Introduction 1

1	The Call of the Frontier	9
 PART ONE An American Dream		17
2	The Several Hundred GeV Accelerator, 1959–1963	19
3	The Berkeley Design, 1963–1965	39
4	Midwest Passage, 1965–1967	64
 PART TWO A New Frontier on the Illinois Prairie		93
5	Wilson's Vision	95
6	Constructing the Ring, 1968–1972	127
7	A Users' Paradise, 1968–1978	157
8	Beyond the Horizon: The Energy Doubler, 1967–1978	196
 PART THREE The Road to Megascience		225
9	Lederman's Vision	227
10	Completing the Doubler, 1978–1984	246
11	Bigger Science: Experiment Strings, 1970–1988	262
12	Megascience Realized: Colliding Beams, 1967–1989	281
13	The Super Collider Affair	312

Epilogue: Light on the Horizon, 1989–1995

335

Authors' Statements and Other Acknowledgements 355

Appendix: Fermilab Approved Experiments, 1970–1992 365
