

Acknowledgements

We are grateful to everyone who helped to organise and participate in the International Symposium on Critical Policy Studies: Exploring the Premises and Politics of Carol Bacchi's WPR Approach, at Karlstad University 17–18 August 2022. They provided the take-off point for this edited collection. Thanks also to Susan Goodwin and Malcolm Williams, who read through a version of the manuscript and made helpful comments, and to the anonymous reader for their enthusiasm for the collection and supportive suggestions.
