

List of tables and figures

Tables

2.1	Perceptions of the necessities of life in 2012: comparing young and old (%)	49
2.2	Deprivation of social and material necessities in the UK among working-age adults by age group, 2012	50
2.3	Deprivation of socially perceived necessities among young adults aged 18–29 in Britain, 1999 and 2012	51
2.4	Comparing income, deprivation and subjective measures of poverty in the UK by age group, 2012 (%)	52
2.5	Multidimensional exclusion in the UK by age group in 2012, selected indicators (%)	54
3.1	B-SEM domain – Resources; theme – Material and economic resources	65
3.2	B-SEM domain – Resources; theme – Social resources	68
3.3	B-SEM domain – Participation; theme – Social participation	73
3.4	B-SEM domain – Participation; theme – Political and civic participation	75
3.5	B-SEM domain – Quality of life; theme – Living environment, sub-theme – Housing quality	78
3.6	B-SEM domain – Quality of life; theme – Living environment	82
4.1	Distribution of respondents by age and household type	100
4.2	Percentages of men and women experiencing poverty	101
4.3	Percentages of men and women lacking items and activities because 'cannot afford' (only necessities with significant differences)	103
4.4	Percentage of men and women lacking practical or emotional support by household type	109
5.1	Objective and subjective poverty by ethnicity	121
5.2	Managing on low incomes by ethnicity	124
5.3	Economic activity, work deprivation and in-work poverty by ethnicity	125
5.4	Living environment and ethnicity	127
6.1	Proportion of the adult population viewing items and activities as necessities, and comparisons between 2012 and 1999	138
6.2	Poverty rates and composition of poor children by socio-demographic characteristics (%)	145
6.3	Children's experiences of exclusion and negative outcomes	147

7.1	Frequency of parenting activities	161
7.2	Percentage of parents living in PSE poverty	161
7.3	Percentage of parents who cannot afford educational items by income poverty status	164
8.1	Prevalence and risk of disabled adults being unable to afford individual necessities	180
8.2	Risk (Odds Ratio corrected for between group difference in age and gender, with 95% CI) of being in poverty for disabled people with specific impairments	184
8.3	Commonly reported indicators of social exclusion, and comparison of disabled and non-disabled people	187
9.1	Proportion of individuals living in households below 60% of median income, by region (%)	200
9.2	Distribution of GORs	201
9.3	Relative income poverty and deprivation by area	202
9.4	Combined income and deprivation poverty measures by area	203
9.5	PSE consensual poverty for social categories by area	204
9.6	Relative risk of poverty in the North compared to the South of England (including London)	205
9.7	Social exclusion variables	206
9.8	Ranking of social exclusion variables by area	208
9.9	Overall rankings for social exclusion	211

Figures

1.1	UK public sector debt as a % of GDP: 1993–2015	23
4.1	Percentage of poor men and women (PSE poverty) by age	101
4.2	Percentage of poor men and women (PSE poverty) by household type	102
4.3	Gender gap in economising behaviours in poor and non-poor households	105
5.1	Distribution of income by ethnicity	122
6.1	Proportion of children deprived on each domain	146
7.1	Percentage of parents economising by household poverty status (with 95% confidence intervals – CI)	163
7.2	Percentage of parents reporting they undertake parent–child activities most days or every day by family type (first set of bars) and poverty status (second set), 95% CI	166
7.3	Percentage of parents reporting they undertake parent–child activities most days or every day by income quartile, 95% CI	167

List of tables and figures

8.1	The proportion of disabled men and women in receipt of low income compared with non-disabled men and women, by age group	178
8.2	The proportion of disabled and non-disabled men and women unable to afford three or more of the 25 'necessities' of life, by age group	182
8.3	The proportion of disabled and non-disabled men and women in poverty, by age group	183
10.1	Poverty and deprivation by urban–rural location	223
10.2	Problems in access to services by urban–rural location	228
10.3	Poverty rates by household work intensity and urban–rural location	230
10.4	Housing and neighbourhood environment by urban–rural location	231
10.5	Health and well-being by urban–rural location	233
10.6	Ever experienced shame by current deprivation and urban–rural location	234
