

Statistics & Decisions

Volume 17 · Issue 2 · 1999

<i>M. Pensky</i> Estimation of a smooth density function using Meyer-type wavelets	111
<i>N. Shinozaki, Yuan-Tsung Chang</i> A comparison of maximum likelihood and best unbiased estimators in the estimation of linear combinations of positive normal means	125
<i>Y. Maruyama</i> Improving the James-Stein estimator	137
<i>C. Macci</i> Some further results about undominated Bayesian experiments	141
<i>TaChen Liang</i> Empirical Bayes two-tail tests in a discrete exponential family	157
<i>U. Saint-Mont</i> Prophet regions for iid random variables with simultaneous costs and discountings	185
Book reviews	205
