

# TABLE OF CONTENTS

	PAGE
<b>A. INTRODUCTORY BACKGROUND</b>	
<b>CHAPTER I. RISE AND DEVELOPMENT OF THE EUROPEAN BEET-SUGAR INDUSTRY</b>	
1. Introductory . . . . .	11
2. Origin and spread of the cane-sugar industry . . . . .	12
3. Inception and development of the European beet-sugar industry . . . . .	14
a. Early beginnings.—Marggraf's discovery . . . . .	14
b. Experiments of Achard and other German and French scientists . . . . .	15
c. Napoleon's decrees.—Development in France and other European countries . . . . .	17
4. Bounties and the Brussels convention of 1902 . . . . .	20
a. The bounty system in Europe . . . . .	20
b. The Brussels convention of 1902 . . . . .	25
(1) Position of Great Britain and other immediate causes of the convention . . . . .	25
(2) Provisions of the convention . . . . .	26
(3) The convention as amended . . . . .	27
(4) Summary of results and events following the convention . . . . .	28
<b>B. DEVELOPMENT OF THE UNITED STATES BEET-SUGAR INDUSTRY</b>	
<b>CHAPTER II. HISTORICAL SKETCH AND SURVEY OF THE PRESENT SITUATION</b>	
1. Historical sketch . . . . .	32
a. Early attempts to establish the industry . . . . .	32
(1) Various early attempts, mostly unsuccessful . . . . .	32
(2) Some of the first successes . . . . .	34
(3) More important attempts following the formation of the sugar trust and the passage of the McKinley bill . . . . .	35

	PAGE
b. Passage of the Dingley bill and growth of the industry . . . . .	37
(1) Rapid increase in factory building . . . . .	37
(2) Effect of the rapid growth, together with the Cuban and Philippine concessions. . . . .	41
(3) Later developments . . . . .	42
2. Survey of progress and present situation of the United States beet-sugar industry. (Based on a comparison of census reports) . . . . .	43
a. Increases in quantity and value of products, expenses, capitalization . . . . .	43
b. Comparison of developments in different states . . . . .	49
c. Comparison of United States beet- and cane-sugar industries . . . . .	50
d. Comparison of United States and German beet-sugar-factory operations . . . . .	51

### C. PROBLEMS AFFECTING THE FUTURE OF THE UNITED STATES BEET-SUGAR INDUSTRY

#### CHAPTER III. PRELIMINARY SURVEY OF THE FIELD

1. Introductory . . . . .	54
2. Recent tendencies and situation in the various countries of the world . . . . .	55
3. Possibilities of expansion . . . . .	57
a. In the world as a whole . . . . .	57
b. In the United States . . . . .	59
(1) Question of market . . . . .	59
(2) Question of agricultural area . . . . .	61

#### CHAPTER IV. COSTS IN THE UNITED STATES. (Other than agricultural)

1. Preliminary considerations . . . . .	65
a. Relative importance of various costs . . . . .	65
b. Character of available data . . . . .	67
2. Cost figures of different authorities. (Mostly <i>ex parte</i> ) . . . . .	69
3. Analyses of different parts of cost . . . . .	78
a. Cost of raw material to the factories . . . . .	78
(1) Cost of beets in various states and factors affecting the same . . . . .	78
(2) Sugar content and extraction as affecting cost . . . . .	86
b. Manufacturing costs . . . . .	91

	PAGE
4. Summary of United States costs . . . . .	99
5. Comparison with European costs . . . . .	99
a. Data in different terms . . . . .	99
b. Cost of raw materials.—Prices paid for beets . . . .	100
c. Manufacturing costs . . . . .	102
d. Summary . . . . .	111
<b>CHAPTER V. COST OF GROWING BEETS IN THE UNITED STATES</b>	
1. Principal classes of data . . . . .	114
a. Agricultural experiment station records . . . . .	114
b. Farmers' reports . . . . .	117
c. Estimates . . . . .	119
2. Example of a good record of data . . . . .	121
3. Data from the writer's experience. (Somewhat detailed) .	123
4. Summary regarding cost of growing beets in the United States . . . . .	129
5. Comparison with German agricultural costs . . . . .	135
<b>CHAPTER VI. POSSIBLE IMPROVEMENTS AND INDIRECT ADVANTAGES.</b> (Special reference to the agricultural phases of the industry)	
1. Possible improvements . . . . .	141
a. Seed selection and breeding . . . . .	142
b. Invention and use of machinery . . . . .	144
c. Utilization of by-products . . . . .	145
d. Crop rotation . . . . .	146
e. Manufacturing wastes . . . . .	148
2. Indirect advantages . . . . .	148
a. European agricultural investigations . . . . .	148
b. United States data relative to the subject . . . . .	152
c. Other indirect advantages . . . . .	153
3. Some comparisons and criticisms . . . . .	156
<b>CHAPTER VII. CANE-SUGAR COMPETITION</b>	
1. Cuba . . . . .	164
a. Recent changes significant . . . . .	164
b. Various estimates of Cuban possibilities . . . . .	167
c. Agricultural conditions . . . . .	169
d. Cost statements of various authorities . . . . .	172
e. Labor and wages . . . . .	178
f. Conclusion . . . . .	180
2. The Philippine Islands . . . . .	181
a. Area and sugar production of the islands . . . . .	181
b. Special investigation of the Island of Negros . . . .	184
(1) Area and sugar production of Negros . . . . .	185
(2) Comparison with other cane-sugar countries . . . . .	186

	PAGE
(3) Wasteful methods . . . . .	189
(4) Cost of sugar production.—Labor and wages . . . . .	191
(5) Conclusions as to Negroes . . . . .	193
c. Statements of various authorities as to Philippine conditions and costs . . . . .	193
d. Conclusion . . . . .	196
3. Other cane-sugar countries . . . . .	197
a. Java . . . . .	197
b. Hawaii . . . . .	199
c. Porto Rico . . . . .	201
4. Conclusion . . . . .	203
 <b>CHAPTER VIII. TARIFFS AND PRICES</b>	
1. United States sugar-tariff rates . . . . .	206
2. Professor Taussig's analysis . . . . .	209
3. <i>Ex parte</i> statements of tariff costs . . . . .	212
4. Analyses of the effects of tariffs and other factors governing prices . . . . .	213
a. Effects of world supply on world prices of raws . . . . .	213
b. Effect of United States duties on New York prices of raw and granulated . . . . .	214
c. Effect of refiners' competition on the margin between raw and granulated . . . . .	219
d. The Cuban concession . . . . .	222
e. Summary and conclusion . . . . .	229
 <b>CHAPTER IX. THE SUGAR TRUST</b>	
1. Sugar-trust methods . . . . .	234
2. The trust's relations to the beet-sugar industry . . . . .	235
 <b>CHAPTER X. FREIGHT RATES</b>	
1. Ocean rates . . . . .	244
2. Rates affecting cane-sugar distribution primarily . . . . .	245
3. Rates affecting more directly the distribution of beet-sugar in its competition with cane-sugar . . . . .	247
 <b>CHAPTER XI. CONCLUSION . . . . .</b>	
<b>253</b>	
 <b>APPENDIX</b>	
1. Agricultural costs . . . . .	267
2. Foreign labor . . . . .	277
3. Bibliography . . . . .	280
