

Index of Volume 18 (2000)

Number 1

<i>A. Cohen, H. B. Sackrowitz</i> Testing whether treatment is „better“ than control with ordered categorical data: Definitions and complete class theorems	1
<i>T. Kusama, N. Koyama</i> Complete classes in comparison of sequential binomial experiments	27
<i>Q. Yu</i> Inadmissibility and admissibility of randomized Wilcoxon tests in discrete two-sample problems	35
<i>A. Janssen</i> Nonparametric bioequivalence tests for statistical functionals and their efficient power functions	49
<i>A.-E. S Abd-Rabou, E.-E. A. A. Aly</i> Weighted tests for a change in the regression slope	79
Correction Notes	99
Book Reviews	101

Number 2

<i>E. Grycko, O. Moeschlin</i> An ergodicity concept for traffic control	115
<i>E. Marchand, B. MacGibbon</i> Minimax estimation of a constrained binomial proportion	129
<i>G. Iliopoulos, S. Kourouklis</i> Interval estimation for the ratio of scale parameters and for ordered scale parameters	169

N. Pal, Wooi K. Lim

Estimation of a correlation coefficient: Some second order decision-theoretic results 185

H. P. Singh, M. Ruiz Espejo

An improved class of chain regression estimators in two phase sampling 205

Book Reviews 219

Number 3

P. Lachout, V. Paulauskas

On the second-order asymptotic distribution of M-estimators 231

D. Fourdrinier, A.-S. Lemaire

Estimation of the mean of a l_1 -exponential multivariate distribution 259

C. El-Nouty, A. Guillou

On the bootstrap accuracy of the Pareto index 275

A. van Aobel, W. Gawronski

Asymptotics and bounds for the modes of noncentral distributions 291

E. Cramer

Probability measures with given marginals and conditionals: I -projections and conditional iterative proportional fitting 311

Book Reviews 331

Number 4*B. Rémillard, R. Theodorescu*Inference based on the empirical probability generating function for mixtures
of Poisson distributions 349*M. Baron*

On statistical inference under asymmetric loss functions 367

D. Louani

Exact Bahadur efficiencies for two-sample statistics in functional density estimation 389

*J. Leclerc*Strong limiting behavior of two estimates of the mode:
the shorth and the naive estimator 413*K. D. Schmidt*

Statistical decision problems and linear prediction under vague prior information 429

Book Reviews 443
