

Acknowledgements

This volume is the collective effort of Migration Mobilities Bristol (MMB), a research institute at the University of Bristol. The editor and authors would like to thank MMB members across the university, who have built and nurtured the research environment that enabled this collection. We particularly thank Emma Newcombe, MMB Manager, for her creativity and organizational and fundraising skills and Emily Walmsley, MMB External Projects Coordinator, for her sharp eye for detail and for encouraging us all to keep to time. We also acknowledge the University of Bristol's Strategic Research Investment Fund 2022 for funding the workshop that brought our thinking together.
