# THEORY FOR A GLOBAL AGE

**Series Editor:** Gurminder K. Bhambra

Globalization is widely viewed as a current condition of the world, but there is little engagement with how this changes the way we understand it. The *Theory for a Global Age* series addresses the impact of globalization on the social sciences and humanities. Each title will focus on a particular theoretical issue or topic of empirical controversy and debate, addressing theory in a more global and interconnected manner. With contributions from scholars across the globe, the series will explore different perspectives to examine globalization from a global viewpoint. True to its global character, the *Theory for a Global Age* series will be available for online access worldwide via Creative Commons licensing, aiming to stimulate wide debate within academia and beyond.
