

## Article Processing Charges

EFFECTIVE JANUARY 2025

---

In order to sustain the production of our fully refereed open access journal, each article accepted for publication in **Open Psychology** is subject to an Article Processing Charge.

The regular APC is determined by the date of submission in the on-line submissions system:

\* 1000 euro + VAT for manuscripts submitted until January 31, 2025

\* 1050 euro + VAT for manuscripts submitted since February 1, 2025

This fee is used to cover the costs of manuscript processing, professional typesetting and copyediting, as well as online hosting, long-term preservation, distribution to libraries and content aggregators worldwide, and extensive promotion to potential readers. There is no submission fee.

Editors and reviewers are not involved in author payment process and do not discuss charges with authors. The ability to pay does not influence whether or not a manuscript is accepted for publication.

Information regarding payment of these charges will be provided following acceptance for publication. Inquiries concerning Article Processing Charges should be addressed to the Editorial Office.

Articles Processing Charges are collected via RightsLink system (provided by Copyright Clearance Center). The payment can be made in EUR, USD or GBP, and may be subject to VAT when applicable.

### Funding Support and Waiver Policies

Authors who are looking for funds to support the payment of Article Processing Charges have a number of options to consider. For details, visit [our website](#).

If the submitting author is affiliated with an organization which has [an open access agreement](#) with De Gruyter, the article processing charges (APCs) may be covered or discounted.

Authors without access to publishing funds who would like to apply for a discount or a fee waiver are asked to contact the journal Editorial Office before submitting their manuscripts.
