
Acknowledgments

This volume was made possible by a generous grant from the Alfred P. Sloan Foundation (grant #G-2020-12662) to the National Bureau of Economic Research. It is part of a multi-year research initiative at the NBER on the economics of digitization. We are grateful to Daniel Goroff of the Sloan Foundation for his interest in and support for this project. We would also like to thank Helena Fitz-Patrick for outstanding assistance in the editorial process, Denis Healy for expert management of the Sloan Foundation grant, and Rob Shannon for excellent administration of the meeting at which the papers in this volume were presented.
