POPULATION, INCOME, AND HEALTH INSURANCE (CHAPTER 1)	
1. Population, New York City, 1900-60	10
2. Population, Four Suburban New York Counties, 1940-60	11
3. Distribution of Population by Ethnic Group, New York City, 1957	15
4. Distribution of Population by Age Group, New York City, 1940, 1950, and 1960	16
5. Distribution of Population by Borough, New York City, 1940, 1950, and 1960	17
6. Distribution of Puerto Rican and Nonwhite Population by Borough, New York City, 1940 and 1957	18
7. Per Capita Income, New York City and Selected Areas, 1939, 1947, and 1956	20
8. Percentage Distribution of Families by Income, New York City, New York State, and United States, 1949 and 1956	21
9. Per Capita Income by Borough, New York City, 1939, 1947, and 1956	22
10. Median Money Earnings of Persons Fourteen Years Old and Over by Ethnic Group, New York City, 1949 and 1956	23
11. Percentage Distribution of White, Nonwhite, and Puerto Rican Families by Income, New York City, 1956	23
12. Median Income of White and Nonwhite Income Recipients by Sex, New York City, 1949 and 1956	24
13. Median Income of White and Nonwhite Income Recipients by Sex, New York City, United States Total, and United States Urban, 1956	25
14. Percentage Distribution of Persons Eligible for Care in Union Health Centers by Type of Service, New York City, 1957	29
PATTERNS OF HOSPITAL USE (CHAPTER 2)	
1. Distribution of All Hospital Facilities by Ownership, New York City, 1958	34

2. Distribution of Short-Term Hospital Facilities and Services by Ownership, New York City and United States, 1958	35
3. Percentage of Facilities and Services in Short-Term Hospitals in New York City to Those in United States, and Ratios per 1,000 Population, 1958	36
4. Distribution of Facilities and Services by Hospital Ownership, New York City, 1930, 1940, 1950, and 1958	38
5. Distribution of General-Care Facilities and Services by Hospital Ownership, New York City, 1940, 1950, and 1958	40
6. Computed Measures of Hospital Use in General-Care Facilities by Ownership, New York City, 1940, 1950, and 1958	42
7. General-Care Facilities and Services in Voluntary Hospitals by Type of Accommodation, New York City, 1940, 1950, and 1958	46
8. Computed Measures of Hospital Use in General-Care Facilities of Voluntary Hospitals by Type of Accommodation, New York City, 1940, 1950, and 1958	47
9. General-Care Facilities and Services in All Hospitals by Type of Accommodation, New York City, 1940, 1950, and 1958	49
10. Private (including Semiprivate) General-Care Facilities and Services by Hospital Ownership, New York City, 1940, 1950, and 1958	50
11. Ward General-Care Facilities and Services by Hospital Ownership, New York City, 1940, 1950, and 1958	51
12. Outpatient Department Visits by Hospital Ownership, New York City, 1925-58	52
13. Emergency Department Visits by Hospital Ownership, New York City, 1948, 1950, and 1958	56
14. Emergency Ambulance Calls by Hospital Ownership, New York City, 1930, 1940, 1950, and 1958	58
15. Patient Days Reported for Patients on Home Care by Hospital Ownership, New York City, 1949, 1950, and 1958	61
16. Distribution of Facilities and Services for Non-General-Care Patients by Hospital Ownership, New York City, 1940, 1950, and 1958	64
17. Proportion of Facilities and Services for Non-General-Care Patients to Total by Hospital Ownership, New York City, 1940, 1950, and 1958	65
18. Distribution between General Care and Other Care of Increase in Bed Complement, by Hospital Ownership, New York City, 1940-58	66
19. Distribution between General Care and Other Care of Increase in Patient Days, by Hospital Ownership, New York City, 1940-58	66

TABLES

xxiii

20. Distribution of Non-General-Care Beds and Services by Type of Program, New York City, 1958	67
21. Distribution of Facilities and Services for Psychiatric Inpatients by Hospital Ownership, New York City, 1940, 1950, and 1958	69
22. Visits to Psychiatric Clinics of Outpatient Departments by Hospital Ownership, New York City, 1940, 1950, and 1958	70
23. Distribution of Facilities and Services for Patients with Tuberculosis by Hospital Ownership, New York City, 1940, 1950, and 1958	73
24. Distribution of Facilities and Services for Patients with Tuberculosis by Hospital Ownership, New York City and Environs, 1940, 1950, and 1958	75
25. Distribution of Rehabilitation Facilities and Services for Inpatients by Hospital Ownership, New York City, 1958	77
26. Distribution of Hospital Facilities and Services for Chronically Ill by Hospital Ownership, New York City, 1940, 1950, and 1958	79
27. Distribution of Nursing-Home Beds in Hospitals by Ownership, New York City, 1958	80
28. Distribution of Nursing-Home Facilities Outside Hospitals and Their Services by Ownership, New York City, 1958	82
29. Distribution of Facilities and Services for Long-Term Care by Ownership and by Location with Respect to Hospitals, New York City, 1958	83
30. Percentage Distribution of Total Facilities and Services for Long-Term Care by Ownership, New York City, 1958	84

CHARACTERISTICS OF PATIENTS IN SHORT-TERM HOSPITALS

(CHAPTER 3)

1. Rate per 100 Discharges and Rate per 100 Patient Days According to Pay Status of Patients in General-Care Hospitals, by Hospital Ownership and Type of Accommodation, New York City, 1957	94
2. Proportion (Percent) of Nonresidents among Discharges from Voluntary, Municipal, and Proprietary General-Care Hospitals, New York City, 1933 and 1957	95
3. Distribution by Hospital Ownership of Nonresident Discharges from General-Care Hospitals, New York City, 1957	96
4. Distribution by Hospital Ownership of Puerto Rican, Nonwhite, and Other White Resident Admissions, New York City, 1951	97
5. Distribution by Ethnic Status of Resident Admissions to Voluntary, Municipal, and Proprietary Hospitals, New York City, 1951	98

6. Distribution of Puerto Rican, Nonwhite, and Other White Admissions to General-Care Hospitals by Hospital Ownership and Type of Accommodation, New York City, 1957	99
7. Distribution by Ethnic Status of Admissions to Voluntary, Municipal, and Proprietary General-Care Hospitals, New York City, 1957	100
8. Percentage Distribution by Age Group of One-Day Patient Census in Voluntary, Municipal, and Proprietary General-Care Hospitals, New York City, 1953	105
9. Percentage Distribution by Age Group of Admissions to Voluntary General Hospitals by Type of Accommodation, and of Discharges from Municipal General Hospitals, New York City, 1958 and 1957	106
10. Distribution of Age Groups in One-Day Patient Census in General-Care Hospitals by Hospital Ownership and Type of Accommodation, New York City, 1958	107
11. Distribution by Age Group of One-Day Patient Census in Voluntary, Municipal, and Proprietary General-Care Hospitals, New York City, 1958	108
12. Percentage Distribution by Age Group of One-Day Patient Census in Wards of Voluntary and Municipal General-Care Hospitals, New York City, 1958	108
13. Distribution by Length of Stay of Discharges from Voluntary, Municipal, and Proprietary Hospitals, New York City, 1951	111
14. Distribution by Length of Stay of Patient Days of Discharged Patients, Voluntary, Municipal, and Proprietary Hospitals, New York City, 1951	111
15. Percentage Distribution by Length of Stay of Old Age Assistance Recipients, General-Care Voluntary and Municipal Hospitals, New York City, 1957	112
16. Rate per 100 Discharged Patients for Selected Diagnostic Categories in Voluntary, Municipal, and Proprietary General-Care Hospitals, New York City, 1954	113
17. Rate per 100 Discharges or per 100 in One-Day Patient Census for Selected Patient Characteristics in Wards of Voluntary and Municipal General-Care Hospitals, New York City, 1957 or 1958	118
18. Distribution by Age Group of Discharges from Voluntary and Municipal General Hospitals, New York City, 1933	126
19. Distribution by Age Group of Resident Admissions to Voluntary, Municipal, and Proprietary Hospitals, New York City, 1951	126
20. Distribution by Age Group of One-Day Patient Census in Municipal General Hospitals, New York City, 1955	127

TABLES

xxv

21. Distribution by Age Group of Discharges from All Municipal Hospitals, New York City, 1952, 1956, and 1957	128
---	-----

USE OF WARD SERVICE BY HEALTH INSURANCE SUBSCRIBERS
(CHAPTER 4)

1. Proportion of AHS Patients in Ward, Voluntary and Municipal General-Care Hospitals, New York City, 1958	132
--	-----

ATTENDING STAFF (CHAPTER 5)

1. Number of Physicians by Type of Practice, New York City, 1950 and 1958	146
2. Physicians with Regular Staff Appointments in Voluntary or Municipal Hospitals, or Both, New York City, 1948 and 1958	147
3. Cross-Classification by Teaching Class of Hospital of Staff Appointments Held by Physicians Affiliated with Both Hospital Systems, New York City, 1958	152
4. Comparison between Ranks Held in Voluntary and Municipal Hospitals of Specified Teaching Class by Physicians with Appointments in Both Systems, New York City, 1958	153

INTERNS AND RESIDENTS (CHAPTER 6)

1. Interns and Residents in Approved Training Programs, United States, 1930-58	169
2. Interns and Residents in Approved Training Programs in New York City and United States, 1935 and Fiscal 1959	174
3. Distribution of House Staff in Approved Training Programs by Location of Medical School of Graduation and by Citizenship Status, New York City and United States, Fiscal Year 1959	176
4. Distribution of Interns in Approved Training Programs by Medical School Affiliation Status of Hospital, New York City, 1936 and Fiscal 1959, and United States, Fiscal 1958	177
5. Distribution of Residents in Approved Training Programs by Medical School Affiliation Status of Hospital, New York City, 1936 and Fiscal 1959, and United States, Fiscal 1960	178
6. House Staff in Approved Training Programs in Voluntary and Municipal Hospitals, New York City, 1935, 1951, 1955, and 1959	179
7. Interns in Approved Training Programs in Voluntary and Municipal Hospitals, New York City, 1935, 1951, 1955, and 1959	180
8. Residents in Approved Training Programs in Voluntary and Municipal Hospitals, New York City, 1935, 1951, 1955, and 1959	181

9. House Staff in Approved Training Programs by Citizenship Status in Voluntary and Municipal Hospitals, New York City, 1951, 1955, and 1959	183
10. Changes in House Staff in Approved Training Programs by Citizenship Status in Voluntary and Municipal Hospitals, New York City, 1951-59, 1951-55, and 1955-59	183
11. Percentage of Alien Physicians in Approved Training Programs in Voluntary and Municipal Hospitals, New York City, 1951, 1955, and 1959	184
12. Percentage of Alien Physicians among Interns and Residents in Approved Training Programs in Voluntary and Municipal Hospitals, New York City, 1951, 1955, and 1959	185
13. Distribution of Interns and Residents in Approved Training Programs by Location of Medical School of Graduation and by Citizenship Status for Graduates of Foreign Schools in Voluntary and Municipal Hospitals, New York City, 1959	186
14. Distribution of Voluntary and Municipal Hospitals with Approved Internships by Percentage of Total Budgeted Positions Filled by Graduates of American Medical Schools and by Medical School Affiliation, New York City, 1959	188
15. Distribution of Voluntary and Municipal Hospitals with Approved Residencies by Percentage of Total Budgeted Positions Filled by Graduates of American Medical Schools and by Medical School Affiliation, New York City, 1959	192
16. Percentage of Total Interns and Residents in Approved Programs Who Graduated from American Medical Schools, by Hospital Ownership and by Medical School Affiliation, New York City, 1959	194
17. Joint Distribution of Voluntary and Municipal Hospitals with Approved Training Programs by Percentage of American Graduated Interns and American Graduated Residents, New York City, 1959	195
18. Changes between 1951 and 1959 in Number of Interns and of Residents in Approved Training Programs, by Medical School Affiliation of Hospital and by Citizenship Status of Physician, in Voluntary and Municipal Hospitals, New York City	196
19. Percentage of Alien Physicians among Interns and Residents in Approved Training Programs, by Hospital Ownership and by Medical School Affiliation, New York City, 1951 and 1959	198
20. Distribution of Interns in Approved Training Programs (American Medical School Graduates and Others by Citizenship Status) among Hospitals, by Ownership and by Medical School Affiliation, New York City, 1959	201

TABLES

xxvii

21. Distribution of Residents in Approved Training Programs (American Medical School Graduates and Others by Citizenship Status) among Hospitals, by Ownership and by Medical School Affiliation, New York City, 1959	202
22. Interns in Approved Training Programs by Citizenship Status in Voluntary and Municipal Hospitals, New York City, 1951, 1955, and 1959	217
23. Residents in Approved Training Programs by Citizenship Status in Voluntary and Municipal Hospitals, New York City, 1951, 1955, and 1959	218
24. House Staff in Approved Training Programs by Citizenship Status and by Medical School Affiliation in Voluntary and Municipal Hospitals, New York City, 1951 and 1959	218
25. Interns in Approved Training Programs by Citizenship Status and by Medical School Affiliation in Voluntary and Municipal Hospitals, New York City, 1951 and 1959	219
26. Residents in Approved Training Programs by Citizenship Status and by Medical School Affiliation in Voluntary and Municipal Hospitals, New York City, 1951 and 1959	220

NURSING PERSONNEL (CHAPTER 7)

1. Distribution of Staff of Nursing Services in Voluntary and Municipal General-Care Hospitals by Category of Nursing Personnel and Ratio of Staff to 100 Daily Patients, New York City, 1958	228
2. Distribution of Voluntary and Municipal General-Care Hospitals by Ratio of Registered Nurses to 100 Daily Patients, New York City, 1958	231
3. Annual Cost and Income per Hospital Student Nurse	245

**CONDITION OF PLANT AND EXPENDITURES FOR CONSTRUCTION
(CHAPTER 8)**

1. Distribution of Total Bed Capacity by Hospital Ownership, New York City, 1945 and 1958	249
2. Distribution of Total Bed Capacity in Suitable Buildings by Hospital Ownership, New York City, 1945 and 1958	249
3. Distribution of Total Bed Capacity in Unsuitable Buildings by Reason of Unsuitability, New York City, 1945 and 1958	250
4. Distribution of General-Care Bed Capacity by Hospital Ownership, New York City, 1945 and 1958	251
5. Distribution of General-Care Bed Capacity in Suitable Buildings by Hospital Ownership, New York City, 1945 and 1958	252
6. Proportion of General-Care Bed Capacity in Suitable Buildings by Hospital Ownership, New York City, 1945 and 1958	252

7. Distribution of Long-Term Bed Capacity by Hospital Ownership, New York City, 1945 and 1958	253
8. Distribution of Long-Term Bed Capacity in Suitable Buildings by Hospital Ownership, New York City, 1945 and 1958	253
9. Distribution of All General-Care Hospitals and Their Bed Capacity by Size of Hospital, New York City, 1943 and 1956	254
10. Distribution of Voluntary, Municipal, and Proprietary General-Care Hospitals and Their Bed Capacities by Size of Hospital, New York City, 1956	255
11. Distribution of Beds in Voluntary General-Care Hospitals by Size of Accommodation, New York City, 1946 and 1954	256
12. Distribution of Expenditures for Construction by Four-Year Periods and by Hospital Ownership, New York City, 1945-56	257
13. Distribution of Expenditures for Construction in Selected Time Intervals by Hospital Ownership, New York City, 1920-56	259
14. Distribution of Expenditures for Construction by Hospital Ownership, New York City, 1945-56, and United States, 1948-57	262
15. Distribution of Expenditures for Construction by Source of Funds, New York City, 1945-56, and United States, 1948-57	264
16. Expenditures for Hospital Construction, New York City, 1945-56	270
17. Value of Hospital Construction Contracts Let in New York City, Original Data by F. W. Dodge Corporation and Data Adjusted for Value of Equipment and Architects' Services, 1945-56	270
 PROBLEMS IN HOSPITAL MANAGEMENT (CHAPTER 9)	
1. Number of Voluntary Hospitals with Specified Size of Board, Authorized and Actual, New York City, 1957	274
 QUALITY OF CARE (CHAPTER 10)	
1. Distribution by Hospital Ownership of Medical Research Expenditures in Non-Medical-School Hospitals, New York City, Fiscal Year 1958	312
2. Distribution by Hospital Ownership of NIH Research Grants to Non-Medical-School Hospitals, New York City, Fiscal Years 1951 and 1956-59	313
3. Proportion of Total NIH Research Grants Received by Voluntary Hospitals Not Staffed by Medical Schools, New York City, Fiscal Years 1951 and 1956-59	313

TRENDS IN INCOME, 1934-57 (CHAPTER 12)

1. Distribution of Income by Source for All Hospitals, New York City, 1934, 1948, and 1957	344
2. Distribution of Income by Source for All Long-Term Hospitals, New York City, 1934, 1948, and 1957	345
3. Distribution of Income by Source for All General-Care Hospitals, New York City, 1934, 1948, and 1957	346
4. Distribution of Income by Hospital Ownership for All Hospitals, New York City, 1934, 1948, and 1957	347
5. Distribution of Income by Hospital Ownership for All Long-Term Hospitals, New York City, 1934, 1948, and 1957	348
6. Distribution of Income by Hospital Ownership for All General-Care Hospitals, New York City, 1934, 1948, and 1957	348

SOURCES OF INCOME OF VOLUNTARY HOSPITALS (CHAPTER 13)

1. Distribution of Income by Source for All Voluntary Hospitals, New York City, 1934, 1948, and 1957	353
2. Distribution of Income by Source for Voluntary Long-Term Hospitals, New York City, 1934, 1948, and 1957	354
3. Distribution of Income by Source for Voluntary General-Care Hospitals, New York City, 1934, 1948, and 1957	355
4. Distribution of Private Payments by Source for Voluntary General-Care Hospitals, New York City, 1957	356
5. Distribution of Income from Tax Funds by Program of Payment for Voluntary General-Care Hospitals, New York City	357
6. Distribution of Income from Philanthropy by Component for Voluntary General-Care Hospitals, New York City, 1957	360

FINANCIAL POSITION OF VOLUNTARY HOSPITALS (CHAPTER 14)

1. Relationship of Operating Deficit to Expenditures for Voluntary General-Care Hospitals, New York City, 1934, 1948, and 1957	368
2. Relationship of Operating Deficit to Expenditure for Patient Care for United Hospital Fund Member General Hospitals, New York City, 1956, 1957, and 1958	368
3. Average Patient Day Income by Type of Accommodation and Pay Status within the Ward for United Hospital Fund Member General Hospitals, New York City, 1948 and 1958	376
4. Income from Philanthropy for General Purposes and Size of Operating Deficit for United Hospital Fund Member General Hospitals, New York City, 1956, 1957, and 1958	377

INCOME OF MUNICIPAL HOSPITALS (CHAPTER 15)

- | | |
|---|-----|
| 1. Distribution of Income by Source for All Municipal Hospitals, New York City, 1934, 1948, and 1957 | 388 |
| 2. Distribution of Income by Source for Municipal Long-Term Hospitals, New York City, 1934, 1948, and 1957 | 390 |
| 3. Distribution of Income by Source for Municipal General-Care Hospitals, New York City, 1934, 1948, and 1957 | 390 |
| 4. Distribution of Private Payments by Source for Municipal General-Care Hospitals, New York City, 1957 | 391 |

ROLE OF GOVERNMENT (CHAPTER 16)

- | | |
|--|-----|
| 1. Proportion of Expense Budget of City of New York Devoted to Hospital Care, 1948 and 1957 | 403 |
| 2. Distribution of Income from Tax Funds by Level of Government according to Type of Hospital, New York City, 1957 | 406 |
| 3. Expenditures from Tax Funds in General-Care Hospitals by Category of Recipient and Hospital Ownership, New York City, 1957 | 409 |
| 4. Daily Rate of Payment by City to Voluntary General Hospitals for Medical and Surgical Treatment of Public Charges, New York City, 1900-61 | 414 |

ROLE OF BLUE CROSS (CHAPTER 17)

- | | |
|--|-----|
| 1. AHS Patients, Patient Days, and Payments for All General-Care Hospitals, New York City, 1950-58 | 417 |
| 2. Distribution of Total Patients, Private and Semiprivate Patients, and AHS Patients by Hospital Ownership for General-Care Hospitals, New York City, 1957 | 418 |
| 3. Distribution of AHS Patient Days and Payments for Inpatients by Hospital Ownership for General-Care Hospitals, New York City, 1957 | 418 |
| 4. Proportion of AHS Patients and Patient Days to Total Patients and Patient Days in Each Ownership Group for General-Care Hospitals, New York City, 1957 | 420 |
| 5. Proportion of AHS Payments to Total Income and to Operating Income in Each Ownership Group for General-Care Hospitals, New York City, 1957 | 421 |
| 6. Proportion of AHS Patient Days and of Income from AHS Patients in Each Type of Accommodation for United Hospital Fund Member General Hospitals, New York City, 1957 | 424 |

7. Estimated Distribution of Supplementary Charges to AHS Patients by Category of Charge for United Hospital Fund Member General Hospitals, New York City, 1958	431
8. AHS Patients, Patient Days, and Payments for Voluntary General-Care Hospitals, New York City, 1950-58	435
9. AHS Patients, Patient Days, and Payments for Municipal General-Care Hospitals, New York City, 1950-58	436
10. AHS Patients, Patient Days, and Payments for Proprietary General-Care Hospitals, New York City, 1950-58	436

ROLE OF PHILANTHROPY (CHAPTER 18)

1. Distribution by Component of Income from Philanthropy for Voluntary General-Care Hospitals, New York City, 1934, 1948, and 1957	439
2. Percentage Increases in Components of Income from Philanthropy for Voluntary General-Care Hospitals, New York City, 1934-48, 1948-57, and 1934-57	440
3. Distribution by Source of Centrally Raised Funds Received by United Hospital Fund Member General Hospitals, New York City, 1940, 1948, and 1957	441
4. Allocation of United Hospital Fund Moneys to Member General-Care Hospitals according to Basis of Distribution, New York City, 1940, 1948, 1957, and 1959	444
5. Allocation of Greater New York Fund Moneys to United Hospital Fund Member General-Care Hospitals According to Basis of Distribution, New York City, 1940, 1948, 1957, and 1959	447
6. Value of Permanent and Temporary Funds Held by United Hospital Fund Member General Hospitals, by Purpose, New York City, 1948 and 1957	453

COST OF HOSPITAL CARE (CHAPTER 19)

1. Changes in Patient Day Cost of General Hospitals by Ownership, New York City, 1934, 1948, and 1957	461
2. Distribution of Direct Departmental Expenses for Inpatients per Patient Day by Major Departmental Grouping for United Hospital Fund Member General Hospitals, New York City, 1949 and 1958	464
3. Distribution of Patient Day Cost by Major Departmental Grouping for Municipal General Hospitals, New York City, 1948 and 1958	465

4. Derivation of Patient Days, Patient Day Cost, and Expenditures for Inpatients in General Hospitals, New York City, 1934, 1948, and 1957	483
5. Values of Terms in Equation for Distributing Increase in Expenditures for Inpatients in General Hospitals, New York City, 1934, 1948, and 1957	484
6. Division of Increase in Expenditures for Inpatients between Increase in Patient Days and Increase in Patient Day Cost in General Hospitals, New York City, 1934-48, 1948-57, and 1934-57	484
7. Depreciation as Proportion (Percent) of Expenditures, with Variation in Patient Day Cost and in Lives of Building and of Equipment, under Specified Assumptions	488
8. Distribution of Direct Departmental Expenses for Inpatients per Patient Day by Major Departmental Grouping for Voluntary General-Care Hospitals, New York Area, 1947 and 1957	490
COMPARISONS WITH OTHER AREAS (CHAPTER 20)	
1. Distribution of Income by Source for Nonfederal Short-Term Hospitals, United States, 1935, 1950, and 1958	492
2. Distribution of Income by Source for General-Care Hospitals, New York City, 1934, 1948, and 1957	493
3. Percentage Distribution of Income of Short-Term Hospitals by Hospital Ownership and Source of Income, New York City and United States, 1957 and 1958	494
4. Proportion (Percent) of Tax Funds and Income from Philanthropy to Total for General Hospital Care in Selected Large Cities in New York State, 1948	501
5. Percentage Distribution of Income by Source for Short-Term Hospitals in Fifteen Large Cities Classified by Region and in New York City, 1957-58	502
6. Joint Distribution of Fifteen Large Cities by Proportion of Income from Philanthropy and by Proportion of Tax Funds to Total Hospital Income, 1957-58	504
7. Joint Distribution of Thirteen Cities by Proportion of Tax Funds to Hospital Income and by Proportion of Such Income Spent in Government Hospitals, 1957-58	505
8. Joint Distribution of Thirteen Cities by Proportion of Private Payments to Hospital Income, 1957-58, and by Proportion of Population Insured for Hospital Care, 1959	506
9. Income of Short-Term Hospitals by Source of Income and Hospital Ownership, New York City and United States, 1957 and 1958	510

HOSPITAL CARE
IN NEW YORK CITY
