Introduction

1	Rodent Societies as Model Systems	<i>Jerry O. Wolff and Paul W. Sherman</i>	3
2	Rodent Evolution, Phylogenetics, and Biogeography	<i>Rodney L. Honeycutt, Laurence J. Frabotta, and Diane L. Rowe</i>	8

Sexual Behavior

3	Male Mating Strategies in Rodents	<i>Jane Waterman</i>	27
4	Reproductive Strategies in Female Rodents	<i>Nancy G. Solomon and Brian Keane</i>	42
5	Sexual Selection: Using Social Ecology to Determine Fitness Differences	<i>Lara S. Carroll and Wayne K. Potts</i>	57
6	A Phylogenetic Analysis of the Breeding Systems of Neotomine-Peromyscine Rodents	<i>Matina C. Kalcounis-Rüppell and David O. Ribble</i>	68
7	Alternative Reproductive Tactics and Strategies of Tree Squirrels	<i>John L. Koprowski</i>	86

Life Histories and Behavior

8	Fast and Slow Life Histories of Rodents	<i>F. Stephen Dobson and Madan K. Oli</i>	99
9	Acceleration and Delay of Reproduction in Rodents	<i>Lee C. Drickamer</i>	106
10	Sexual Size Dimorphism in Rodents	<i>Albrecht I. Schulte-Hostedde</i>	115
11	Facultative Sex Ratio Adjustment	<i>Robert S. Sikes</i>	129
12	The Role of the Stress Axis in Life-History Adaptations	<i>Rudy Boonstra, J. M. Barker, J. Castillo, and Q. E. Fletcher</i>	139
13	Dispersal and Philopatry	<i>Scott Nunes</i>	150
14	Gene Dynamics and Social Behavior	<i>F. Stephen Dobson</i>	163
15	Social Behavior and Self-Regulation in Murid Rodents	<i>Charles J. Krebs, Xavier Lambin and Jerry O. Wolff</i>	173

Behavioral Development

16	Neural Regulation of Social Behavior in Rodents	<i>J. Thomas Curtis, Yan Liu, Brandon J. Aragona, and Zuoxin Wang</i>	185
17	Ontogeny of Adaptive Behaviors	<i>Jill M. Mateo</i>	195
18	Social Learning by Rodents	<i>Bennett G. Galef Jr.</i>	207

- 19 Kin Recognition in Rodents: Issues and Evidence
Warren G. Holmes and Jill M. Mateo 216

Social Behavior

- 20 Parental Care *Betty McGuire and William E. Bemis* 231
21 The Ecology of Sociality in Rodents *Eileen A. Lacey and Paul W. Sherman* 243
22 Scent Marking *S. Craig Roberts* 255
23 Nonparental Infanticide *Luis A. Ebensperger and Daniel T. Blumstein* 267
24 Social Organization and Monogamy in the Beaver *Peter Busher* 280
25 Evolution of Pacifism and Sociality in Blind Mole-Rats *Eviatar Nevo* 291

Antipredator Behavior

- 26 Social and Antipredator Systems: Intertwining Links in Multiple Time Frames
Donald H. Owings and Richard G. Coss 305
27 The Evolution of Alarm Communication in Rodents: Structure, Function, and the
Puzzle of Apparently Altruistic Calling *Daniel T. Blumstein* 317
28 Fear and the Foraging, Breeding, and Sociality of Rodents
Hannu Ylönen and Joel S. Brown 328

Comparative Socioecology

- 29 Ecology, Kinship, and Ground Squirrel Sociality: Insights from Comparative Analyses
James F. Hare and Jan O. Murie 345
30 Evolution of Sociality in Marmots: It Begins with Hibernation
Kenneth B. Armitage 356
31 Environmental Constraints and the Evolution of Sociality in Semifossorial Desert
Rodents *Jan A. Randall* 368
32 Comparative Social Organization and Life History of *Rattus* and *Mus*
Manuel Berdoy and Lee C. Drickamer 380
33 Social Organization and Resource Use in Capybaras and Maras
David W. Macdonald, Emilio A. Herrera, Andrew B. Taber,
and José Roberto Moreira 393
34 Social Structure in Octodontid and Ctenomyid Rodents
Eileen A. Lacey and Luis A. Ebensperger 403
35 Socioecology of Rock-Dwelling Rodents *Karen J. Nutt* 416
36 African Mole-Rats: Social and Ecological Diversity
Chris G. Faulkes and Nigel C. Bennett 427
37 Alarm Calling, Multiple Mating, and Infanticide among Black-Tailed, Gunnison's, and
Utah Prairie Dogs *John L. Hoogland* 438

Conservation and Disease

- 38 Issues in Rodent Conservation *William Z. Lidicker Jr.* 453
39 Conservation of Ground Squirrels *Beatrice Van Horne* 463
40 Conservation of Prairie Dogs *John L. Hoogland* 472

- 41 Social Behavior, Demography, and Rodent-Borne Pathogens
Richard S. Ostfeld and James N. Mills 478

Conclusions

- 42 Conclusions and Future Directions *Paul W. Sherman and Jerry O. Wolff* 489
