Preface	ix
INTRODUCTION	1
What Is an Insect?	2
Growth and Reproduction	2
Breathing and Circulation	3
Feeding	4
Stinging	5
Distribution and Diversity of the California Insect Fauna	5
Topography	7
Geographical Distribution	7
Diversity	14
Microhabitats	17
Making an Insect Collection	17
Classification	19
Names	20
Synopsis of Hexapods and the Orders of Insects	22
ACCOUNTS: SYSTEMATIC TREATMENT	37
Coneheads (Class Protura)	38
Two-pronged Bristletails (Class Diplura)	38
Springtails (Class Collembola)	38
Insects (Class Insecta)	41
Bristletails (Order Archaeognatha)	41
Silverfish (Order Zygentoma)	42
Mayflies (Order Ephemeroptera)	46
Dragonflies and Damselflies (Order Odonata)	51
Stoneflies (Order Plecoptera)	66
Ice Crawlers (Order Grylloblattodea)	70
Cockroaches and Termites (Order Blattodea)	71
Mantises (Order Mantodea)	83
Grasshoppers, Crickets, and Katyids (Order Orthoptera)	86

Walking Sticks (Order Phasmida)	106
Webspinners (Order Embiidina)	109
Earwigs (Order Dermaptera)	110
Barklice, Booklice, and Parasitic Lice (Order Psocodea)	114
True Bugs, Hoppers, Aphids, Scales, and Other Bugs (Order Hemiptera)	121
Thrips (Order Thysanoptera)	171
Fishflies and Alderflies (Order Megaloptera)	175
Snakeflies (Order Raphidioptera)	176
Nerve-winged Insects (Order Neuroptera)	178
Stylops (Order Strepsiptera)	188
Beetles (Order Coleoptera)	189
Fleas (Order Siphonaptera)	266
Flies, Gnats, and Midges (Order Diptera)	269
Scorpionflies (Order Mecoptera)	331
Caddisflies (Order Trichoptera)	332
Moths and Butterflies (Order Lepidoptera)	347
Ants, Wasps, and Bees (Order Hymenoptera)	426
Acknowledgments	483
Glossary	485
