocytes 781
- Lysine
 Conversion of D-Lysine to L-Lysine via L-Pipecolic Acid in *Neurospora crassa* 253
- Lysolecithin
 Neuraminidase Treatment Enhances the Lysolecithin Induced Intercellular Adhesion of *Ameoba proteus* (N) 551
 Lysolecithin Induced Membrane Alterations in Thymocytes. Effects of Lysophosphatides Possessing Adjuvant and Immuno-Suppressive Activities on Cell Agglutination by Concanavalin A 785
- Lysozyme
 NMR Relaxation Study of the Thermal Denaturation of Lysozyme (N) 294
- Manganese Binding Sites
 On the Kinetics and Mechanism of Spontaneous Intramolecular Reduction of the Central Metal Ion in $K_2[Mn(IV)-2\alpha\text{-Hydroxyethyl Isochlorin } e_4]$ Acetate in Aqueous Alkaline Solutions and Its Relation to the Binding Sites of Manganese in Photosynthesis 327
- Mass Spectrometry
 Gas Chromatographic Mass Spectrometric Analysis of Neutral and Acid Oligosaccharides from Human Milk as Their Trimethylsilyl Derivatives 451
- Matthiola*
 The Biosynthesis of 4-Methylsulfinyl-3-butenylglucosinolate (Glucoraphenin) in *Matthiola* Species. Evidence for Homomethionine and 2-Amino-6-methylthioproic Acid as Intermediates , , , 233
- Media
 The Influence of Protoplast Media on the Tumor Induction on *Kalanchoe* Leaves 73
- Membrane
 A Theoretical Consideration how to Study Biochemical Interfacial Photoreactions (N) 124
 Interactions between Retinal and Phospholipids in Monomolecular Films at Acid pH 478
 Chemoelastic Effect of Membranes 608
 Lysolecithin Induced Membrane Alterations in Thymocytes. Effects of Lysophosphatides Possessing Adjuvant and Immuno-Suppressive Activities on Cell Agglutination by Concanavalin A 785
- Membrane Conductance Models
 Conductance Characteristics of Interactive Subunit Membranes (N) 535
- Membrane Damage
 Influence of Spermine on Some Membrane-Disturbing Actions 117
- Membrane Polypeptide
 Determination of the Molecular Weight and the Hydrodynamic Properties of a Polypeptide from the Thylakoid Membrane by Sedimentation, Diffusion and Binding Measurements in Dodecyl Sulphate Solutions 615
- Membrane Structure
 Binding of Antibodies onto the Thylakoid Membrane. I. Maximal Antibody Binding and Adsorption of Antibodies to Lipids 484
- Monolayers
 Studies on Fragments of Rod Outer Segments from Bovine Retinas 796
- Meno-Polarotaxis
 Problems of Metotactic Orientation According to the Polarized Light of the Sky 88
- Mercuric Chloride
 Inquiry into the Limits of Biological Effects of Chemical Compounds in Tissue Culture, I. Low Dose Effects of Mercuric Chloride 643
- Messenger-Ribonucleoproteids
 Characterization of Messenger Ribonucleoproteins from Yeasts 516
- Metal Ions
 Charge Transfer Interactions between Isonicotinic Acid Hydrazide and Cupric Ions 33
- Metalloprotein
 The Competition Dialysis Method. A Possible Application: The Determination of Association Constants for Complexes of Tightly Bound or Labile Apoproteins (N) 534
- Methemoglobin
 Electronic Structure and Spatial Arrangement of C_{2v} -Coordinated Ferric Ion in Metmyoglobin, Metmyoglobin Fluoride, and Methemoglobin 701
- Methylmercury Containing Inactivator
 Reactions of Essential Sulphydryl Residues of Dehydrogenases with Nicotinamide-(S-methylmercuriothioinosine) Dinucleotide 562
- 4-Methylsulfinyl-3-butenylglucosinolate
 The Biosynthesis of 4-Methylsulfinyl-3-butenylglucosinolate (Glucoraphenin) in *Matthiola* Species. Evidence for Homomethionine and 2-Amino-6-methylthioproic Acid as Intermediates 233
- Metmyoglobin
 Electronic Structure and Spatial Arrangement of C_{2v} -Coordinated Ferric Ion in Metmyoglobin, Metmyoglobin Fluoride, and Methemoglobin 701
- Metmyoglobin Fluoride
 Electronic Structure and Spatial Arrangement of C_{2v} -Coordinated Ferric Iron in Metmyoglobin, Metmyoglobin Fluoride, and Methemoglobin 701
- Metribuzin
 Mode of Action and Structure-Activity-Relationships of the Aminotriazinone Herbicide Metribuzin. Inhibition of Photosynthetic Electron Transport in Chloroplasts by Metribuzin 499
- Mg-Ca-ATPase
 Activation and Inhibition of the Mg-Ca-ATPase from *E. coli* by Mg^{2+} and Ca^{2+} 412
- Michaelis Constant
 Michaelis Constants of Neuraminidases of Pathogenic and Apathogenic Microorganisms 417
- Microorganisms
 Michaelis Constants of Neuraminases of Pathogenic and Apathogenic Microorganisms 417
 Over-Production of Porphyrins and Heme in Heterotrophic Bacteria (N) 425
- Microsomes
 Microsome-Associated 17β -Hydroxysteroid Dehydrogenases of Human Placenta, I. Solubilization, Enrichment and Separation of Two 17β -HSD-Activities after Phospholipase-Treatment 4
 Microsome-Associated 17β -Hydroxysteroid Dehydrogenases of Human Placenta, II. Kinetic Studies and Characterization of the Solubilized Estradiol- and Testosterone-"Sensitive" 17β -HSD-Activities 17

- Model Membranes**
 Surface Properties of Monomolecular Films of Reduced Plastocyanin at a Nitrogen-Water Interface . 318
- Molecular Weight**
 Determination of the Molecular Weight and the Hydrodynamic Properties of a Polypeptide from the Thylakoid Membrane by Sedimentation, Diffusion and Binding Measurements in Dodecyl Sulphate Solutions 615
- Mono- and Sesquiterpenes**
 Chemical Constituents of the Essential Oils of Aroliaceae and Lauraceae Families (N) . . . 421
- Monolayers**
 Surface Properties of Monomolecular Films of Reduced Plastocyanin at a Nitrogen-Water Interface 318
 Interactions between Retinal and Phospholipids in Monomolecular Films at Acid pH 478
- Motor Programming**
 Errors in Type-Writing and Their Indications for Special Characters of the Data Processing Controlling the Typing Process 80
- Murine Leukemia**
 Protection of Mice against Friend Leukemia by Active and Passive Immunization with Isolated Viral Glycoprotein and Its Antiserum Respectively (N) 309
- Murine Leukemia Virus**
 Properties of Mouse Leukemia Viruses. Production of Substantial Amounts of Friend Leukemia Virus by a Suspension Tissue Culture Line (Eveline Suspension Cells) (N) 698
- Mushroom**
 Damage Caused by Two Finnish Mushrooms, *Cortinarius speciosissimus* and *Cortinarius gentilis* on the Rat Kidney 668
- Mutants**
 Phospholipids and ATPase Activity of Wild-Type and ATPase Deficient and Uncoupled Mutants of *E. coli* (N) 832
- NAD⁺-Isomer**
 Interaction between Dehydrogenase and a New NAD⁺-Isomer 734
- NADP Reduction**
 Antagonistic Relationship between Electron Transport and P₇₀₀ in Chloroplasts and Intact Algae . 761
- Naringenin**
 Formation of Naringenin in Ripening Tomatoes (N) 549
- Neoxanthin**
 The Effect of Antibodies to Neoxanthin on Electron Transport on the Oxygen Evolving Side of Photosystem II and the Reactions of this Antiserum with Various Chloroplast Preparations . 622
- Nerve-Regeneration**
 An Autoradiographic Study of Neurosecretory Cell Activity of Allatectomized Females of the Grasshopper, *Melanoplus sanguinipes* (Fab.) . . 511
- Neural Data Processing**
 Errors in Type-Writing and Their Indications for Special Characters of the Data Processing Controlling the Typing Process 80
- Neuraminidase**
 Michaelis Constants of Neuraminidases of Pathogenic and Apathogenic Microorganisms 417
 Neuraminidase Treatment Enhances the Lysolecithin Induced Intercellular Adhesion of *Amoeba proteus* (N) 551
- Neurosecretion**
 An Autoradiographic Study of Neurosecretory Cell Activity of Allatectomized Females of the Grasshopper, *Melanoplus sanguinipes* (Fab.) . 511
- Neurospora crassa***
 Conversion of D-Lysine to L-Lysine via L-Pipecolic Acid in *Neurospora crassa* 253
- Nitrogen Excretion**
 Nitrogen Excretion by Nitrogen Fixing Blue-Green Algae, II. Growth and Nitrogen Excretion of *Anabaena solitaria* Grown in Freshwater and in Mixtures of Freshwater and Seawater, as Well as with Fe, Mn, and Mo Added to the Nutrient Medium . 219
 Nitrogen Excretion by Nitrogen Fixing Blue-Green Algae, III. Utilization of the Excreted Nitrogen by Green Algae 223
- Nitrogen Fixation**
 Nitrogen Fixing Activity in *Rhizobium japonicum* Separated from Plant Cell Cultures (N) . . . 687
- NMR Chemical Shift**
 Poncmarin, a New Coumarin from *Poncirus trifoliata* L. (N) 420
- Noradrenaline**
 A Study of the Neurohumoral Control of Glycolysis in the Mouse Brain *in vivo*: Role of Noradrenaline and Dopamine 385
- Nuclei**
 Transport and Processing of Ribosomal RNA in Plant Cells after Treatment with Cycloheximide . 213
- Nucleohistone**
 Molecular Arrangement of DNA in Nucleohistone . 575
- C-Nucleoside**
 The Ionization and Optical Properties of Oxoformycin (N) 835
- Nucleotide Triphosphate Analogue**
 Synthesis and Properties of 5-Acetyl-4-methyl-1-(β -D-ribofuranosyl)-imidazole-5'-di- and -triphosphate 25
- Nun Moth**
 The Presence of Disparlure, the Sex Pheromone of the Gypsy Moth, in the Female Nun Moth . . 672
- Olfactory Receptors**
 Structure-Response Relationships in Noctuid Sex Pheromone Reception. An Introductory Report . 283
- One Second Intervals**
 An Apparatus for Sampling at One Second Intervals in Photosynthesis Experiments (N) . . . 680
- Onopordon alexandrinum***
 On the Constituents of the Wild Egyptian Plant *Onopordon alexandrinum* Boiss. 349
- Oscillogram**
 Distress Calls of *Rana r. ridibunda* Pallas (Amphibia, Anura) (N) 695
- Ovaries**
 Juvenile Hormone Binding Substances with Allotopic Properties in the Ovaries of *Tenebrio molitor* L. 730
- Oxidative Phosphorylation**
 2-Anilino-1,3,4-thiodiazoles, Inhibitors of Oxidative and Photosynthetic Phosphorylation . . . 183
- Oxygen Effect**
 Radiation Chemistry of DNA, II. Strand Breaks and Sugar Release by γ -Irradiation of DNA in Aqueous Solution. The Effect of Oxygen (N) . . 826
- Oxygen Exchange Transient**
 Computer Simulation of Primary Photosynthetic Reactions — Compared with Experimental Results on O₂-Exchange and Chlorophyll Fluorescence of Green Plants 489

- Oxygen Pressure
The $p\text{CO}_2/p\text{O}_2$ -Optode: A New Probe for Measurement of $p\text{CO}_2$ or $p\text{O}_2$ in Fluids and Gases (N) . . . 532
- Oxygen Reduction
Determination of Superoxide Free Radical Ion and Hydrogen Peroxide as Products of Photosynthetic Oxygen Reduction 53
- Partial Hepatectomy
Effect of Cytoplasmic and Serum Factors on the Uptake of $[^3\text{H}]$ Thymidine Triphosphate (TTP) by Isolated Nuclei of Liver Cells 107
- Pathogenicity
Michaelis Constants of Neuraminidases of Pathogenic and Apathogenic Microorganisms 417
- 2,5,7,3',4'-Pentahydroxy-flavanone
Detection of 2,5,7,3',4'-Pentahydroxy-flavanone-5-glucoside in the Seeds of *Galega officinalis* L. (Fabaceae) (N) 823
- Pentosephosphate Cycle
The Regulation of Glucose-6-phosphate Dehydrogenase in Chloroplasts 756
- Peptide Synthesis
Sequence Variation on an Antibiotically Active Tripeptide (N) 541
Synthesis of a Fragment of the Active Center of the Streptococcal Proteinase (EC 3.4.22.10), VI . 739
Synthesis of a Fragment of the Active Center of the Streptococcal Proteinase (EC 3.4.22.10), VII . 745
Synthesis of a Fragment of the Active Center of the Streptococcal Proteinase (EC 3.4.22.10), VIII . 752
- Peritrich Ciliates
Electromicroscopical Demonstration of the Fibrillar Nature of the Silverline System in Peritrich Ciliates 818
- Periodic Concentration Profiles
The Role of Electrical and Volume Transport in Heterogeneous Reaction Systems (N) 127
- Peroxidases
Oxidative Decarboxylation of *para*-Hydroxybenzoic Acids by Peroxidases under *in vivo* and *in vitro* Conditions 650
- Phalloidin
Phalloidin-Induced Proliferation of Actin Filaments within Rat Hepatocytes. Visualisation by Electron Microscopy and Immunofluorescence 793
- Phaseolus coccineus* L.
Phase-Shifting Effect of Caffeine in the Circadian Rhythm of *Phaseolus coccineus* L. (N) 855
- Phenylserin Analogues
Syntheses of Phenylserin Analogues and Their t-BOC-Derivatives (N) 538
- Pheromone
A Model of Pheromone Molecule-Acceptor Interaction 278
Structure-Response Relationships in Noctuid Sex Pheromone Reception. An Introductory Report . 283
Electroantennogram Responses to Female Sex Pheromones in Five Genera of Lymantriidae (Lepidoptera) 676
The Electroantennographic Detector — a Selective and Sensitive Tool in the Gas Chromatographic Analysis of Insect Pheromones 722
- Phlebiarubrone
Derivatives of Methylenedioxybenzene, 41. The Syntheses of Phlebiarubrone and Polyporic Acid . 1
- Phosphate
The Effect of Calcium and Phosphate on the Biphasic Calcium Uptake by the Sarcoplasmic Reticulum 777
- Phospholipase
Microsome-Associated 17β -Hydroxysteroid Dehydrogenases of Human Placenta. I. Solubilization, Enrichment and Separation of Two 17β -HSD-Activities after Phospholipase Treatment 4
On the Phospholipase Activity in Bovine Seminal Vesicles and Its Possible Role in the Regulation of the Prostaglandin Biosynthesis 429
- Phospholipids
On the Phospholipase Activity in Bovine Seminal Vesicles and Its Possible Role in the Regulation of the Prostaglandin Biosynthesis 429
Phospholipids and ATPase Activity of Wild-Type and ATPase Deficient and Uncoupled Mutants of *E. coli* (N) 832
