Introduction	Howard S. Ginsberg	1
<i>I Ecology and Epizootiology</i>		
1 Natural History of <i>Borrelia burgdorferi</i> in Vectors and Vertebrate Hosts	John F. Anderson and Louis A. Magnarelli	11
2 Population Ecology of <i>Ixodes dammini</i>	Durland Fish	25
3 The Dynamics of Spirochete Transmission Between Ticks and Vertebrates	Thomas N. Mather	43
<i>II Distribution and Spread</i>		
4 Geographical Spread of <i>Ixodes dammini</i> and <i>Borrelia burgdorferi</i>	Howard S. Ginsberg	63
5 The Origins and Course of the Present Outbreak of Lyme Disease	Andrew Spielman, Sam R. Telford III, and Richard J. Pollack	83
<i>III Environmental Management</i>		
6 Lyme Disease Surveillance and Personal Protection Against Ticks	Dennis J. White	99
7 Vector Management to Reduce the Risk of Lyme Disease	Mark L. Wilson and Robert D. Deblinger	126
Forum: Perspectives on the Environmental Management of Ticks and Lyme Disease	Joseph Piesman; George W. Korch, Jr.; Sam R. Telford III; Richard C. Falco and Thomas J. Daniels; Gary A. Mount; Daniel E. Sonenshine; Kirby C. Stafford III	157
Conclusion: Natural Population Regulation and Management of <i>Ixodes dammini</i>	Howard S. Ginsberg	183
