

ACKNOWLEDGMENTS

I would like to express my gratitude to the Fulbright Foundation for a grant of nine months spent at UCLA, and to the University of Pittsburgh, where a few of my articles on the sculptures of Hatra were written. I would like to thank Professor Giorgio Buccellati of UCLA and the late Professor Hugo Nutini of the University of Pittsburgh for their assistance.

My thanks go to my wife for her encouragement and support, as well as to Auday Wathiq Al-Salihi, my son, for his tremendous help in the technical aspects. Without his assistance this work would not have been finished. My thanks are extended to Gorgias Studies for publishing this work and to Drs Melonie Schmierer-Lee and Yael Landman and the editors and to Dr. Jane Moon for proofreading the manuscript.
