

Subject Index

Original Communications and Notes

- Acetabularia* Chloroplasts
Heterogeneity in Chloroplasts of Siphonaceous Algae as Compared with Higher Plant Chloroplasts (N) 108
- Acetylcholine Receptor
A Dual Effect of Acetylcholine on Gastropod Smooth Muscle Preparations 730
- Acetylcholinesterase
Occurrence of an Acetylcholinesterase (E.C. 3.1.1.7) in the Haemolymph of the Mussel *Mytilus edulis* (N) 333
- Acid Catalyzed Dehydrogenation
Isolation of β,β -Caroten-2-ol from an Insect, *Cerura vinula* (Lepidoptera) 121
Identification of β,β -Caroten-2-ol and β,β -Carotene-2,2'-diol in the Stick Insect, *Carausius morosus* Br.; a Reinvestigation Study 646
- Acridine Orange
On the Mechanism of the Acridine Orange Sensitized Photodynamic Inactivation of Lysozyme. I. Basic Kinetics 29
On the Mechanism of the Acridine Orange Sensitized Photodynamic Inactivation of Lysozyme. II. Kinetics in Presence of N-Acetylglucosamine 679
- Activated Charcoal
Contact of *Agrobacterium* with Wound Cells as a Prerequisite of Tumor Induction 317
- Active Center Peptide
Synthesis of a Fragment of the Active Center of the Streptococcal Proteinase (EC 3.4.22.10), IX 418
- Acylated Glycosides
Kaempferole-3-(O-sinapoylsophoroside)-7-glucoside, a New Flavonoid from *Brassica napus* L. (Cruciferae) (N) 622
- Adaptation
Light and Dark Adaptation of Crayfish Visual Cells Depending on Extracellular Calcium Concentration 324
- Adenosine
Formation of H-Addition Radicals in Adenine Derivatives 225
- Adenosine-5'-triphosphatase
Coupling Factor Adenosine-5'-triphosphatase from *Rhodospirillum rubrum*: A Simple and Rapid Procedure for Its Purification 272
- Adenosine Triphosphate Formation
Artificial Energy Conservation in Bacterial Photosynthetic Electron Transport 152
- Aesculetin
6,7-Dihydroxycoumarin (Aesculetin) as a Substrate for Catechol-O-methyltransferase 280
- Ageing
Ultrastructural Changes in *in vitro* Ageing Spinach Chloroplasts 82
Stabilization of the Photosynthetic Activities of Isolated Spinach Chloroplasts during Prolonged Ageing 452
- Agrobacterium*
Contact of *Agrobacterium* with Wound Cells as a Prerequisite of Tumor Induction 317
- Aiptasia*
"Synthetical" *Aiptasia mutabilis* RAPP (Coelenterata) (N) 215
- Alkaline Hydrolysis
Structure-Reactivity Relationship and Delayed Neurotoxicity of Organophosphorus Compounds (N) 479
Reactivity and Delayed Neurotoxicity of Organophosphates (N) 750
- Alkanes
 β -Cyclocitral and Alkanes in *Microcystis* (Cyanophyceae) 491
- Amino Acids
Direct Labeling of Amino Acids by Means of Hot ^{14}C -Atoms 377
- 4-Aminobenzoate-Requirement
Nutritional Requirement for 4-Aminobenzoate Caused by Mutation of Dihydropteroate Synthetase 285
- α -Aminobutyric Acid
Direct Labeling of Amino Acids by Means of Hot ^{14}C -Atoms 377
- δ -Aminolaevulinic Acid Dehydratase
Enzymic Capacities for Chlorophyll Biosynthesis. Activation and *de novo* Synthesis of Enzymes 55
- δ -Aminolaevulinic Acid Synthase
Enzymic Capacities for Chlorophyll Biosynthesis. Activation and *de novo* Synthesis of Enzymes 55
- Aminotransferase Activity
Activity of Aminotransferases in the Blue Green Alga *Anacystis nidulans* 433
- Amphetamine Effects
Variations in Melanin and Riboflavin Content of Amphibian Liver under the Influence of Reserpine and Amphetamine 98
- Amphibian Skin
New and Uncommon Indole- and Imidazole-Alkylamines in Skins of Amphibians from Australia and Papua New Guinea 118
- Anacystis*
Activity of Aminotransferases in Blue Green Alga *Anacystis nidulans* 433
- Anacystis nidulans*
Formation of Benzoic Acid and *p*-Hydroxybenzoic Acid in the Blue Green Alga *Anacystis nidulans*: A Thylakoid-Bound Enzyme Complex Analogous to the Chloroplast System 693
- Anaerobiosis
Growth Burst after Anaerobiosis: a "Stored-Growth" Effect in *Avena* Coleoptiles 312
- Analysis of Variance
The Influence of the Sample Size upon the Result of an Analysis of Variance in Long-Stemmed and Short-Stemmed Mutants of *Pisum sativum* (N) 216
- 1-Anilino-8-naphthalene Sulfonate
The Use of 1-Anilino-8-naphthalene Sulfonate as Fluorescent Probe for Conformational Studies on Ribulose-1,5-bisphosphate Carboxylase 267
- Ant
Volatile Substances from *Formica rufa* L. and *F. polyctena* Först (N) 748

- Anthraquinone Derivatives**
 Novel Anthraquinone Pigments from *Solorina crocea* (N) 197
- Anthraquinones**
 Further Anthraquinones from *Digitalis schischkinii* 403
- Anti-Galactans**
 Galactans and Anti-Galactans from Invertebrates (N) 205
- Antibiotics**
 Metabolic Products of Microorganisms, 151. Comparative Studies on Intracellular Potassium- and Sodium Concentrations of Wild-Type and a Macroretrolide Negative Mutant of *Streptomyces griseus* 115
 Initiation in a Polyribosome-Dependent Protein-Synthesizing Cell-Free System from *Saccharomyces* 169
- Antibodies**
 Localization of the Tri- and Digalactosyl Diglyceride in the Thylakoid Membrane with Serological Methods 589
- Antiserum**
 Inhibition of Electron Transport on the Oxygen-Evolving Side of Photosystem II by an Antiserum to a Polypeptide Isolated from the Thylakoid Membrane 304
 Effect of an Antiserum to a Thylakoid Membrane Polypeptide on the Primary Photoreaction of Photosystem II 594
- Antitumour Agents**
 Synthesis and Electron Spin Resonance Study of Spin-Labelled Compounds Related to Tumour-Growth Inhibitory Nitroarylaziridines (N) . . . 328
- Apical and Basal Rhabdomes**
 The Dorsal Eye of *Cloëon dipterum* (Ephemeroptera) (A Light- and Electronmicroscopical Study) (N) 335
- Artificial Membranes**
 Photosynthetic Electron Carriers at a Heptane-Water Interface 569
- ATPase**
 Kinetic Properties of Mg, Ca ATPase from Various *Escherichia coli* Mutants (N) 201
- Attaching-Mechanism**
 A Special Attaching-Mechanism between the Cortex radiatus externus and the Follicle Epithelium of the Oocytes of *Gobio gobio* (N) 628
- Attachment**
 Contact of *Agrobacterium* with Wound Cells as a Prerequisite of Tumor Induction 317
- Auxin Effect**
 Growth Burst after Anaerobiosis: a "Stored-Growth" Effect in *Avena* Coleoptiles 312
- Axonal Transport**
 Evidence for the Involvement of the Na⁺-K⁺-ATPase in the Mechanism of Axonal Protein and Nucleoside Transport 683
- 8-Azapurine (β) ribosides**
 Ribose Conformations of 8-Azapurine Nucleosides in Solution 135
- Bacterial Cell Walls**
 A Small-Angle-Scattering Camera of Medium Resolution without Slit-high-Error 635
- Bacterial Chromosome**
 Chromosomal Structure of *Pseudomonas testosteroni*. I. Isolation and Characterization of the Chromosomal Complexes 91
 Chromosomal Structure of *Pseudomonas testosteroni*. II. Activity of the Endogenous RNA-Polymerase 601
- Bacterial Photosynthesis**
 Artificial Energy Conservation in Bacterial Photosynthetic Electron Transport 152
- Bacteriophage T₄ DNA**
 Incorporation of T₄ Phage DNA into a Specific DNA Fraction from the Higher Plant *Matthiola incana* 558
- Base Composition of Sponge DNAs**
 The Determination of the DNA Base Composition in 19 Species of Adriatic Sponges with High-Pressure Liquid Cation-Exchange Chromatography 554
- Basic Sequences**
 Immunoglobulin Diversity: Correlation of Non-Allelic Antigenic Markers with the Basic Sequences of the Variable Region of Human Lambda Chains (N) 758
- Benzoate Synthase**
 Formation of Benzoic Acid and *p*-Hydroxybenzoic Acid in the Blue Green Alga *Anacystis nidulans*: A Thylakoid-Bound Enzyme Complex Analogous to the Chloroplast System 693
- Bile Pigments**
 Studies on Plant Bile Pigments: Characterization of a Model for the Phytochrome P_r Chromophore 413
- Biological Systems**
 Experimental Investigations on Ultraweak Photon-emission from Biological Systems 741
- Biomembranes**
 On the Cross-Section Structure of the Mitochondrial Cristae-Membrane as Revealed by X-Ray Diffraction 612
- Biopolymers**
 Synthesis of 5-Azido-3-nitro-*ω*-bromo-acetophenone — a Photochemically Active Bifunctional Reagent for the Cross-Linking of Biopolymers 389
- Biosynthesis**
 Further Studies on the Biosynthesis of Stizolobinic Acid and Stizolobic Acid in the Etiolated Seedlings of *Stizolobium hassjoo* 15
- Black Lipid Membranes**
 A Cell for Simultaneous Measurements of Optical and Electrical Properties of Black Lipid Membranes 40
- Brassica napus* L.**
 Kaempferole-3-(*O*-sinapoylsophoroside)-7-glucoside, a New Flavonoid from *Brassica napus* L. (Cruciferae) (N) 622
- Bull**
 Different Deoxyribonuclease-Activities in Bull Seminal Plasma (N) 626
- Buoyant Densities**
 Heterogeneity in Chloroplasts of Siphonaceous Algae as Compared with Higher Plant Chloroplasts (N) 108
- Calcium**
 Light and Dark Adaptation of Crayfish Visual Cells Depending on Extracellular Calcium Concentration 324
- Calcium-Salt·1,5-Hydrate**
 The Crystal Structure of the Pyrimidine Analogue Calcium 5-Ethylidenehydroorotate·1,5 Hydrate, a Photoproduct of Ethylorotate 518
- Calliphora***
 Functional Characterization and Anatomical Identification of Motion Sensitive Neurons in the Lobula plate of the Blowfly *Calliphora erythrocephala* (N) 629

- Cajanus*
Induced Isoflavonoids from Fungus-Infected Stems of Pigeon Pea (*Cajanus cajan*) 504
- Carbon-13
Determination of the Origin of Drugs by Measuring Natural Isotope Contents: D/H and $^{13}\text{C}/^{12}\text{C}$ Ratios of Some Diazepam Samples 111
- Cardiospermin-*p*-hydroxybenzoate
A New Cyanogenic Glycoside from *Sorbaria arborea* (Rosaceae) 397
- Caries
Physiological Effects of Sucrose Substitutes and Artificial Sweeteners on Growth Pattern and Acid Production of Glucose-Grown *Streptococcus mutans* Strains *in vitro* 245
- β,β -Caroten-2-ol
Isolation of β,β -Caroten-2-ol from an Insect, *Cerura vinula* (Lepidoptera) 121
Identification of β,β -Caroten-2-ol and β,β -Carotene-2,2'-diol in the Stick Insect, *Carausius morosus* Br.; a Reinvestigation Study 646
- β,β -Carotene-2,2'-diol
Identification of β,β -Caroten-2-ol and β,β -Carotene-2,2'-diol in the Stick Insect, *Carausius morosus* Br.; a Reinvestigation Study 646
- Carotenoid Biosynthesis
Effect of Substituted Pyridazinone Herbicides and of Difunone (EMD-IT 5914) on Carotenoid Biosynthesis in Green Algae 652
- Carotenoids
"Synthetical" *Aiptasia mutabilis* RAPP (Coelenterata) (N) 215
- Catalyst
Thallium-III-trifluoroacetate Catalyzed Degradation of 5,7,3',4'-Tetrahydroxyflavanone to 5,7-Dihydroxychromone and 1,2,4-Trihydroxybenzene 411
- Catechol-O-methyltransferase
6,7-Dihydroxycoumarin (Aesculetin) as a Substrate for Catechol-O-methyltransferase 280
- Catechols
O-Methylation of Epinephrine, 3,4-Dihydroxybenzoic Acid and 6,7-Dihydroxycoumarin in Yeasts 509
- Cecropia Moth
The Accessory Sex Glands as the Repository for Juvenile Hormone in Male Cecropia Moths (N) 199
- Cell Coat
On the Role of the Cell Coat Glycoproteins in the Permeability of the Cell 700
- Cell Communication
Experimental Investigations on Ultraweak Photon-emission from Biological Systems 741
- Cell-Free Algal System
The Influence of Oxygen on Nitrite Reduction in a Reconstituted System 565
- Cell-Free Protein Synthesis
Initiation in a Polyribosome-Dependent Protein-Synthesizing Cell-Free System from *Saccharomyces* 169
- Cell Transformation
Expression of Virus Specific Morphological Cell Transformation Induced in Enucleated Cells (N) 766
- Cerura vinula*
Isolation of β,β -Caroten-2-ol from an Insect, *Cerura vinula* (Lepidoptera) 121
- Cetyltrimethylammoniumbromide
Fractionated Precipitation of Acid Macropolyanions by Dialysis, a Simple Method for the Estimation of DNA in Complex Biological Samples 141
- Chemical Composition
Chromoplasts in *Rosa rugosa*: Development and Chemical Characterization of Tubular Elements 456
- Chemical Probe
Correlation of the Photosynthetic Reduction of *p*-(Diazonium-)Benzenesulfonic Acid with the Increased Binding of the Probe to the Thylakoid Membrane 48
- Chirality
Chirality of the Hydrogen Transfer to NAD Catalyzed by *myo*-Inositol Dehydrogenase from *Klebsiella pneumoniae* (N) 624
- Chlorella
"Synthetical" *Aiptasia mutabilis* RAPP (Coelenterata) (N) 215
- β -Chloro-hydrazines
Effect of N-Methyl-N- β -chloroethyl-hydrazine-HCl on the Growth and Multiplication of Yeast Cells (*Saccharomyces cerevisiae*) 292
- Chlorophyll
Mixed Monomolecular Films of Chlorophyll and Cytochromes 44
- Chlorophyll a
Photo-Induced Electron Transfer in Chlorophyll Containing Liposomes 163
- Chlorophyll-aII
Indirect Evidence for a Very Fast Recovery Kinetics of Chlorophyll-aII in Spinach Chloroplasts 712
- Chlorophyll Fluorescence
Light-Dependent Interactions of Phenazine Methosulfate with 3-(3,4-Dichlorophenyl)-1,1-dimethylurea-Poisoned Chloroplasts 722
- Chloroplast Coupling Factor
On the Reconstitution of Photophosphorylation in CF₁-Extracted Chloroplasts 445
- Chloroplast Development
The Greening Process in *Euglena gracilis*, I. The Kinetics of Appearance of Chloroplast Proteins and the Effect of Cycloheximide and Chloramphenicol on Their Synthesis 157
- Chloroplast Membrane
Correlation of the Photosynthetic Reduction of *p*-(Diazonium-)Benzenesulfonic Acid with the Increased Binding of the Probe to the Thylakoid Membrane 48
- Chloroplasts
Stabilization of the Photosynthetic Activities of Isolated Spinach Chloroplasts during Prolonged Ageing 452
Localization of the Tri- and Digalactosyl Diglyceride in the Thylakoid Membrane with Serological Methods 589
- Chloroplasts
Influence of DCMU on the Formation of Lipids and Fatty Acids, and on the Ultrastructure of *Euglena gracilis* 687
Light-Dependent Interactions of Phenazine Methosulfate with 3-(3,4-Dichlorophenyl)-1,1-dimethylurea-Poisoned Chloroplasts 722
- Chromone Formation
Enzymatic Degradation of [Ring B-U- ^{14}C]-5,7,3',4'-tetrahydroxyflavanone-7-O-glucoside to 5,7-Dihydroxychromone-7-O-glucoside and [Ring-U- ^{14}C]-1,2,4-trihydroxybenzene with a Cell Free System from *Mentha longifolia* 408
- Chromophor Model
Studies on Plant Bile Pigments: Characterization of a Model for the Phytochrome P_r Chromophor 413

- Chromoplast**
Chromoplasts in *Rosa rugosa*: Development and Chemical Characterization of Tubular Elements . . . 456
- Cloëon dipterum***
The Dorsal Eye of *Cloëon dipterum* (Ephemeroptera) (A Light- and Electronmicroscopical Study) (N) . . . 335
- Co α /Co β -isomerism**
Co α /Co β -Isomerism of Corrinoids. Partial Synthesis and *Escherichia coli* Activity of Further Isomer Pairs of the (Co-methyl)-Corrinoids . . . 255
- Coelenterata**
"Synthetical" *Aiptasia mutabilis* (RAPP) (Coelenterata) (N) . . . 215
- Coleoptiles**
Growth Burst after Anaerobiosis: a "Stored-Growth" Effect in *Avena* Coleoptiles . . . 312
- Compound Eye**
The Dorsal Compound Eye of Simuliid Flies: An Eye Specialized for the Detection of Small, Rapidly Moving Objects (N) . . . 764
- Compression**
Transduction of Turgor Pressure by Cell Membrane Compression . . . 461
- Conformation-Controlled Trans-Effect**
Conformation-Controlled Trans-Effect of the Proximal Histidine in Haemoglobins. An Electron Spin Resonance Study of Monomeric Nitrosyl-⁵⁷Fe-Haemoglobins . . . 524
- Conformational Changes**
Electron-Beam Induced Conformational Changes in Polypeptide Layers: an Infrared Study (N) . . . 746
- Controlled Drug Release**
Organ Specific Application of Drugs by Means of Cellular Capsule System . . . 732
- Copies of Polyoma Virus Genome**
Estimation by Reassociation Assay of Viral DNA Copies in Three Polyoma Virus Transformed Cell Lines (N) . . . 212
- Corrinoid Coenzymes**
On the Reaction of Methylmercuric Hydroxide with Methylcobalamin (N) . . . 753
- Cortex radiatus externus**
A Special Attaching-Mechanism between the Cortex radiatus externus and the Follicle Epithelium of the Oocytes of *Gobio gobio* (N) . . . 628
- Cotyledons of *Helianthus***
Enzymic Capacities for Chlorophyll Biosynthesis. Activation and *de novo* Synthesis of Enzymes . . . 55
- Coupling Factor**
Coupling Factor Adenosine-5'-triphosphatase from *Rhodospirillum rubrum*: A Simple and Rapid Procedure for Its Purification . . . 272
- Cross Links**
Synthesis of 5-Azido-3-nitro- ω -bromo-acetophenone — a Photochemically Active Bifunctional Reagent for the Cross-Linking of Biopolymers . . . 389
- Crown-Gall**
Methylation of Transfer RNA in Plant Cells (N) . . . 209
- Cruciferae**
Kaempferole-3-(O-sinapoylsophoroside)-7-glucoside, a New Flavonoid from *Brassica napus* L. (Cruciferae) (N) . . . 622
- Crustaceae**
Light and Dark Adaptation of Crayfish Visual Cells Depending on Extracellular Calcium Concentration . . . 324
- Cyanogenic Glycoside**
A New Cyanogenic Glycoside from *Sorbaria arborea* (Rosaceae) . . . 397
- Cyclic Electron Transport**
Photoreactions of Cytochrome b₆ and Cytochrome f in Chloroplast Photosystem I Fragments . . . 68
- β -Cyclocitral**
 β -Cyclocitral and Alkanes in *Microcystis* (Cyanophyceae) . . . 491
- Cytochrome**
Mixed Monomolecular Films of Chlorophyll and Cytochromes . . . 44
- Cytochrome 552**
The Greening Process in *Euglena gracilis*, I. The Kinetics of Appearance of Chloroplast Proteins and the Effect of Cycloheximide and Chloramphenicol on Their Synthesis . . . 157
- Cytochrome 563**
The Greening Process in *Euglena gracilis*, I. The Kinetics of Appearance of Chloroplast Proteins and the Effect of Cycloheximide and Chloramphenicol on Their Synthesis . . . 157
- Cytochrome b₆-f Particles**
Variable Composition of Cytochrome b₆-f Particles . . . 606
- Cytoplasm**
Distribution of [³H]Thiopyronine in Yeast Cells (*Saccharomyces cerevisiae*) (N) . . . 481
- Dansyl Glycolipids**
Labeling of Animal Cells with Fluorescent Dansyl Cerebroside . . . 737
- Degradative Pathway**
Enzymatic Formation of 4-Hydroxy-2-Oxovalerate Using Pyrazon-Degrading Bacteria (N) . . . 757
- Delayed Neurotoxicity**
Structure-Reactivity Relationships and Delayed Neurotoxicity of Organophosphorus Compounds (N) . . . 479
Reactivity and Delayed Neurotoxicity of Organophosphates (N) . . . 750
- Dendritic Spines**
Pyramidal Cells with Different Densities of Dendritic Spines in the Cortex of the Mouse . . . 319
- Deoxyadenosine**
Formation of H-Addition Radicals in Adenine Derivatives . . . 225
- Deoxycholate-Treatment**
The Effect of Deoxycholate-Treatment to the Photoreactions of the Active Pigments in Photosynthesis . . . 64
- Deoxyribonuclease**
Different Deoxyribonuclease-Activities in Bull Seminal Plasma (N) . . . 626
- Deoxyribonuclease Digestion**
Chromosomal Structures of *Pseudomonas testosteroni*. I. Isolation and Characterization of the Chromosomal Complexes . . . 91
- Deoxyribonucleoside Triphosphates (dNTPs)**
An Isocratic High-Pressure Liquid Chromatographic Purification Method for Radioactively Labeled Deoxyribonucleoside Triphosphates . . . 551
- Detachment of Segments**
Detachment of Segments from DNA Double Strands as Detected by Time Resolved Rayleigh Light Scattering (N) . . . 484
- Deuterium Oxide**
Ribose Conformations of 8-Azapurine Nucleosides in Solution . . . 135

- Deuterium**
 Determination of the Origin of Drugs by Measuring Natural Isotope Contents: D/H and $^{13}\text{C}/^{12}\text{C}$ Ratios of Some Diazepam Samples 111
- Development**
 Chromoplasts in *Rosa rugosa*: Development and Chemical Characterization of Tubular Elements . . 456
- Diapause Hormone**
 Molecular Size of the Diapause Hormone of the Silkworm *Bombyx mori* 132
- Diazepam**
 Determination of the Origin of Drugs by Measuring Natural Isotope Contents: D/H and $^{13}\text{C}/^{12}\text{C}$ Ratios of Some Diazepam Samples 111
- p-(Diazonium)-Benzenesulfonic Acid**
 Correlation of the Photosynthetic Reduction of p-(Diazonium)-Benzenesulfonic Acid with the Increased Binding of the Probe to the Thylakoid Membrane 48
- Dibromothymoquinone**
 Reversal of Dibromothymoquinone Inhibition of Photosynthetic Electron Flow by Thiol Compounds (N) 103
- Dielectric Breakdown**
 Organ Specific Application of Drugs by Means of Cellular Capsule Systems 732
- Diester Waxes**
 Chemical Composition of the Nasal Gland Secretion from the Marsh Deer *Odocoileus (Dorcelpus) dichotomus* (Illiger) 496
- Different Forms**
 Chromosomal Structures of *Pseudomonas testosteroni*. I. Isolation and Characterization of the Chromosomal Complexes 91
- Difunone**
 Effect of Substituted Pyridazinone Herbicides and of Difunone (EMD-IT 5914) on Carotenoid Biosynthesis in Green Algae 652
- Digalactosyl Diglyceride**
 Localization of the Tri- and Digalactosyl Diglyceride in the Thylakoid Membrane with Serological Methods 589
- Digitalis schischkinii**
 Further Anthraquinones from *Digitalis schischkinii* 403
- Dihydropteroate Synthetase**
 Nutritional Requirement for 4-Aminobenzoate Caused by Mutation of Dihydropteroate Synthetase 285
- 3,4-Dihydroxyphenylalanine**
 Further Studies on the Biosynthesis of Stizolobinic Acid and Stizolobic Acid in the Etiolated Seedlings of *Stizolobium hassjoo* 15
- Dimethylsulfoxide**
 The Effect of Ethylene Glycol and DMSO on Fusion of Isolated Sarcoplasmic Reticulum Membranes 708
- Diphosphonates**
 Dissociation Constants of Ethane-1-hydroxy-1,1-diphosphonate [EHDP] and Dichloromethylene-diphosphonate [Cl_2MDP] for H^+ , Ca^{2+} , Mg^{2+} and Zn^{2+} 661
- Dissociation Constants**
 Dissociation Constants of Ethane-1-hydroxy-1,1-diphosphonate [EHDP] and Dichloromethylene-diphosphonate [Cl_2MDP] for H^+ , Ca^{2+} , Mg^{2+} and Zn^{2+} 661
- Distamycin A**
 Failure of Inhibition of Polyoma Virus Replication by Distamycin A (N) 214
- Distribution**
 Distribution of [^3H]Thiopyronine in Yeast Cells (*Saccharomyces cerevisiae*) (N) 481
- DNA**
 Redundant Nucleotide-Sequences in DNA from Wheat (N) 104
 Characterization of Mitochondrial DNA from the Pika (*Ochotona rufescens rufescens*) 145
 Contribution of Monofunctional Adducts formed by Furocoumarins with DNA to the Inhibition of Nucleic Acids Synthesis (N) 207
 Detachment of Segments from DNA Double Strands as Detected by Time Resolved Rayleigh Light Scattering (N) 484
- DNA Uptake**
 Incorporation of T_4 Phage DNA into a Specific DNA Fraction from the Higher Plant *Matthiola incana* 558
- cis-9-Dodecenyl Acetate**
 Sex Pheromone of *Eupoecilia ambiguella*: cis-9-Dodecenyl Acetate as a Major Component . . . 499
- E. coli Activity**
 Coa/Co β -Isomerism of Corrinoids. Partial Synthesis and *Escherichia coli* Activity of Further Isomer Pairs of the (Co-methyl)-Corrinoids 255
- Einbindiger Traubenwickler**
 Sex Pheromone of *Eupoecilia ambiguella*: cis-9-Dodecenyl Acetate as a Major Component . . . 499
- Electrical Properties**
 A Cell for Simultaneous Measurements of Optical and Electrical Properties of Black Lipid Membranes . 40
- Electron Density Profile**
 On the Cross-Section Structure of the Mitochondrial Cristae-Membrane as Revealed by X-Ray Diffraction 612
- Electron Microscopy**
 A Special Attaching-Mechanism between the Cortex radiatus externus and the Follicle Epithelium of the Oocytes of *Gobio gobio* (N) 628
 Fusion of Isolated Sarcoplasmic Reticulum Membranes 703
 Electron-Beam Induced Conformational Changes in Polypeptide Layers: an Infrared Study (N) . . . 746
 The Yolk Nucleus in Young Oocytes of *Neomacheilus barbatulus* (L.) (Teleostei, Cobitidae) (N) . 761
- Electron Spin Resonance**
 Studies on the Undecapeptide of Ferricytochrome c Using ESR, Mössbauer and Visible Spectroscopies . 232
 Non-Equivalence and Inverse Allosteric Response of the α and β Chains in Haemoglobins. An Electron Spin Resonance Study of NO-Ligated Hb Kansas 664
- Electron Spin Resonance Study**
 Conformation-Controlled Trans-Effect of the Proximal Histidine in Haemoglobins. An Electron Spin Resonance Study of Monomeric Dityrosyl- ^{57}Fe -Haemoglobins 524
- Electron Transfer**
 Photo-Induced Electron Transfer in Chlorophyll Containing Liposomes 163
- Electron Transport**
 The Effect of Deoxycholate-Treatment to the Photoreactions of the Active Pigments in Photosynthesis 64
 Artificial Energy Conservation in Bacterial Photosynthetic Electron Transport 152

- Electrophysiology
Functional Characterization and Anatomical Identification of Motion Sensitive Neurons in the Lobula plate of the Blowfly *Calliphora erythrocephala* (N) 629
- Endogenous RNA-Polymerase
Chromosomal Structure of *Pseudomonas testosteroni*. II. Activity of the Endogenous RNA-Polymerase 601
- Energized Membrane
Light-Dependent Interactions of Phenazine Methosulfate with 3-(3,4-Dichlorophenyl)-1,1-dimethylurea-Poisoned Chloroplasts 722
- Enucleated Cells
Expression of Virus Specific Morphological Cell Transformation Induced in Enucleated Cells (N) 766
- Enzyme Conformations
The Use of 1-Anilino-8-naphthalene Sulfonate as Fluorescent Probe for Conformational Studies on Ribulose-1,5-bisphosphate Carboxylase 267
- Enzyme Induction
Nucleoside Triphosphate Levels in *Streptomyces hydrogenans* during Growth and Induction of 20 β -Hydroxysteroid Dehydrogenase (N) 486
- Erythrocyte Membrane Proteins
Reversible Transformation of Precipitated and Nonprecipitated Lipoproteins Recombined from Proteins and Lipids of Erythrocyte Membranes 174
- Erythrocytes
Loading of Human Red Blood Cells with DNA and RNA 149
- Escherichia coli*
Kinetic Properties of Mg, Ca ATPase from Various *Escherichia coli* Mutants (N) 201
- Ester Hydrolysis
Kinetic Analysis of the Catalytic Properties of Peptides in Ester Hydrolysis 675
- Ester Waxes
Chemical Composition of the Nasal Gland Secretion from the Marsh Deer *Odocoileus (Dorcaphus) dichotomus* (Illiger) 496
- Estimation of DNA
Fractionated Precipitation of Acid Macropolyanions by Dialysis, a Simple Method for the Estimation of DNA in Complex Biological Samples 141
- 1,N⁶-Ethenoadenosine 3',5'-Cyclic Monophosphate
Spectrometric and Biological Data of 1,N⁶-Ethenoadenosine 3',5'-Cyclic Monophosphate 18
- Ethidiumbromide
pK_a-Values of Ethidiumbromide and 7-Amino-9-phenyl-10-ethyl-phenanthridiniumbromide 656
- Ethylene Glycol
The Effect of Ethylene Glycol and DMSO on Fusion of Isolated Sarcoplasmic Reticulum Membranes 708
- Ethylenediaminetetraacetic Acid Chelation
On the Role of the Cell Coat Glycoproteins in the Permeability of the Cell 700
- 5-Ethylidenehydroorotate
Unusual Photochemical Transformation of 5-Ethylorotate to 5-Ethylidenehydroorotate 514
The Crystal Structure of the Pyrimidine Analogue Calcium 5-Ethylidenehydroorotate·1,5 Hydrate, a Photoproduct of Ethylorotate 518
- 5-Ethylorotate
Unusual Photochemical Transformation of 5-Ethylorotate to 5-Ethylidenehydroorotate 514
- 5-Ethyluracil
Unusual Photochemical Transformation of 5-Ethylorotate to 5-Ethylidenehydroorotate 514
- Euglena gracilis*
The Greening Process in *Euglena gracilis*, I. The Kinetics of Appearance of Chloroplast Proteins and the Effect of Cycloheximide and Chloramphenicol on Their Synthesis 157
Influence of DCMU on the Formation of Lipids and Fatty Acids, and on the Ultrastructure of *Euglena gracilis* 687
- Eupoecilia ambiguella*
Sex Pheromone of *Eupoecilia ambiguella*: cis-9-Dodecenyl Acetate as a Major Component 499
- Excitation
A Dual Effect of Acetylcholine on Gastropod Smooth Muscle Preparations 730
- Extrusive Organelles
Particle Movement in Heliozoan Axopods Associated with Lateral Displacement of Highly Ordered Membrane Domains 190
- Fats
A Small-Angle-Scattering Camera of Medium Resolution without Slit-high-Error 635
- Fatty Acids
Influence of DCMU on the Formation of Lipids and Fatty Acids, and on the Ultrastructure of *Euglena gracilis* 687
- Fish Visual System
Evidence for the Involvement of the Na⁺K⁺-ATPase in the Mechanism of Axonal Protein and Nucleoside Transport 683
- ¹⁴CO₂ Fixation
Activity of Aminotransferases in the Blue Green Alga *Anacystis nidulans* 433
- Flash Excitation
The Chlorophyll aII Reaction in Trypsin-Treated Spinach Chloroplasts in the Presence of Potassium Ferricyanide 78
The Effect of Deoxycholate-Treatment to the Photoreactions of the Active Pigments in Photosynthesis 64
- Flash Spectroscopy
Effect of an Antiserum to a Thylakoid Membrane Polypeptide on the Primary Photoreaction of Photosystem II 594
- Flavonoids
Kaempferole-3-(O-sinapoylsophoroside)-7-glucoside, a New Flavonoid from *Brassica napus* L. (Cruciferae) (N) 622
- Flavanone Degradation
Enzymatic Degradation of [Ring B-U-¹⁴C]-5,7,3',4'-tetrahydroxyflavanone-7-glucoside to 5,7-Dihydroxychromone-7-O-glucoside and [Ring-U-¹⁴C]-1,2,4-trihydroxybenzene with a Cell Free System from *Mentha longifolia* 408
Thallium-III-trifluoroacetate Catalyzed Degradation of 5,7,3',4'-Tetrahydroxyflavanone to 5,7-Dihydroxychromone and 1,2,4-Trihydroxybenzene 411
- Fluorescence
Spectrometric and Biological Data of 1,N⁶-Ethenoadenosine 3',5'-Cyclic Monophosphate 18
- Fluorescence Labeling
Labeling of Animal Cells with Fluorescent Dansyl Cerebroside 737
- Fluorescence Quenching
Light-Dependent Interactions of Phenazine Methosulfate with 3-(3,4-Dichlorophenyl)-1,1-dimethylurea-Poisoned Chloroplasts 722

- Fluorescent Probe**
The Use of 1-Anilino-8-naphthalene Sulfonate as Fluorescent Probe for Conformational Studies on Ribulose-1,5-bisphosphate Carboxylase 267
- Fluorescent Probes**
Spectral Properties of Fluorescent Dyes in Lecithin Vesicles. Probes for the Structure of Lipid Bilayer Membranes and for Membrane Potentials 575
- Folate Biosynthesis**
Nutritional Requirement for 4-Aminobenzoate Caused by Mutation of Dihydropteroate Synthetase 285
- Formica**
Volatile Substances from *Firmica rufa* L. and *F. polycytena* Först. (N) 748
- Free Radicals**
Formation of H-Addition Radicals in Adenine Derivatives 225
MO Calculations of Some Thymine Radicals at the INDO Level 371
- Freeze Fracture**
Rhodopsin Particles in the Photoreceptor Membrane of an Insect (N) 763
- Freeze Fracture Technique**
Particle Movement in Heliozoan Axopods Associated with Lateral Displacement of Highly Ordered Membrane Domains 190
- Function**
Studies on the Rectal Pads of the Honey Bee *Apis mellifica* (N) 489
- Furocoumarins**
Contribution of Monofunctional Adducts formed by Furocoumarins with DNA to the Inhibition of Nucleic Acids Synthesis (N) 207
- Galactans**
Galactans and Anti-Galactans from Invertebrates (N) 205
- Gene Transfer**
Loading of Human Red Blood Cells with DNA and RNA 149
- Germination**
Redundant Nucleotide-Sequences in DNA from Wheat (N) 104
- 2- β -D-Glucopyranosyloxy-4-*p*-hydroxy-benzoyl-oxy-3-methylenbutyronitrile**
A New Cyanogenic Glycoside from *Sorbaria arborea* (Rosaceae) 397
- Glycerol**
Fusion of Isolated Sarcoplasmic Reticulum Membranes 703
- Glycolipid Patches**
Labeling of Animal Cells with Fluorescent Dansyl Cerebroside 737
- Glycoproteins**
On the Role of the Cell Coat Glycoproteins in the Permeability of the Cell 700
- Gobio gobio**
A Special Attaching-Mechanism between the Cortex radiatus externus and the Follicle Epithelium of the Oocytes of *Gobio gobio* (N) 628
- Green Algae**
Effect of Substituted Pyridazinone Herbicides and of Difunone (EMD-IT 5914) on Carotenoid Biosynthesis in Green Algae 652
- Growth Curve**
Differences in the Lipid Distribution in Subcellular Fractions of Mouse Fibroblasts Derived from Logarithmic and Stationary Growth 179
- Growth Enhancement**
Growth Burst after Anaerobiosis: a "Stored-Growth" Effect in *Avena* Coleoptiles 312
- Growth Inhibition**
Effect of N-Methyl-N- β -chloroethyl-hydrazine-HCl on the Growth and Multiplication of Yeast Cells (*Saccharomyces cerevisiae*) 292
- Haemocyanin**
Small-Angle X-Ray and Sedimentation Studies on α -Haemocyanin *H. pomatia* (Halve Molecules) in Glycerol and Sucrose Solutions 238
- Heliozoan Axopod**
Particle Movement in Heliozoan Axopods Associated with Lateral Displacement of Highly Ordered Membrane Domains 190
- Helix pomatia**
A Dual Effect of Acetylcholine on Gastropod Smooth Muscle Preparations 730
- Hemolymph**
Occurrence of an Acetylcholinesterase (E.C. 3.1.1.7) in the Hemolymph of the Mussel *Mytilus edulis* (N) 333
- Hemolysis**
Loading of Human Red Blood Cells with DNA and RNA 149
- Herbicidal Activity**
Studies on Optically Active Pesticides, I. Synthesis and Herbicidal Activity of d(+) and l(-) Methyl-2-chloro-3-(4-chlorophenyl)-propionate 252
- Herbicide**
Effect of Substituted Pyridazinone Herbicides and of Difunone (EMD-IT 5914) on Carotenoid Biosynthesis in Green Algae 652
Enzymatic Formation of a *cis,cis*-Muconic Acid Derivative Using Pyrazon-Degrading Bacteria (N) 756
Enzymatic Formation of 4-Hydroxy-2-Oxovalerate Using Pyrazon-Degrading Bacteria (N) 757
- High-Energy Radiation**
Detachment of Segments from DNA Double Strands as Detected by Time Resolved Rayleigh Light Scattering (N) 484
- High-Pressure Liquid Chromatography (HPLC)**
An Isocratic High-Pressure Liquid Chromatographic Purification Method for Radioactively Labeled Deoxyribonucleoside Triphosphates 551
The Determination of the DNA Base Composition in 19 Species of Adriatic Sponges with High-Pressure Liquid Cation-Exchange Chromatography 554
- Honey Bee**
Studies on the Rectal Pads of the Honey Bee *Apis mellifica* (N) 489
- Hybridization**
Incorporation of T₄ Phage DNA into a Specific DNA Fraction from the Higher Plant *Matthiola incana* 558
- Hydrogen Transfer**
Chirality of the Hydrogen Transfer to NAD Catalyzed by *myo*-Inositol Dehydrogenase from *Klebsiella pneumoniae* (N) 624
- 3-Hydroxypyridine**
Proton Transfer Reactions of Dibasic Acids in Aqueous Solution: 3-Hydroxypyridine 219
- 20 β -Hydroxysteroid Dehydrogenase**
Properties of an Antiserum Against *Streptomyces hydrogenans* 20 β -Hydroxysteroid Dehydrogenase 288
Nucleoside Triphosphate Levels in *Streptomyces hydrogenans* during Growth and Induction of 20 β -Hydroxysteroid Dehydrogenase (N) 486

- Identification of 2-Hydroxy Carotenoids
Isolation of β,β -Caroten-2-ol from an Insect, *Cerura vinula* (Lepidoptera) 121
- Imidazolealkylamines
New and Uncommon Indole- and Imidazole-Alkylamines in Skins of Amphibians from Australia and Papua New Guinea 118
- Immobilization of Ligands
Polymer Linked N-(Hexyl)-5-azido-2-nitro-benzoic Acid Amide; a Photoreactive Resin for the Immobilization of Ligands 263
- Immunodiffusion
Properties of an Antiserum Against *Streptomyces hydrogenans* 20 β -Hydroxysteroid Dehydrogenase 288
- Immunoprecipitation
Properties of an Antiserum Against *Streptomyces hydrogenans* 20 β -Hydroxysteroid Dehydrogenase 288
- INDO
MO Calculations of Some Thymine Radicals at the INDO Level 371
- Indolealkylamines
New and Uncommon Indole- and Imidazole-Alkylamines in Skins of Amphibians from Australia and Papua New Guinea 118
- Infrared Dichroism
Electron-Beam Induced Conformational Changes in Polypeptide Layers: an Infrared Study (N) 746
- Inhibition
Reversal of Dibromothymoquinone Inhibition of Photosynthetic Electron Flow by Thiol Compounds (N) 103
Occurrence of an Acetylcholinesterase (E.C. 3.1.1.7) in the Haemolymph of the Mussel *Mytilus edulis* (N) 333
A Dual Effect of Acetylcholine on Gastropod Smooth Muscle Preparations 730
- Inhibitors
Artificial Energy Conservation in Bacterial Photosynthetic Electron Transport 152
Activity of Aminotransferases in the Blue Green Alga *Anacystis nidulans* 433
- Insect Carotenoids
Isolation of β,β -Caroten-2-ol from an Insect, *Cerura vinula* (Lepidoptera) 121
Identification of β,β -Caroten-2-ol and β,β -Carotene-2,2'-diol in the Stick Insect, *Carausius morosus* Br.; a Reinvestigation Study 646
- Insect Photoreceptor
Rhodopsin Particles in the Photoreceptor Membrane of an Insect (N) 763
- Insect Vision
Functional Characterization and Anatomical Identification of Motion Sensitive Neurons in the Lobula plate of the Blowfly *Calliphora erythrocephala* (N) 629
- Interactions
Intermolecular Interactions of Polypeptides and Lipids in the Thylakoid Membrane 436
- Intracellular Staining
Functional Characterization and Anatomical Identification of Motion Sensitive Neurons in the Lobula plate of the Blowfly *Calliphora erythrocephala* (N) 629
- Invertebrates
Galactans and Anti-Galactans from Invertebrate (N) 205
- Ion-Conditions
Initiation in a Polyribosome-Dependent Protein-Synthesizing Cell-Free System from *Saccharomyces* 169
- Ion Inhibition
Inhibition of Ca^{2+} and Zn^{2+} Uptake by Mn^{2+} in Excised Rice Roots 12
- Ionophores
Metabolic Products of Microorganisms, 151. Comparative Studies on Intracellular Potassium- and Sodium Concentrations of Wild-Type and a Macrotetrolide Negative Mutant of *Streptomyces griseus* 115
- Isocratic Separation of Nucleotides
An Isocratic High-Pressure Liquid Chromatographic Purification Method for Radioactively Labeled Deoxyribonucleoside Triphosphates 551
- Isoflavan
Isosativan: an Isoflavan Phytoalexin from *Trifolium hybridum* and other *Trifolium* Species (N) 331
- Isoflavanone
Induced Isoflavonoids from Fungus-Infected Stems of Pigeon Pea (*Cajanus cajan*) 504
- Isoflavone
Induced Isoflavonoids from Fungus-Infected Stems of Pigeon Pea (*Cajanus cajan*) 504
- Iso guanine Analogues
Tautomerism of Isoguanosine and Solvent-Induced Keto-Enol Equilibrium 361
- Iso guanosine
Tautomerism of Isoguanosine and Solvent-Induced Keto-Enol Equilibrium 361
- Iso pycnic Gradient Centrifugation
Heterogeneity in Chloroplasts of Siphonaceous Algae as Compared with Higher Plant Chloroplasts (N) 108
- Isozymes
Purification and Properties of Potato Phosphorylase Isozymes 424
- Juvenile Hormone
The Juvenile Hormones in Blood of Larvae and Adults of *Manduca sexta* (Joh.) 129
The Accessory Sex Glands as the Repository for Juvenile Hormone in Male *Cecropia* Moths (N) 199
- Kaempferole-3- (O-sinapoylsophoroside)-7-glucoside
Kaempferole-3- (O-sinapoylsophoroside)-7-glucoside, a New Flavonoid from *Brassica napus* L. (Cruciferae) (N) 622
- Ketones
Studies on Mammalian Pheromones, I. Ketones from the Pedal Gland of the Bontebok (*Damaliscus dorcas dorcas*) 21
- Kinetic Properties
Kinetic Analysis of the Catalytic Properties of Peptides in Ester Hydrolysis 675
- Kinetic Studies
On the Reaction of Methymmercuric Hydroxide with Methylcobalamin (N) 753
- Kinetics
On the Mechanism of the Acridine Orange Sensitized Photodynamic Inactivation of Lysozyme. I. Basic Kinetics 29
Kinetic Properties of Mg, Ca ATPase from Various *Escherichia coli* Mutants (N) 201
On the Mechanism of the Acridine Orange Sensitized Photodynamic Inactivation of Lysozyme. II. Kinetics in Presence of N-Acetylglucosamine 679
- ^{11}C -Labeling in Solid State
Direct Labeling of Amino Acids by Means of Hot ^{11}C -Atoms 377

- Lambda-Chains of Immunoglobulins**
 Immunoglobulin Diversity: Correlation of Non-Allelic Antigenic Markers with the Basic Sequences of the Variable Region of Human Lambda Chains (N) 758
- Lecithin Vesicles**
 Spectral Properties of Fluorescent Dyes in Lecithin Vesicles. Probes for the Structure of Lipid Bilayer Membranes and for Membrane Potentials 575
- Leguminosae**
 Isosativan: an Isoflavan Phytoalexin from *Trifolium hybridum* and other *Trifolium* Species (N) 331
 Induced Isoflavonoids from Fungus-Infected Stems of Pigeon Pea (*Cajanus cajan*) 504
- Lichen Pigments**
 Novel Anthraquinone Pigments from *Solorina crocea* (N) 197
- Light Scattering**
 Detachment of Segments from DNA Double Strands as Detected by Time Resolved Rayleigh Light Scattering (N) 484
- Light-Quantum Noise**
 The Dorsal Compound Eye of Simuliid Flies: An Eye Specialized for the Detection of Small, Rapidly Moving Objects (N) 764
- Lipid Distribution**
 Differences in the Lipid Distribution in Subcellular Fractions of Mouse Fibroblasts Derived from Logarithmic and Stationary Growth 179
- Lipid Vesicles**
 Photo-Induced Electron Transfer in Chlorophyll Containing Liposomes 163
- Lipid-Water Interface**
 Photosynthetic Electron Carriers at a Heptane-Water Interface 569
- Lipids**
 Intermolecular Interactions of Polypeptides and Lipids in the Thylakoid Membrane 436
 Influence of DCMU on the Formation of Lipids and Fatty Acids, and on the Ultrastructure of *Euglena gracilis* 687
- Liver**
 Variations in Melanin and Riboflavin Content of Amphibian Liver under the Influence of Reserpine and Amphetamine 98
- Liverwort (Hepaticae)**
 Sesquiterpene Hydrocarbons of the Liverwort, *Dumortiera hirsuta* 401
- Lysozyme**
 On the Mechanism of the Acridine Orange Sensitized Photodynamic Inactivation of Lysozyme. I. Basic Kinetics 29
 On the Mechanism of the Acridine Orange Sensitized Photodynamic Inactivation of Lysozyme. II. Kinetics in Presence of N-Acetylglucosamine 679
- Male Accessory Sex Glands**
 The Accessory Sex Glands as the Repository for Juvenile Hormone in Male Cecropia Moths (N) 199
- Manduca sexta**
 The Juvenile Hormones in Blood of Larvae and Adults of *Manduca sexta* (Joh.) 129
- Marsh Deer**
 Chemical Composition of the Nasal Gland Secretion from the Marsh Deer *Odocoileus (Dorcelaphus) dichotomus* (Illiger) 496
- Mass Spectra**
 Sesquiterpene Hydrocarbons of the Liverwort, *Dumortiera hirsuta* 401
- Mass Spectrometry**
 Studies on Mammalian Pheromones, I. Ketones from the Pedal Gland of the Bontebok (*Damaliscus dorcas dorcas*) 21
- Membrane**
 Transduction of Turgor Pressure by Cell Membrane Compression 461
- Membrane-Bound Enzyme Complexes**
 Formation of Benzoic Acid and *p*-Hydroxybenzoic Acid in the Blue Green Alga *Anacystis nidulans*: A Thylakoid-Bound Enzyme Complex Analogous to the Chloroplast System 693
- Membrane Fluidity**
 Particle Movement in Heliozoan Axopods Associated with Lateral Displacement of Highly Ordered Membrane Domains 190
- Membrane Fusion**
 Fusion of Isolated Sarcoplasmic Reticulum Membranes 703
 The Effect of Ethylene Glycol and DMSO on Fusion of Isolated Sarcoplasmic Reticulum Membranes 708
- Membrane Potentials**
 Spectral Properties of Fluorescent Dyes in Lecithin Vesicles. Probes for the Structure of Lipid Bilayer Membranes and for Membrane Potentials 575
- Melanin**
 Variations in Melanin and Riboflavin Content of Amphibian Liver under the Influence of Reserpine and Amphetamine 98
- Metabolism**
 Effect of N-Methyl-N- β -chloroethylhydrazine and Its Benzaldehydhydrazone on RNA- and Protein Synthesis as Soon as Metabolism of Synchronously Growing Yeast Cells (*Saccharomyces cerevisiae*) 298
- Methionine**
 Direct Labeling of Amino Acids by Means of Hot ^{14}C -Atoms 377
- Methotrexate**
 Organ Specific Application of Drugs by Means of Cellular Capsule Systems 732
- Methylation**
 Methylation of Transfer RNA in Plant Cells (N) 209
 Methylation of 6,7-Dihydroxycoumarin
 6,7-Dihydroxycoumarin (Aesculetin) as a Substrate for Catechol-O-methyltransferase 280
- Methylcorrinoids**
 Co α /Co β -Isomerism of Corrinoids. Partial Synthesis and *Escherichia coli* Activity of Further Isomer Pairs of the (Co-methyl)-Corrinoids 255
- 5-Methylcytosine Content**
 The Determination of the DNA Base Composition in 19 Species of Adriatic Sponges with High-Pressure Liquid Cation-Exchange Chromatography 554
- 9-Methyl Adenine**
 Formation of H-Addition Radicals in Adenine Derivatives 225
- Methyl-2-chloro-3-(4-chlorophenyl)-propionate**
 Studies on Optically Active Pesticides. I. Synthesis and Herbicidal Activity of d(+) and l(-) Methyl-2-chloro-3-(4-chlorophenyl)-propionate 252
- Methyl Transfer**
 On the Reaction of Methylmercuric Hydroxide with Methylcobalamin (N) 753
- Microbial Degradation**
 Enzymatic Formation of a *cis,cis*-Muconic Acid Derivative Using Pyrazon-Degrading Bacteria (N) 756
 Enzymatic Formation of 4-Hydroxy-2-Oxovalerate Using Pyrazon-Degrading Bacterial (N) 757

- Microcystis**
 β -Cyclocitral and Alkanes in *Microcystis* (Cyanophyceae) 491
- Micronutrient**
 Differential Migration of Foliar Applied Zinc in Maize Plants (N) 195
- Miller Spreading**
 Ultrastructure of Gene Transcription in Spermatoocytes of *Trichosia pubescens* Morgante, 1969 (Diptera: Sciaridae) 186
- Mitochondria**
 Characterization of Mitochondrial DNA from the Pika (*Ochotona rufescens rufescens*) 145
 On the Cross-Section Structure of the Mitochondrial Cristae-Membrane as Revealed by X-Ray Diffraction 612
 Influence of DCMU on the Formation of Lipids and Fatty Acids, and on the Ultrastructure of *Euglena gracilis* 687
- MO**
 MO Calculations of Some Thymine Radicals at the INDO Level 371
- Mössbauer Spectroscopy**
 Studies on the Undeca-peptide of Ferricytochrome c Using ESR, Mössbauer and Visible Spectroscopies 232
- Molecular Weight**
 Molecular Size of the Diapause Hormone of the Silkworm *Bombyx mori* 132
 Properties of an Antiserum Against *Streptomyces hydrogenans* 20 β -Hydroxysteroid Dehydrogenase 288
- Molluscan Embryo**
 Sulfated Macromolecules in Early Embryos of *Limnaea* (N) 488
- Monoadducts**
 Contribution of Monofunctional Adducts formed by Furocoumarins with DNA to the Inhibition of Nucleic Acids Synthesis (N) 207
- Monocrystal**
 Formation of H-Addition Radicals in Adenine Derivatives 225
- Monolayers**
 Photosynthetic Electron Carriers at a Heptane-Water Interface 569
- Monolayers Photosynthesis**
 Mixed Monomolecular Films of Chlorophyll and Cytochromes 44
- Monoterpene**
 β -Cyclocitral and Alkanes in *Microcystis* (Cyanophyceae) 491
- Motion Detection**
 Functional Characterization and Anatomical Identification of Motion Sensitive Neurons in the Lobula plate of the Blowfly *Calliphora erythrocephala* (N) 629
- Mouse Fibroblasts**
 Differences in the Lipid Distribution in Subcellular Fractions of Mouse Fibroblasts Derived from Logarithmic and Stationary Growth 179
- Muconic Acid Derivative**
 Enzymatic Formation of a *cis,cis*-Muconic Acid Derivative Using Pyrazon-Degrading Bacteria (N) 756
- Multicomponent System**
 Small-Angle X-Ray and Sedimentation Studies on α -Haemocyanin *H. pomatia* (Halve Molecules) in Glycerol and Sucrose Solutions 238
- Mutants**
 Kinetic Properties of Mg, Ca ATPase from Various *Escherichia coli* Mutants (N) 201
- myo-Inositol Dehydrogenase**
 Chirality of the Hydrogen Transfer to NAD Catalyzed by *myo*-Inositol Dehydrogenase from *Klebsiella pneumoniae* (N) 624
- Mytilus edulis**
 Occurrence of an Acetylcholinesterase (E.C. 3.1.1.7) in the Haemolymph of the Mussel *Mytilus edulis* (N) 333
- Myxoviruses**
 Labeling of Animal Cells with Fluorescent Dansyl Cerebroside 737
- Na⁺-K⁺-ATPase**
 Evidence for the Involvement of the Na⁺-K⁺-ATPase in the Mechanism of Axonal Protein and Nucleoside Transport 683
- NAD⁺-Photoreduction**
 Coupling Factor Adenosine-5'-triphosphatase from *Rhodospirillum rubrum*: A Simple and Rapid Procedure for Its Purification 272
- Nasal Gland**
 Chemical Composition of the Nasal Gland Secretion from the Marsh Deer *Odocoileus (Dorcelpus) dichotomus* (Illiger) 496
- Neuronal Learning Theories**
 Pyramidal Cells with Different Densities of Dendritic Spines in the Cortex of the Mouse 319
- Nitrite Reduction**
 The Influence of Oxygen on Nitrite Reduction in a Reconstituted System 565
- Nitrosyl ⁵⁷Fe-Haemoglobin**
 Conformation-Controlled Trans-Effect of the Proximal Histidine in Haemoglobins. An Electron Spin Resonance Study of Monomeric Nitrosyl-⁵⁷Fe-Haemoglobins 524
- Nitrosyl Haemoglobin Kansas**
 Non-Equivalence and Inverse Allosteric Response of the α and β Chains in Haemoglobins. An Electron Spin Resonance Study of NO-Ligated Hb Kansas 664
- Nitroxides**
 Synthesis of Purine and Pyrimidine Substituted Nitroxides (N) 101
- Noemacheilus barbatulus**
 The Yolk Nucleus in Young Oocytes of *Noemacheilus barbatulus* (L.) (Teleostei, Cobitidae) (N) 761
- Non-Allelic Antigenic Markers**
 Immunoglobulin Diversity: Correlation of Non-Allelic Antigenic Markers with the Basic Sequences of the Variable Region of Human Lambda Chains (N) 758
- Non-Equivalence and Inverse Allosteric Response**
 Non-Equivalence and Inverse Allosteric Response of the α and β Chains in Haemoglobins. An Electron Spin Resonance Study of NO-Ligated Hb Kansas 664
- Nuclei**
 Size Comparison of Poly(A)-RNA from Polysomes and from Nuclei of the Yeast *Saccharomyces cerevisiae* 85
- Nucleoside Triphosphates**
 Nucleoside Triphosphate Levels in *Streptomyces hydrogenans* during Growth and Induction of 20 β -Hydroxysteroid Dehydrogenase (N) 486
- Nucleus**
 Distribution of [³H]Thiopyronine in Yeast Cells (*Saccharomyces cerevisiae*) (N) 481

- Odocoileus dichotomus*
Chemical Composition of the Nasal Gland Secretion from the Marsh Deer *Odocoileus (Dorcaphus) dichotomus* (Illiger) 496
- Olfactory Communication
Studies on Mammalian Pheromones, I. Ketones from the Pedal Gland of the Bontebok (*Damaliscus dorcas dorcas*) 21
- O-Methylation
O-Methylation of Epinephrine, 3,4-Dihydroxybenzoic Acid and 6,7-Dihydroxycoumarin in Yeasts 509
- Oocytes
A Special Attaching-Mechanism between the Cortex radiatus externus and the Follicle Epithelium of the Oocytes of *Gobio gobio* (N) 628
The Yolk Nucleus in Young Oocytes of *Neomacheilus barbatulus* (L.) (Teleostei, Cobitidae) (N) 761
- Optical Properties
A Cell for Simultaneous Measurements of Optical and Electrical Properties of Black Lipid Membranes 40
- Organomercurials
On the Reaction of Methylmercuric Hydroxide with Methylcobalamin (N) 753
- Organophosphates
Structure-Reactivity Relationships and Delayed Neurotoxicity of Organophosphorus Compounds (N) 479
Reactivity and Delayed Neurotoxicity of Organophosphates (N) 750
- Organspecificity
Organ Specific Application of Drugs by Means of Cellular Capsule Systems 732
- Origin of Drug
Determination of the Origin of Drugs by Measuring Natural Isotope Contents: D/H and $^{13}\text{C}/^{12}\text{C}$ Ratios of Some Diazepam Samples 111
- Osmoregulation
Transduction of Turgor Pressure by Cell Membrane Compression 461
- Oxygen
The Influence of Oxygen on Nitrite Reduction in a Reconstituted System 565

Indirect EPR Evidence for the Production of Singlet Oxygen in the Photosensitization of Nucleic Acid Constituents by Proflavine (N) 203
- Phase Transitions
Spectral Properties of Fluorescent Dyes in Lecithin Vesicles 575
- Phenylpyruvic Acid
Studies on Phenylpyruvic Acid, I. Keto-Enol Tautomerism 5
Studies on Phenylpyruvic Acid, II. Keto-Enol Equilibrium in Water-Dimethylsulphoxide Mixtures 641
- Pheromones
Studies on Mammalian Pheromones, I. Ketones from the Pedal Gland of the Bontebok (*Damaliscus dorcas dorcas*) 21
Sex Pheromone of *Eupoecilia ambiguella*: cis-9-Dodecenyl Acetate as a Major Component 499
Volatile Substances from *Formica rufa* L. and *F. polyctena* Först. (N) 748
- Phosphorylase
Purification and Properties of Potato Phosphorylase Isozymes 424
- Photoreactive Agarose Derivative
Polymer Linked N-(Hexyl)-5-azido-2-nitro-benzoic Acid Amide; a Photoreactive Resin for the Immobilization of Ligands 263
- Photoactivatable Bifunctional Reagent
Synthesis of 5-Azido-3-nitro- ω -bromo-acetophenone — a Photochemically Active Bifunctional Reagent for the Cross-Linking of Biopolymers 389
- Photobiology
Photosynthetic Electron Carriers at a Heptane-Water Interface 569
- Photochemical and Heat Transformation
Unusual Photochemical Transformation of 5-Ethylorotate to 5-Ethylidenehydroorotate 514
- Photodynamic Effect
On the Mechanism of the Acridine Orange Sensitized Photodynamic Inactivation of Lysozyme. I. Basic Kinetics 29
Distribution of $[^3\text{H}]$ Thiopyronine in Yeast Cells (*Saccharomyces cerevisiae*) (N) 481
On the Mechanism of the Acridine Orange Sensitized Photodynamic Inactivation of Lysozyme. II. Kinetics in Presence of N-Acetylglucosamine 679
- Photophosphorylation
Coupling Factor Adenosine-5'-triphosphatase from *Rhodospirillum rubrum*: A Simple and Rapid Procedure for Its Purification 272
On the Reconstitution of Photophosphorylation in CF_1 -Extracted Chloroplasts 445

- Photoreceptor Cells
Light and Dark Adaptation of Crayfish Visual Cells Depending on Extracellular Calcium Concentration 324
- Photosensitization
Contribution of Monofunctional Adducts formed by Furocoumarins with DNA to the Inhibition of Nucleic Acids Synthesis (N) 207
- Photosynthetic Activities
Stabilization of the Photosynthetic Activities of Isolated Spinach Chloroplasts during Prolonged Ageing 452
- Photosynthetic Bacteria
Coupling Factor Adenosine-5'-triphosphatase from *Rhodospirillum rubrum*: A Simple and Rapid Procedure for Its Purification 272
- Photosynthetic Electron Transport
Artificial Energy Conservation in Bacterial Photosynthetic Electron Transport 152
- Photosynthetic Reduction
Correlation of the Photosynthetic Reduction of *p*-(Diazonium)-Benzenesulfonic Acid with the Increased Binding of the Probe to the Thylakoid Membrane 48
- Photosynthesis
The Effect of Deoxycholate-Treatment to the Photoreactions of the Active Pigments in Photosynthesis
Photoreactions of Cytochrome b_6 and Cytochrome f in Chloroplast Photosystem I Fragments 68
The Chlorophyll *a*II Reaction in Trypsin-Treated Spinach Chloroplasts in the Presence of Potassium Ferricyanide 78
Reversal of Dibromothymoquinone Inhibition of Photosynthetic Electron Flow by Thiol Compounds (N) 103
Photosynthetic Electron Carriers at a Heptane-Water Interface 569
Indirect Evidence for a Very Fast Recovery Kinetics of Chlorophyll-*a*II in Spinach Chloroplasts 712
- Photosystem I
Photoreactions of Cytochrome b_6 and Cytochrome f in Chloroplast Photosystem I Fragments 68
- Photosystem II
The Chlorophyll *a*II Reaction in Trypsin-Treated Spinach Chloroplasts in the Presence of Potassium Ferricyanide 78
Inhibition of Electron Transport on the Oxygen-Evolving Side of Photosystem II by an Antiserum to a Polypeptide Isolated from the Thylakoid Membrane 304
Effect of an Antiserum to a Thylakoid Membrane Polypeptide on the Primary Photoreaction of Photosystem II 594
Indirect Evidence for a Very Fast Recovery Kinetics of Chlorophyll-*a*II in Spinach Chloroplasts 712
- Physically Dissolved Oxygen
The Distribution Space of Physically Dissolved Oxygen in Aqueous Solutions of Organic Substances 339
- Phytoalexin
Isosativan: an Isoflavan Phytoalexin from *Trifolium hybridum* and other *Trifolium* Species (N) 331
Induced Isoflavonoids from Fungus-Infected Stems of Pigeon Pea *Cajanus cajan* 504
- Phytochrome
Studies on Plant Bile Pigments: Characterization of a Model for the Phytochrome P_r Chromophore 413
- Pika
Characterization of Mitochondrial DNA from the Pika (*Ochotona rufescens rufescens*) 145
- Pisum sativum*
The Influence of the Sample Size upon the Result of an Analysis of Variance in Long-Stemmed and Short-Stemmed Mutants of *Pisum sativum* (N) 216
- Plant Seedlings
Incorporation of T_4 Phage DNA into a Specific DNA Fraction from the Higher Plant *Matthiola incana* 558
- Plant Tumor
Contact of *Agrobacterium* with Wound Cells as a Prerequisite of Tumor Induction 317
- Plasma Membrane
Labeling of Animal Cells with Fluorescent Dansyl Cerebroside 737
- Polarizing Microscopy
Fusion of Isolated Sarcoplasmic Reticulum Membranes 703
- Poly(A)-RNA
Size Comparison of Poly(A)-RNA from Polysomes and from Nuclei of the Yeast *Saccharomyces cerevisiae* 85
- Polyoma Virus
Failure of Inhibition of Polyoma Virus Replication by Distamycin A (N) 214
- Polyoma Virus Transformed Cells
Estimation by Reassociation Assay of Viral DNA Copies in Three Polyoma Virus Transformed Cell Lines (N) 212
- Polypeptide
Inhibition of Electron Transport on the Oxygen-Evolving Side of Photosystem II by an Antiserum to a Polypeptide Isolated from the Thylakoid Membrane 304
Intermolecular Interactions of Polypeptides and Lipids in the Thylakoid Membrane 436
Effect of an Antiserum to a Thylakoid Membrane Polypeptide on the Primary Photoreaction of Photosystem II 594
- Polypeptide Monolayers
Electron-Beam Induced Conformational Changes in Polypeptide Layers: an Infrared Study (N) 746
- Polyribosomes
Initiation in a Polyribosome-Dependent Protein-Synthesizing Cell-Free System from *Saccharomyces* 169
- Polysomes
Size Comparison of Poly(A)-RNA from Polysomes and from Nuclei of the Yeast *Saccharomyces cerevisiae* 85
- Polysorbate
Physiological Effects of Sucrose Substitutes and Artificial Sweeteners on Growth Pattern and Acid Production of Glucose-Grown *Streptococcus mutants* Strains *in vitro* 245
- Porphobilinogenase
Enzymic Capacities for Chlorophyll Biosynthesis. Activation and *de novo* Synthesis of Enzymes 55
- Potassium Sodium
Metabolic Products of Microorganisms, 151. Comparative Studies on Intracellular Potassium- and Sodium Concentrations of Wild-Type and a Macroretrolide Negative Mutant of *Streptomyces griseus* 115
- Potato
Purification and Properties of Potato Phosphorylase Isozymes 424

- Precipitation of Lipoproteins
 Reversible Transformation of Precipitated and Nonprecipitated Lipoproteins Recombined from Proteins and Lipids of Erythrocyte Membranes . . . 174
- Pressure
 Transduction of Turgor Pressure by Cell Membrane Compression 461
- Primary Reactions
 Indirect Evidence for a Very Fast Recovery Kinetics of Chlorophyll-a11 in Spinach Chloroplasts . . . 712
- Proflavine
 Indirect EPR Evidence for the Production of Singlet Oxygen in the Photosensitization of Nucleic Acid Constituents by Proflavine (N) 203
- Properties
 Purification and Properties of Potato Phosphorylase Isozymes 424
- Protein Kinase
 Spectrometric and Biological Data of 1,N⁶-Ethenoadenosine 3',5'-Cyclic Monophosphate . . . 18
- Protein-Lipid Recombination
 Reversible Transformation of Precipitated and Nonprecipitated Lipoproteins Recombined from Proteins and Lipids of Erythrocyte Membranes . . . 174
- Protein Synthesis
 Effect of N-Methyl-N- β -chloroethylhydrazine and Its Benzaldehydhydrazone on RNA- and Protein Synthesis as Soon as Metabolism of Synchronously Growing Yeast Cells (*Saccharomyces cerevisiae*) . . . 298
- Protochlorophyllide
 Enzymic Capacities for Chlorophyll Biosynthesis. Activation and *de novo* Synthesis of Enzymes . . . 55
- Proton Transfer
 Proton Transfer Reactions of Dibasic Acids in Aqueous Solution: 3-Hydroxypyridine 219
¹H and ¹³C NMR Study of Proton Transfer in Azoles. Mechanism of Proton Transfer in Pyrazole in Solutions Containing bis-(Acetylacetonate)Nickel (II) 353
- Pterocarpan
 Isosativan: an Isoflavan Phytoalexin from *Trifolium hybridum* and other *Trifolium* Species (N) . . . 331
- Purification
 Purification and Properties of Potato Phosphorylase Isozymes 424
- Purines
 Synthesis of Purine and Pyrimidine Substituted Nitroxides (N) 101
- Pyramidal Cells
 Pyramidal Cells with Different Densities of Dendritic Spines in the Cortex of the Mouse . . . 319
- Pyrazole
¹H and ¹³C NMR Study of Proton Transfer in Azoles. Mechanism of Proton Transfer in Pyrazole in Solutions Containing bis-(Acetylacetonato)Nickel (II) 353
- Pyrazon
 Enzymatic Formation of a *cis,cis*-Muconic Acid Derivative Using Pyrazon-Degrading Bacteria (N) . . . 756
 Enzymatic Formation of 4-Hydroxy-2-Oxovalerate Using Pyrazon-Degrading Bacteria (N) 757
- Pyridazinone
 Effect of Substituted Pyridazinone Herbicides and of Difunone (EMD-IT 5914) on Carotenoid Biosynthesis in Green Algae 652
- Pyridine
 Ribose Conformations of 8-Azapurine Nucleosides in Solution 135
- Pyrimidines
 Synthesis of Purine and Pyrimidine Substituted Nitroxides (N) 101
- Pyrophosphate
 Regulation of Intracellular Pyrophosphatase-Activity and Conservation of the Phosphoanhydride-Energy of Inorganic Pyrophosphate in Microbial Metabolism 544
- Pyrophosphate-Dependent Transphosphorylases
 Regulation of Intracellular Pyrophosphatase-Activity and Conservation of the Phosphoanhydride-Energy of Inorganic Pyrophosphate in Microbial Metabolism 544
- Pyrophosphatases
 Regulation of Intracellular Pyrophosphatase-Activity and Conservation of the Phosphoanhydride-Energy of Inorganic Pyrophosphate in Microbial Metabolism 544
- Quantitative Histology
 Pyramidal Cells with Different Densities of Dendritic Spines in the Cortex of the Mouse 319
- Radiation Damage
 Electron-Beam Induced Conformational Changes in Polypeptide Layers: an Infrared Study (N) . . . 746
- Radiation Induced Mutants
 The Influence of the Sample Size upon the Result of an Analysis of Variance in Long-Stemmed and Short-Stemmed Mutants of *Pisum sativum* (N) . . . 216
- Reassociation Kinetics
 Estimation by Reassociation Assay of Viral DNA Copies in Three Polyoma Virus Transformed Cell Lines (N) 212
- Rectal Pads
 Studies on the Rectal Pads of the Honey Bee *Apis mellifica* (N) 489
- Recombination Experiments
 A Cell for Simultaneous Measurements of Optical and Electrical Properties of Black Lipid Membranes 40
- Red Blood Cells
 Organ Specific Application of Drugs by Means of Cellular Capsule Systems 732
- Redox Reactions of Cytochromes
 Photoreactions of Cytochrome b₆ and Cytochrome f in Chloroplast Photosystem I Fragments 68
- Redundancy
 Redundant Nucleotide-Sequences in DNA from Wheat (N) 104
- Relaxation Kinetics
 Proton Transfer Reactions of Dibasic Acids in Aqueous Solution: 3-Hydroxypyridine 219
- Reserpine
 Variations in Melanin and Riboflavin Content of Amphibian Liver under the Influence of Reserpine and Amphetamine 98
- retro* Rearrangement
 Identification of β,β -Caroten-2-ol and β,β -Carotene-2,2'-diol in the Stick Insect, *Carausius morosus* Br.; a Reinvestigation Study 646
- Rhodopsin
 Rhodopsin Particles in the Photoreceptor Membrane of an Insect (N) 763
- Riboflavin
 Variations in Melanin and Riboflavin Content of Amphibian Liver under the Influence of Reserpine and Amphetamine 98

- Ribonucleoprotein Particles**
 On the Protein Composition of Ribonucleoprotein Particles before and after Fertilization of Sea Urchin Eggs (*Echinus esculentus*) 464
- Ribulose-1,5-bisphosphate Carboxylase**
 The Use of 1-Anilono-8-naphthalene Sulfonate as Fluorescent Probe for Conformational Studies on Ribulose-1,5-bisphosphate Carboxylase 267
 [Ring B-U-¹⁴C]-5,7,3',4'-tetrahydroxyflavanone-7-O-glucoside
 Enzymatic Degradation of [Ring B-U-¹⁴C]-5,7,3',4'-tetrahydroxyflavanone-7-O-glucoside to 5,7-Dihydroxychromone-7-O-glucose and [Ring-U-¹⁴C]-1,2,4-trihydroxybenzene with a Cell Free System from *Mentha longifolia* 408
- RNA-Polymerase Binding**
 Chromosomal Structure of *Pseudomonas testosteroni*. II. Activity of the Endogenous RNA-Polymerase 601
- RNA Synthesis**
 Effect of N-Methyl-N- β -chloroethylhydrazine and Its Benzaldehydhydrazone on RNA- and Protein Synthesis as Soon as Methabolism of Synchronously Growing Yeast Cells (*Saccharomyces cerevisiae*) 298
- RNA Transcription**
 Ultrastructure of Gene Transcription in Spermatocytes of *Trichosia pubescens* Morgante, 1969 (Diptera: Sciaridae) 186
- Rosa**
 Chromoplasts in *Rosa rugosa*: Development and Chemical Characterization of Tubular Elements 456
- Rosaceae-Spiraeoidea**
 A New Cyanogenic Glycoside from *Sorbaria arborea* (Rosaceae) 397
- Rous Sarcoma Virus**
 Expression of Virus Specific Morphological Cell Transformation Induced in Enucleated Cells (N) 766
- Saccharin**
 Physiological Effects of Sucrose Substitutes and Artificial Sweeteners on Growth Pattern and Acid Production of Glucose-Grown *Streptococcus mutans* Strains *in vitro* 245
- Saltatory Movement**
 Particle Movement in Heliozoan Axopods Associated with Lateral Displacement of Highly Ordered Membrane Domains 190
- Sample Size**
 The Influence of the Sample Size upon the Result of an Analysis of Variance in Long-Stemmed and Short-Stemmed Mutants of *Pisum sativum* (N) 216
- Sarcoplasmic Reticulum**
 Fusion of Isolated Sarcoplasmic Reticulum Membranes 703
 The Effect of Ethylene Glycol and DMSO on Fusion of Isolated Sarcoplasmic Reticulum Membranes 708
- Sciaridae Spermatocytes**
 Ultrastructure of Gene Transcription in Spermatocytes of *Trichosia pubescens* Morgante, 1969 (Diptera: Sciaridae) 186
- Scrophulariaceae**
 Further Anthraquinones from *Digitalis schischkinii* 403
- Sedimentation**
 Small-Angle X-Ray and Sedimentation Studies on α -Haemocyanin *H. pomatia* (Halve Molecules) in Glycerol and Sucrose Solutions 238
- Seminal Plasma**
 Different Deoxyribonuclease-Activities in Bull Seminal Plasma (N) 626
- Sesquiterpene Hydrocarbons**
 Sesquiterpene Hydrocarbons of the Liverwort, *Dumortiera hirsuta* 401
- Silkworm**
 Molecular Size of the Diapause Hormone of the Silkworm *Bombyx mori* 132
- Simultaneous Measurements**
 A Cell for Simultaneous Measurements of Optical and Electrical Properties of Black Lipid Membranes 40
- Singlet Oxygen**
 On the Mechanism of the Acridine Orange Sensitized Photodynamic Inactivation of Lysozyme. I. Basic Kinetics 29
 Indirect EPR Evidence for the Production of Singlet Oxygen in the Photosensitization of Nucleic Acid Constituents by Proflavine (N) 203
 On the Mechanism of the Acridine Organe Sensitized Photodynamic Inactivation of Lysozyme. II. Kinetics in Presence of N-Acetylglucosamine 679
- Small-Angle X-Ray Scattering**
 Small-Angle X-Ray and Sedimentation Studies on α -Haemocyanin *H. pomatia* (Halve Molecules) in Glycerol and Sucrose Solutions 238
- Small-Angle-X-Ray-Scattering**
 A Small-Angle-Scattering Camera of Medium Resolution without Slithigh-Error 635
- Smooth Muscle**
 A Dual Effect of Acetylcholine on Gastropod Smooth Muscle Preparations 730
- Snails**
 Galactans and Anti-Galactans from Invertebrates (N) 205
- Solorina crocea**
 Novel Anthraquinone Pigments from *Solorina crocea* (N) 197
- Solubilization**
 Variable Composition of Cytochrome b₆-f Particles 606
- Solvent Polarity**
 Tautomerism of Isoguanosine and Solvent-Induced Keto-Enol Equilibrium 361
- Sorbaria arborea**
 A New Cyanogenic Glycoside from *Sorbaria arborea* (Rosaceae) 397
- Specificity**
 Occurrence of an Acetylcholinesterase (E.C. 3.1.1.7) in the Haemolymph of the Mussel *Mytilus edulis* (N) 333
- Spectra**
 Spectrometric and Biological Data of 1,N⁶-Ethenoadenosine 3',5'-Cyclic Monophosphate 18
- Spin-Labeling**
 Reversible Transformation of Precipitated and Nonprecipitated Lipoproteins Recombined from Proteins and Lipids of Erythrocyte Membranes 174
- Spin Labels**
 Synthesis and Electron Spin Resonance Study of Spin-Labelled Compounds Related to Tumour-Growth Inhibitory Nitroarylaziridines (N) 328
- Spinach**
 Ultrastructural Changes in *in vitro* Ageing Spinach Chloroplasts 82
- Sponge**
 The Determination of the DNA Base Composition in 19 Species of Adriatic Sponges with High-Pressure Liquid Cation-Exchange Chromatography 554
- Stabilization**
 Stabilization of the Photosynthetic Activities of Isolated Spinach Chloroplasts during Prolonged Ageing 452

- Stizolobic Acid
Further Studies on the Biosynthesis of Stizolobinic Acid and Stizolobic Acid in the Etiolated Seedlings of *Stizolobium hassjoo* 15
- Stizolobinic Acid
Further Studies on the Biosynthesis of Stizolobinic Acid and Stizolobic Acid in the Etiolated Seedlings of *Stizolobium hassjoo* 15
- Stizolobium hassjoo*
Further Studies on the Biosynthesis of Stizolobinic Acid and Stizolobic Acid in the Etiolated Seedlings of *Stizolobium hassjoo* 15
- Storage Conditions
Ultrastructural Changes in *in vitro* Ageing Spinach Chloroplasts 82
- Streptococcal Proteinase
Synthesis of a Fragment of the Active Center of the Streptococcal Proteinase (EC 3.4.22.10), IX 418
- Streptococcus mutans*
Physiological Effects of Sucrose Substitutes and Artificial Sweeteners on Growth Pattern and Acid Production of Glucose-Grown *Streptococcus mutans* Strains *in vitro* 245
- Streptomyces hydrogenans*
Properties of an Antiserum Against *Streptomyces hydrogenans* 20 β -Hydroxysteroid Dehydrogenase 288
Nucleoside Triphosphate Levels in *Streptomyces hydrogenans* during Growth and Induction of 20 β -Hydroxysteroid Dehydrogenase (N) 486
- Structure of α -Chitin
X-Ray Diffraction Studies on the Structure of α -Chitin 383
- Structure of Detergents
Variable Composition of Cytochrome b_6 -f Particles 606
- Structure-Reactivity-Relationships
Structure-Reactivity Relationships and Delayed Neurotoxicity of Organophosphorus Compounds (N) 479
Reactivity and Delayed Neurotoxicity of Organophosphates (N) 750
- Subcellular Fractions
Differences in the Lipid Distribution in Subcellular Fractions of Mouse Fibroblasts Derived from Logarithmic and Stationary Growth 179
- Subgroups of Lambda Chains
Immunoglobulin Diversity: Correlation of Non-Allelic Antigenic Markers with the Basic Sequences of the Variable Region of Human Lambda Chains (N) 758
- Sulfated Acid Mucopolysaccharide
Sulfated Macromolecules in Early Embryos of *Limnaea* (N) 488
- Sulfated Protein
Sulfated Macromolecules in Early Embryos of *Limnaea* (N) 488
- Superposition Eye
The Dorsal Eye of *Cloëon dipterum* (Ephemeroptera) (A Light- and Electronmicroscopical Study) (N) 335
- Sweeteners
Physiological Effects of Sucrose Substitutes and Artificial Sweeteners on Growth Pattern and Acid Production of Glucose-Grown *Streptococcus mutans* Strains *in vitro* 245
- Symbiosis
"Synthetical" *Aiptasia mutabilis* RAPP (Coelenterata) (N) 215
- Tautomeric Equilibrium
Tautomerism of Isoguanosine and Solvent-Induced Keto-Enol Equilibrium 361
- Tautomerism
Studies on Phenylpyruvic Acid. I. Keto-Enol Tautomerism 5
Tautomerism of Isoguanosine and Solvent-Induced Keto-Enol Equilibrium 361
- Tautomerism and Analysis
Studies on Phenylpyruvic Acid, II. Keto-Enol Equilibrium in Water-Dimethylsulphoxide Mixtures 641
- Temperature-Jump-Method
Proton Transfer Reactions of Dibasic Acids in Aqueous Solution: 3-Hydroxypyridine 219
- Temperature Sensitive Mutants
Expression of Virus Specific Morphological Cell Transformation Induced in Enucleated Cells (N) 766
- Terpenes
Volatile Substances from *Formica rufa* L. and *F. polyctena* Först. (N) 748
- Thallium-III-trifluoroacetate
Thallium-III-trifluoroacetate Catalyzed Degradation of 5,7,3',4'-Tetrahydroxyflavanone to 5,7-Dihydroxychromone and 1,2,4-Trihydroxybenzene 411
- Thiol Compounds
Reversal of Dibromothymoquinone Inhibition of Photosynthetic Electron Flow by Thiol Compounds (N) 103
- Thiopyronine
Distribution of [3 H]Thiopyronine in Yeast Cells (*Saccharomyces cerevisiae*) (N) 481
- Thylakoid Membrane
Ultrastructural Changes in *in vitro* Ageing Spinach Chloroplasts 82
Inhibition of Electron Transport on the Oxygen-Evolving Side of Photosystem II by an Antiserum to a Polypeptide Isolated from the Thylakoid Membrane 304
Intermolecular Interactions of Polypeptides and Lipids in the Thylakoid Membrane 436
Localization of the Tri- and Digalactosyl Diglyceride in the Thylakoid Membrane with Serological Methods 589
Effect of an Antiserum to a Thylakoid Membrane Polypeptide on the Primary Photoreaction of Photosystem II 594
- Thylakoid Membrane Structure
On the Reconstitution of Photophosphorylation in CF $_1$ -Extracted Chloroplasts 445
- Thylakoids
Formation of Benzoic Acid and *p*-Hydroxybenzoic Acid in the Blue Green Alga *Anacystis nidulans*: A Thylakoid-Bound Enzyme Complex Analogous to the Chloroplast System 693
- 5'-Thymidine Monophosphate
Indirect EPR Evidence for the Production of Singlet Oxygen in the Photosensitization of Nucleic Acid Constituents by Proflavine (N) 203
- Thymidylate Low Requirement
Isolation and Properties of Yeast Mutants with Highly Efficient Thymidylate Utilization 468
- Thymidylate Sensitivity
Isolation and Properties of Yeast Mutants with Highly Efficient Thymidylate Utilization 468
- Thymidylate Uptake
Isolation and Properties of Yeast Mutants with Highly Efficient Thymidylate Utilization 468

- Thymine
MO Calculations of Some Thymine Radicals at the
INDO Level 371
- Tobacco Protoplasts
Valine-Induced Inhibition of Growth of Haploid
Tobacco Protoplasts and Its Reversal by Iso-
leucine (N) 337
- Transfer RNA
Methylation of Transfer RNA in Plant Cells (N) . 209
- Transport
Metabolic Products of Microorganisms, 151. Com-
parative Studies on Intracellular Potassium- and
Sodium Concentrations of Wild-Type and a Macro-
tretolide Negative Mutant of *Streptomyces griseus* 115
- Trapping
Loading of Human Red Blood Cells with DNA
and RNA 149
- Tridacnin
Galactans and Anti-Galactans from Invertebrates
(N) 205
- Trideuteroammonia
Ribose Conformations of 8-Azapurine Nucleosides
in Solution 135
- Trifolium*
Isosativan: an Isoflavan Phytoalexin from *Trifolium*
hybridum and other *Trifolium* Species (N) . . . 331
- Trigalactosyl Diglyceride
Localization of the Tri- and Digalactosyl Diglyce-
ride in the Thylakoid Membrane with Serological
Methods 589
- Trypsin-Treatment
The Chlorophyll aII Reaction in Trypsin-Treated
Spinach Chloroplasts in the Presence of Potassium
Ferricyanide 78
- Turgor
Transduction of Turgor Pressure by Cell Mem-
brane Compression 461
- Ultrasound Absorption
Proton Transfer Reactions of Dibasic Acids in
Aqueous Solution: 3-Hydroxypyridine 219
- Ultrastructure
Ultrastructural Changes in *in vitro* Ageing Spinach
Chloroplasts 82
Chromoplasts in *Rosa rugosa*: Development and
Chemical Characterization of Tubular Elements . 456
- Ultraweak Photoemission
Experimental Investigations on Ultraweak Photon-
emission from Biological Systems 741
- Undecapeptide of Ferricytochrome c
Studies on the Undecapeptide of Ferricytochrome c
Using ESR, Mössbauer and Visible Spectroscopies 232
- Valine
Direct Labeling of Amino Acids by Means of Hot
¹⁴C-Atoms 377
- Valine-Isoleucine Interaction
Valine-Induced Inhibition of Growth of Haploid
Tobacco Protoplasts and Its Reversal by Iso-
leucine (N) 337
- pK_a-Values
pK_a-Values of Ethidiumbromide and 7-Amino-9-
phenyl-10-ethyl-phenanthridiniumbromide . . . 656
- Variable Region
Immunoglobulin Diversity: Correlation of Non-
Allelic Antigenic Markers with the Basic Sequen-
ces of the Variable Region of Human Lambda
Chains (N) 758
- Various Objects
Fractionated Precipitation of Acid Macropolymers
by Dialysis, a Simple Method for the
Estimation of DNA in Complex Biological Samples 141
- Visible Light
Indirect EPR Evidence for the Production of Sing-
let Oxygen in the Photosensitization of Nucleic
Acid Constituents by Proflavine (N) 203
- Visible Spectroscopy
Studies on the Undecapeptide of Ferricytochrome c
Using ESR, Mössbauer and Visible Spectroscopies 232
- Vitamin B₁₂
Cox/Cop-Isomerism of Corrinoids. Partial Synthesis
and *Escherichia coli* Activity of Further Isomer
Pairs of the (Co-methyl)-Corrinoids 255
- Wheat
Redundant Nucleotide-Sequences in DNA from
Wheat (N) 104
- X-Ray Diffraction
On the Cross-Section Structure of the Mitochondrial
Cristae-Membrane as Revealed by X-Ray Diffraction 612
- X-Ray Structure
The Crystal Structure of the Pyrimidine Analogue
Calcium 5-Ethylidenehydroorotate·1.5 Hydrate, a
Photoproduct of Ethylorotate 518
- Yeast
Size Comparison of Poly(A)-RNA from Polysomes
and from Nuclei of the Yeast *Saccharomyces*
cerevisiae 85
Initiation in a Polyribosome-Dependent Protein-
Synthesizing Cell-Free System from *Saccharomyces* 169
- Yeast Cells
Effect of N-Methyl-N-β-chloroethyl-hydrazine-HCl
on the Growth and Multiplication of Yeast Cells
(*Saccharomyces cerevisiae*) 292
Effect of N-Methyl-N-β-chloroethylhydrazine and
Its Benzaldehydhydrazone on RNA- and Protein
Synthesis as Soon as Metabolism of Synchronously
Growing Yeast Cells (*Saccharomyces cerevisiae*) 298
- Yolk Nucleus
The Yolk Nucleus in Young Oocytes of *Neomachei-
lus barbatulus* (L.) (Teleostei, Cobitidae) (N) . 761
- Zinc Ion Transport
Differential Migration of Foliar Applied Zinc in
Maize Plants (N) 195
