MM Textbooks bring the subjects covered in our successful range of academic monographs to a student audience. The books in this series explore education and all aspects of language learning and use, as well as other topics of interest to students of these subjects. Written by experts in the field, the books are supervised by a team of world-leading scholars and evaluated by instructors before publication. Each text is student-focused, with suggestions for further reading and study questions leading to a deeper understanding of the subject.
