

# Statistics & Decisions

**Volume 19 · Issue 4 · 2001**

*K. Pötzelberger and H. Strasser*

Clustering and quantization by MSP-partitions ..... 331

*M. R. Espejo, H. P. Singh and R. Singh*

Optimal unbiased linear integration of estimators ..... 373

*C. Poppinga*

Simulated annealing for almost sure convergent random sequences ..... 395

*W. Gawronski*

On the unimodality of geometric stable laws ..... 405

*H. Rieder and P. Ruckdeschel*

Short proofs on  $L_r$ -differentiability ..... 419

Book Reviews ..... 427
