

ZERO-CARBON INDUSTRY

CENTER ON GLOBAL ENERGY POLICY SERIES

CENTER ON GLOBAL ENERGY POLICY SERIES

JASON BORDOFF, SERIES EDITOR

Sustainably meeting the world's energy needs is the defining challenge of the twenty-first century. The Center on Global Energy Policy (CGEP) at Columbia University's School of International and Public Affairs advances actionable solutions to this challenge through research, dialogue, and education. We operate at the intersection of geopolitics, climate, and the economy on the understanding that energy is at the heart of each. The Center on Global Energy Policy book series furthers this mission by offering readers accessible and policy-relevant books, grounded in the highest standards of research and analysis.

Michael D. Tusiani with Anne-Marie Johnson, *From Black Gold to Frozen Gas: How Qatar Became an Energy Superpower*

Mark L. Clifford, *Let There Be Light: How Electricity Made Modern Hong Kong*

Johannes Urpelainen, *Energy and Environment in India: The Politics of a Chronic Crisis*

Agathe Demarais, *Backfire: How Sanctions Reshape the World Against U.S. Interests*

David R. Mares, *Resource Nationalism and Energy Policy: Venezuela in Context*

Ibrahim AlMuhanna, *Oil Leaders: An Insider's Account of Four Decades of Saudi Arabia and OPEC's Global Energy Policy*

Amy Myers Jaffe, *Energy's Digital Future: Harnessing Innovation for American Resilience and National Security*

Jim Krane, *Energy Kingdoms: Oil and Political Survival in the Persian Gulf*

Richard Nephew, *The Art of Sanctions: A View from the Field*

Daniel Raimi, *The Fracking Debate: The Risks, Benefits, and Uncertainties of the Shale Revolution*

Robert McNally, *Crude Volatility: The History and the Future of Boom-Bust Oil Prices*
