

# ECOLOGY AND EVOLUTION OF ACOUSTIC COMMUNICATION IN BIRDS

## ERRATA

### *Ecology and Evolution of Acoustic Communication in Birds*

edited by Donald E. Kroodsma and Edward H. Miller

Two lines are missing from the footnotes to Table 9.2, on page 173. Footnotes a and b should read as follows:

<sup>a</sup>Values given are ratios between the population coefficient of variation and the mean of individual coefficients of variation (Jouventin 1982, Bretagnolle 1989b, Bretagnolle and Lequette 1990)—a large ratio indicates that calls are highly variable between individuals but highly stereotyped within individuals. From Bretagnolle and C. Rabouam (unpubl. data).

<sup>b</sup>Warham (1990) lists *P. yelkouan* as a subspecies of *P. puffinus*.
