

Contents

Contents of Number 1/2

Original Communications

- Biflavones from Some Mosses
H. GEIGER, S. ANHUT, and H. D. ZINSMEISTER 1
- Coumestans from the Roots of *Pueraria mirifica*
J. L. INGHAM, S. TAHARA, and S. Z. DZIEDZIC 5
- In vivo* Synthesis of [^{14}C]Dilinoylgalactosylglycerol by Gametophytes of the Fern *Anemia phyllitidis*
E. KLOSE and A. R. GEMMRICH 11
- Arachidonic Acid in the Lipids of Marine Algae Maintained under Blue, White and Red Light
S. S. RADWAN, A.-S. SHAABAN, and H. M. GEBREEL 15
- Epicuticular Wax of *Euphorbia aphylla* Brouss. ex. Willd., Euphorbiaceae
P.-G. GÜLZ, J. BODDEN, E. MÜLLER, and F.-J. MARNER 19
- Novel Sesquiterpene Ethers from Liquid Cultures of the Wood-Rotting Fungus *Lentinus lepideus*
W.-R. ABRAHAM, H.-P. HANSSEN, and C. MÖHRINGER 24
- Synthesis of Racemic [2- ^{14}C]Jasmonic Acid
H.-D. KNÖFEL and D. GROSS 29
- Enzymic Synthesis of Hydroxycinnamic Acid Esters of Glucaric Acid and Hydroaromatic Acids from the Respective 1-O-Hydroxycinnamoylglucoside and Hydroxycinnamoyl-Coenzyme A Thioester as Acyldonors with a Protein Preparation from *Cestrum elegans* Leaves
D. STRACK, W. GROSS, J. HEILEMANN, H. KELLER, and S. OHM 32
- Cell Wall-Bound Phenolics from Norway Spruce (*Picea abies*) Needles
D. STRACK, J. HEILEMANN, E.-S. KLINKOTT, and V. WRAY 37
- Production and Accumulation of Phenylpropanoids in Tissue and Organ Cultures of *Pimpinella anisum*
J. REICHLING, R. MARTIN, and U. THRON 42
- Fatty-Acid Biosynthesis and Acetyl-CoA Carboxylase as a Target of Diclofop, Fenoxaprop and other Aryloxy-phenoxy-propionic Acid Herbicides
K. KOBKE, M. FOCKE, and H. K. LICHTENTHALER 47
- Energy Transfer within PC Trimers of *Mastigocladus laminosus* Studied by Picosecond Time-Resolved Transient Absorption Spectroscopy
S. SCHNEIDER, P. GEISELHART, S. SIEBZEHNÜBL, R. FISCHER, and H. SCHEER 55
- Topography of the Phytochrome Molecule as Determined from Chemical Modification of SH-Groups
P. H. EILFELD, G. WIDERER, H. MALINOWSKI, W. RÜDIGER, and P. G. EILFELD 63
- Degree of Saturation of Blood Plasma in Vertebrates with Octocalcium Phosphate
F. C. M. DRIESSENS, R. M. H. VERBEECK, J. W. E. VAN DIJK, and J. M. P. M. BORGGREVEN 74
- The Complete Amino Acid Sequences of the B800–850 Antenna Polypeptides from *Rhodospseudomonas acidophila* strain 7750
I. BISSIG, R. A. BRUNISHOLZ, F. SUTER, R. J. COGDELL, and H. ZUBER 77
- Conformational Studies of Biliproteins from the Insects *Pieris brassicae* and *Cerura vinula*
H. SCHEER and H. KAYSER 84
- Selective Binding of Amino Acid Residues to tRNA Molecules Detected by Anticodon-Anticodon Interactions
W. BUJALOWSKI and D. PORSCHKE 91
- Volatile Compounds from Androconial Organs of Danaine and Ithomiine Butterflies
S. SCHULZ, W. FRANCKE, J. EDGAR, and D. SCHNEIDER 99

Apomorphine and Haloperidol Influence Electric Behaviour of a Mormyrid Fish P. KUNZE and H.-U. WEZSTEIN	105	Epicuticular Leaf Waxes of <i>Tilia tomentosa</i> Moench. and <i>Tilia × europaea</i> L., Tiliaceae P.-G. GÜLZ, E. MÜLLER, and B. MOOG	173

		Demonstrating Evolutionary Relationships Between Macromolecular Sequences through Mutual Relationships with a Third Sequence M. P. STAVES, D. P. BLOCH, and J. C. LACEY, jr.	476

Contents of Number 7/8

Original Communications

- Novel Glucoalkaloids from *Rauwolfia* Cell Cultures
– Acetyltrauglucine and Related Glucosides
C. M. RUYTER, H. SCHÜBEL, and J. STÖCKIGT 479

- Glycosilation of Terpenols and Aromatic Alcohols
by Cell Suspension Cultures of Peppermint
(*Mentha piperita* L.)
R. G. BERGER and F. DRAWERT 485

- The Occurrence of Phenols as Degradation Products
of Natural Sporopollenin – a Comparison with
“Synthetic Sporopollenin”
S. HERMINGHAUS, S. GUBATZ, S. ARENDT, and
R. WIERMANN 491

- Two New Enzymes of Rosmarinic Acid Biosynthesis
from Cell Cultures of *Coleus blumei*: Hydroxy-
phenylpyruvate Reductase and Rosmarinic Acid
Synthase
M. PETERSEN and A. W. ALFERMANN 501

- Biosynthesis of Lipids Containing Isoricinoleic
(9-Hydroxy-*cis*-12-octadecenoic) Acid in Seeds of
Wrightia Species
F. AHMAD and K. D. MUKHERJEE 505

- The Occurrence of Tryptamine Derivatives in
Psilocybe semilanceata
R. BRENNISEN and S. BORNER 511

- Hydroxylation of Chlorinated and Unchlorinated
Chlorophylls *in vitro*
M. SENGE, A. STRUCK, D. DÖRNEMANN, H.
SCHEER, and H. SENER 515

- Synthesis of 2-(*E*)-O-(4-Hydroxy-cinnamoyl)-D,L-
galactaric Acid, a Presumptive Photosensitive
Factor from *Glycine max* (In German)
H. SCHILDKNECHT, H. SAUER, and P. KUNZEL-
MANN 519

- Elicitation of Pterocarpin Phytoalexins in Cell Sus-
pension Cultures of Different Chickpea (*Cicer*
arietinum L.) Cultivars by an Elicitor from the
Fungus *Ascochyta rabiei*
H. KESSMANN, S. DANIEL, and W. BARZ 529

- Elicitor-Induced Changes of Enzyme Activities Re-
lated to Isoflavone and Pterocarpin Accumulation
in Chickpea (*Cicer arietinum* L.) Cell Suspension
Cultures
S. DANIEL, W. HINDERER, and W. BARZ 536

- Further Investigations about the Flavin in the
L-Amino Acid Oxidase and a Possible Flavin in
Photosystem II Complexes from the Cyanobac-
terium *Anacystis nidulans*
G. WÄLZLEIN, A. E. GAU, and E. K. PISTORIUS 545

- Immunochemical Comparative Study on RuBP Car-
boxylase/Oxygenase of Different Tobacco Mu-
tants Exhibiting Different Levels of Photorespira-
tion
A. RADUNZ and G. H. SCHMID 554

- Isolation and Purification to Apparent Homogeneity
of 4,5-Dioxovalerate Aminotransferase from
Scenedesmus obliquus Mutant C-2A'
A. KAH, D. DÖRNEMANN, and H. SENER 563

- The Formation of Phosphate End Groups in the
Radiolysis of Polynucleotides in Aqueous Solution
CH. P. MURTHY, D. J. DEEBLE, and C. VON SONN-
TAG 572

- Distribution of *cis-trans*- β -Carotene in Pigment-Pro-
tein Fractions of Photosystem I and II
S. S. BRODY, D. SIMPSON, and M. RICH 577

- Investigation on the Photosynthetic Membranes of
Spruce Needles in Relation to the Occurrence of
Novel Forest Decline. I. The Photosynthetic Elec-
tron Transport
B. DIETZ, I. MOORS, U. FLAMMERSFELD, W.
RÜHLE, and A. WILD 581

- Investigation on the Photosynthetic Membranes of
Spruce Needles in Relation to the Occurrence of
Novel Forest Decline. II. The Content of Q_B-Pro-
tein, Cytochrome *f*, and P-700
A. WILD, U. FLAMMERSFELD, I. MOORS, B. DIETZ,
and W. RÜHLE 589

- Thermoluminescence and Delayed Luminescence
Characterization of Photosystem II_a and Photosys-
tem II_β Reaction Centers
É. HIDEG and S. DEMETER 596

Biochemical and Chemical Characterization of Tri-fluoromethylglyoxal Bis(guanyldrazone), a Close Analog of the Antileukemic Drug Mitoguanzone H. ELO and I. MUTIKAINEN	601	Metabolism of Ferulic Acid Sucrose Esters in Anthers of <i>Tulipa</i> cv. Apeldoorn: II. Highly Specific Degradation of the Esters by Different Esterase Activities P. A. BÄUMKER, S.
