

Index of Volume 15 (1997)

Number 1

M. Pensky

Empirical Bayes estimation of a location parameter 1

M. Ghosh, D. H. Kim

Robust Bayes competitors of the ratio estimator 17

Y. Konno, T. Kubokawa, A. K. Md. E. Saleh

Shrinkage estimators in a mixed MANOVA and GMANOVA model 37

S. Mukhopadhyay, A. DasGupta

Uniform approximation of Bayes solutions and posteriors:
Frequentistly valid Bayes inference 51

N. Misra, R. Anand, H. Singh

Estimation of the smaller and larger scale parameters
of two exponential distributions 75

Book reviews 99

Number 2

J. T. Gene Hwang, R. Pemantle

Estimating the truth indicator function of a statistical hypothesis
under a class of proper loss functions 103

S. Ghosal, T. Samanta

Expansion of Bayes risk for entropy loss and reference
prior in nonregular cases 129

<i>A. L. Rukhin</i> Change-point estimation under asymmetric loss	141
<i>A. N. Gill, S. K. Sharma, N. Misra</i> Simultaneous confidence bounds for the ratios of scale parameters	165
<i>Kai-Tai Fang, P. C. B. Lam, Qi-Guang Wu</i> Estimation for seemingly unrelated regression equations	183
<i>M. Arfi</i> On general estimate of the regression function	191
Book reviews	201

Number 3

<i>H. M. Dietz, Y. A. Kutoyants</i> A class of minimum-distance estimators for diffusion processes with ergodic properties	211
<i>M. Falk, F. Marohn</i> Efficient estimation of the shape parameter in Pareto models with partially known scale.	229
<i>J. Antoch, M. Brzezina, A. Linka</i> Asymptotic approximation of Bayes risk of estimators of reliability for exponentially distributed data	241
<i>D. Landers, L. Rogge</i> Best ϕ -approximants for bounded loss functions	255
<i>S. Zhang, R. J. Karunamuni</i> Empirical Bayes estimation for the continuous one-parameter exponential family with errors in variables	261
<i>J. Krob, H. v. Weizsäcker</i> On the rate of information gain in experiments with a finite parameter set	281

Index of Volume 15 (1997)	V
<i>R. Helmers</i> A note on bootstrapping the local time of the empirical process	295
<i>Yachen Lin</i> Asymptotics of bootstrapping mean on some smoothed empirical distribution	301
Book reviews	307
Number 4	
<i>J. Hille</i> On sufficiency and Blackwell sufficiency	319
<i>M. Sato</i> On the rates of convergence of consistent estimators: an extreme phenomenon	349
<i>S. C. Bagui, D. Kushary</i> Minimax classification rule for tail contaminated models	357
<i>M. Csörgő, L. Horváth, B. Szyszkowicz</i> Integral tests for suprema of Kiefer processes with application	365
<i>V. Čekanavičius, P. Vaitkus</i> Large deviations for signed compound Poisson approximations	379
<i>T. J. Kozubowski</i> Characterization of multivariate geometric stable distributions	397
Book reviews	417
Referees of Volume 15 (1997) of S & D	423
Author Index of Volume 15	425
