

CONTENTS

INTRODUCTION	1
--------------	---

Part One. The Elements

I. LOGIC

1. Quantification and identity	9
2. Virtual classes	15
3. Virtual relations	21

II. REAL CLASSES

4. Reality, extensionality, and the individual	28
5. The virtual amid the real	34
6. Identity and substitution	40

III. CLASSES OF CLASSES

7. Unit classes	47
8. Unions, intersections, descriptions	53
9. Relations as classes of pairs	58
10. Functions	65

IV. NATURAL NUMBERS

11. Numbers unconstrued	74
12. Numbers construed	81
13. Induction	86

V. ITERATION AND ARITHMETIC

14. Sequences and iterates	96
15. The ancestral	101
16. Sum, product, power	107

Part Two. Higher Forms of Number

VI. REAL NUMBERS

17. Program. Numerical pairs	119
18. Ratios and reals construed	124
19. Existential needs. Operations and extensions	130

VII. ORDER AND ORDINALS

20. Transfinite induction	139
21. Order	145
22. Ordinal numbers	150
23. Laws of ordinals	160
24. The order of the ordinals	170

VIII. TRANSFINITE RECURSION

25. Transfinite recursion	174
26. Laws of transfinite recursion	180
27. Enumeration	184

IX. CARDINAL NUMBERS

28. Comparative size of classes	193
29. The Schröder-Bernstein theorem	203
30. Infinite cardinal numbers	208

Contents	xvii
-----------------	-------------

X. THE AXIOM OF CHOICE

31. Selections and selectors	217
32. Further equivalents of the axiom	224
33. The place of the axiom	231

Part Three. Axiom Systems

XI. RUSSELL'S THEORY OF TYPES

34. The constructive part	241
35. Classes and the axiom of reducibility	249
36. The modern theory of types	259

XII. GENERAL VARIABLES AND ZERMELO

37. The theory of types with general variables	266
38. Cumulative types and Zermelo	272
39. Axioms of infinity and others	279

XIII. STRATIFICATION AND ULTIMATE CLASSES

40. "New foundations"	287
41. Non-Cantorian classes. Induction again	292
42. Ultimate classes added	299

XIV. VON NEUMANN'S SYSTEM AND OTHERS

43. The von Neumann-Bernays system	310
44. Departures and comparisons	315
45. Strength of systems	323

SYNOPSIS OF FIVE AXIOM SYSTEMS	331
---------------------------------------	------------

LIST OF NUMBERED FORMULAS	333
----------------------------------	------------

BIBLIOGRAPHICAL REFERENCES	343
-----------------------------------	------------

INDEX	353
