Foreword *D.F. Williams* ix

Preface xi

Acknowledgments xiii

Part 1: The Material Surface

- 1 Surface Characterization of Implant Materials: Biological Implications 3
D.C. Smith
- 2 The Biomaterial-Tissue Interface and Its Analogues in Surface Science and Technology 19
B. Kasemo and J. Lausmaa
- 3 Surface Reaction Kinetics and Adsorption of Biological Moieties: A Mechanistic Approach to Tissue Attachment 33
L.L. Hench
- 4 Titanium and Its Oxide Film: A Substrate for Formation of Apatite 49
T. Hanawa
- 5 Titanium: Immersion-Induced Surface Chemistry Changes and the Relationship to Passive Dissolution and Bioactivity 62
P. Ducheyne and K. Healy
- 6 Kinetics of Mineralization, Demineralization, and Transformation of Calcium Phosphates at Mineral and Protein Surfaces 68
M.S-A. Johnsson, E. Paschalis, and G.H. Nancollas
- 7 Substrate Surface Dissolution and Interfacial Biological Mineralization 76
R.Z. LeGeros, I. Orly, M. Gregoire, and G. Daculsi
- 8 High-Resolution Electron Microscopy of a Bone Implant Interface 89
W. Bonfield and Z.B. Luklinska

Part 2: Bone Proteins and Other Macromolecules

- 9 Non-Collagenous Bone Proteins and Their Role in Substrate-Induced Bioactivity 97
J. Sodek, Q. Zhang, H.A. Goldberg, C. Domenicucci, S. Kasugai, J.L. Wrana, H. Shapiro, and J. Chen

- 10 Role of Adhesive Proteins and Integrins in Bone and Ligament Cell Behavior at the Material Surface 111
J.J. Sauk, C.L. Van Kampen, and M.J. Somerman
- 11 Non-Endocrine Regulation of Bone Cell Activity 120
H.C. Tenenbaum, C.A.G. McCulloch, H.F. Limeback, and P. Birek
- 12 Osteogenesis Induced by BMP-Coated Biomaterials: Biochemical Principles of Bone Reconstruction in Dentistry 127
Y. Kuboki, H. Yamaguchi, A. Yokoyama, M. Murata, H. Takita, M. Tazaki, M. Mizuno, T. Hasegawa, S. Iida, K. Shigenobu, R. Fujisawa, M. Kawamura, T. Atsuta, A. Matsumoto, H. Kato, H.-Y. Zhou, I. Ono, N. Takeshita, and N. Nagai
- 13 Ceramic Synthesis using Biological Processes 139
B.J. Tarasevich, P.C. Rieke, and G.L. McVay
- Parts 1 and 2 – General Discussion 147**

Part 3: Cellular Activity at the Interface

- 14 Inflammatory Cell Response to Bone Implant Surfaces 153
P. Thomsen and L.E. Ericson
- 15 Modulation of Cell Activity by Titanium Peroxy Compounds 165
L.M. Bjursten and P. Tengvall
- 16 Behaviour of Osteoblasts on Micromachined Surfaces 170
D.M. Brunette, J. Ratkay, and B. Chehroudi
- 17 Osteoblast Reactions to Charged Polymers 181
R.M. Shelton and J.E. Davies
- 18 Cell-Mediated Bone Regeneration 199
A.I. Caplan
- 19 The Influence of Sputtered Bone Substitutes on Cell Growth and Phenotypic Expression 205
A.S. Windeler, L. Bonewald, A.G. Khare, B. Boyan, and G.R. Mundy
- 20 Early Extracellular Matrix Synthesis by Bone Cells 214
J.E. Davies, P. Ottensmeyer, X. Shen, M. Hashimoto, and S.A.F. Peel
- 21 Transmission Electron Microscopical Identification of Extracellular Matrix Components using Immunocytochemistry 229
H. Magloire, M. Bouvier, P. Exbrayat, M.B. Andujar, M.L. Couble, A. Joffre, H. Poly, M.H. Veron, D. Seux, and D.J. Hartmann
- 22 Molecular Biological Approaches to Investigate Cell/Biomaterial Interactions 241
S.R. Goldring and J.-T. Wang
- 23 Biological Cascades of Fracture Healing as Models for Bone-Biomaterial Interfacial Reactions 250
S. Jingushi and M.E. Bolander

Part 4: The Tissue-Material Interface

- 24 Tissue Responses to Bone-Derived and Synthetic Materials 265
J. Glowacki and M. Spector
- 25 Hard and Soft Connective Tissue Growth and Repair in Response to Charged Surfaces 275
M. Krukowski, B. Eppley, T. Mustoe, and P. Osdoby
- 26 Deposition of Cement-like Matrix on Implant Materials 285
J.E. Davies, N. Nagai, N. Takeshita, and D.C. Smith
- 27 Polymer Reactions Resulting in Bone Bonding: A Review of the Biocompatibility of Polyactive 295
C.A. van Blitterswijk, S.C. Hesselink, J. van den Brink, H. Leenders, and D. Bakker
- 28 Comparative Morphology of the Bone Interface with Glass Ceramics, Hydroxyapatite, and Natural Coral 308
U.M. Gross, C. Müller-Mai, and C. Voigt
- 29 Interfacial Reactions to Bioactive and Non-bioactive Bone Cements 321
H. Oonishi
- 30 Modulation of Bone Ingrowth by Surface Chemistry and Roughness 334
J.L. Ricci, J.M. Spivak, N.C. Blumenthal, and H. Alexander
- 31 Comparative Push-out Data of Bioactive and Non-bioactive Materials of Similar Rugosity 350
M. Niki, G. Ito, T. Matsuda, and M. Ogino
- 32 Quantified Bone Tissue Reactions to Various Metallic Materials with Reference to the So-called Osseointegration Concept 357
T. Albrektsson and C. Johansson

Part 5: Mechanical Effects on Interfacial Biology

- 33 Effect of Mechanical Stress on Tissue Differentiation in the Bony Implant Bed 367
D.R. Carter and N.J. Giori
- 34 Quantitative Evaluation of the Effect of Movement at a Porous Coated Implant-Bone Interface 380
R.M. Pilliar
- 35 Bone Ingrowth into Porous Coatings Attached to Prostheses of Differing Stiffness 388
D.R. Sumner, T.M. Turner, R.M. Urban, and J.O. Galante
- 36 Influence of Biomechanical Factors at the Bone-Biomaterial Interface 391
J.B. Brunski
- 37 Bone Bonding Behavior of Biomaterials with Different Surface Characteristics under Load-Bearing Conditions 406
T. Yamamuro and H. Takagi

Part 5 – General Discussion: The Effect of Micromotion on Bone Healing 415

Part 6: Retrieval Analysis for Interpreting Interfacial Phenomena

- 38 Bone-Biomaterial Interfaces of Retrieved Implants 419
J.E. Lemons
- 39 Ultrastructural Investigation and Analysis of the Interface of Retrieved Metal Implants 425
L.E. Ericson, B.R. Johansson, A. Rosengren, L. Sennerby, and P. Thomsen
- 40 Synovial Cells at the Interface with Retrieved Implants 438
P.A. Revell and P.A. Lalor
- 41 Phenotypic Characteristics of Inflammatory Cells Derived from Hip Revision Capsules 444
N.A. Athanasou, J.T. Triffitt, C.J.K. Bulstrode, and J. Quinn
- 42 Bone Bonding to Retrieved Hydroxyapatite-Coated Human Hip Prostheses 450
D.C.R. Hardy, P. Frayssinet, I. Primout, E. Yasik, M.A. Lafontaine, and P.E. Delince
- Part 6 – General Discussion 457**

Part 7: The Industrial Perception 461

Session chairman: **Sydney Pugh**

Panellists: **Richard Kenley, Gerald Niznick, Makato Ogino, Jack Taylor, Jack Parr, John Cresser Brown, Mike Hyjek, Craig van Kampen, Ann Burgess, Jim Benedict, Mark Skarsted, Eyal Ron**

Biographical Sketches of Invited Attendees at the Bone-Biomaterial Interface Workshop, Toronto, December 3 and 4, 1990 471
