Tourism Essentials is a dynamic new book series of short accessible volumes focusing on a specific area of tourism studies. It aims to present cutting-edge research on significant and emerging topics in tourism, providing a concise overview of the field as well as examining the key issues and future research possibilities. This series aims to create a new generation of tourism authors by encouraging young researchers as well as more established academics. The books will provide insight into the latest perspectives in tourism studies and will be an essential resource for postgraduate students and researchers.
