

Statistics & Decisions

Volume 12 · Issue 1 · 1994

<i>Jian-Jian Ren</i> On Hadamard differentiability and its application to R-estimation in linear models	1
<i>A. F.-Y. Lee, J. I. Marden</i> Admissibility of the natural procedures in two-stage estimation for certain finite sample problems	23
<i>N. Mukhopadhyay, S. Purkayastha</i> On sequential estimation of the difference of means	41
<i>A. Antoniadis, C. Lavergne</i> An estimating function for a scalar parameter in a covariance operator	53
<i>T. Herbst</i> On a semiparametric model for randomly truncated data	67
<i>N. Misra, I. D. Dhariyal</i> Non-minimaxity of natural decision rules under heteroscedasticity	79
<i>R. Mukerjee, K. Chatterjee</i> A search procedure using polychotomies for search linear models with positive error variance	91
Book Reviews	105
