

Latinidad

Transnational Cultures in the United States

This series publishes books that deepen and expand our understanding of Latina/o populations, especially in the context of their transnational relationships within the Americas. Focusing on borders and boundary crossings, broadly conceived, the series is committed to publishing scholarship in history, film and media, literary and cultural studies, public policy, economics, sociology, and anthropology. Inspired by interdisciplinary approaches, methods, and theories developed out of the study of transborder lives, cultures, and experiences, titles enrich our understanding of transnational dynamics.

Matt Garcia, Series Editor, Professor of Latin American, Latino & Caribbean Studies, and History, Dartmouth College
