

Index of Volume 3 (1985)

Number 1/2

D. S. Cotterill and M. Csörgö

On the limiting distribution of and critical values for the Hoeffding,
Blum, Kiefer, Rosenblatt independence criterion 1

M. Denker and U. Rösler

Some contributions to Chernoff-Savage theorems 49

D. Landers and L. Rogge

Asymptotic normality of the estimators of the natural median 77

L. Horváth

Estimation from a length-biased distribution 91

J. C. Fu

On probabilities of large deviations for empirical distributions 115

H. Zijm

The optimality equations in multichain denumerable state Markov decision
processes with the average cost criterion: The bounded cost case 143

K.-H. Waldmann

Multistage Bayesian acceptance sampling: Optimality of a (z, c^-, c^+) -sampling
plan in case of a Polya prior distribution 167

Book Reviews 187

Number 3/4

M. N. Mishra and B. L. S. Prakasa Rao

Asymptotic study of the maximum likelihood estimator for non-homogeneous
diffusion processes 193

M. P. Cohen and L. Kuo

Minimax sampling strategies for estimating a finite population distribution function 205

A. L. Rukhin and J. V. Zidek

Estimation of linear parametric functions for several exponential samples 225

K. Behnen, M. Hušková and G. Neuhaus

Rank estimators of scores for testing independence 239

Index of Volume 3 (1985)

J. Jurečková

Representation of M-estimators with the second-order asymptotic distribution 263

A. Marazzi

On constrained minimization of the Bayes risk for the linear model 277

W. Gawronski and U. Stadtmüller

Parameter estimation for distributions with regularly varying tails 297

J.-P. Kreiss

A note on M-estimation in stationary ARMA processes 317

H. Walk

On recursive estimation of the mode 337

J. C. Fu

A note on an inequality of exponential rates 351

J. H. J. Einmahl and F. H. Ruymgaart

A strong law for the oscillation modulus of the multivariate empirical process 357

L. Bican and J. Štěpán

Choquet theorem for compact measures 363

Book Reviews 379

List of Referees for Volume 3 387
